noegenesis (nəʊiːdʒɛnɪsɪs). [f. Gr. *νόη-σις* NOE(SIS + -GENESIS.) The generating of new knowledge from experience through the apprehension of experience, the eduction of relations and the eduction of correlates; the obtaining of knowledge thus. So *noege'netic a.*, of, pertaining to, or concerned with, noegenesis.

1923 C. SPEARMAN *Nature of 'Intelligence'* iv. 61 'Noegenesis'. Another basal property of the manifestations of all the principles is that they, and they alone, are generative of new items in the field of cognition. If then, it be desired to depict these three principles summarily, taking into account both their noetic and their generative properties, we must compound some such name as 'noegenetic'. 1931 F. AVELING in W. ROSE *Outl. Mod. Knowl.* viii. 336 The noegenetic principles, though accounting for the origin of knowledge, do not cover the entire cognitive field. 1936 F. BANKS *Conduct & Ability* xii. 232 Clearly some word like *eduction* was needed to distinguish this noegenetic process from the 'merely associative'. *Ibid.* xv. 308 The third principle of noegenesis will also be found adequate to explain the inventions of science. 1938 *Mind* XLVII. 378 Very proper complaint is registered to the effect that Psychologists have always neglected the problem of the perception of relations. Here again Prof. Spearman may reflect with pride on his own contribution in the shape of the 'noegenetic laws'. 1972 L. S. HEARNshaw in COX & DYSON *20th-Cent. Mind* I. vii. 235 Spearman contributed a powerful and erudite analysis, and though once again his theory of noegenesis, or creative intelligence, has not altogether stood up to subsequent scrutiny, it proved practically useful. 1973 H. J. EYSENCK *Inequality of Man* ii. 45 Spearman (1927) tried to lay down in his 'noegenetic laws' the essence of this cognitive ability.

Noetic (nəu'etɪk), *a.* ¹ *rare.* [f. *Noe* (Vulgate), Noah.] Noachian, Noachic.

1695 WOODWARD *Nat. Hist. Earth* I. (1723) 126 Ever since the time of the Noetick Deluge. 1803 G. S. FABER *Cabiri* I. 131 The mutual resemblance of the Cabiri, the Titans, the Rishis, and the Noëtici family, is too striking to be the effect of mere accident.

noetic (nəu'etɪk), *a.* ² and *sb.* [ad. Gr. νοητικ-ός, f. νόησις NOESIS.]

A. *adj.* 1. a. Of or pertaining to the mind or intellect; characterized by, or consisting in, mental or intellectual activity.

1653 WATERHOUSE *Apol. Learning* 12 All Learning, whether Noetick or Manual, of book or hand, proceeds from God. 1677 GALE *Crt. Gentiles* III. 92 Another attribute... of Pagan Philosophie is, that it be νοητική, noetic or intelligent, i.e. comprehensive of the first and highest principles. 1852 SIR W. HAMILTON *Discuss.* 4 The noetic faculty, intellect proper, or place of principles. 1872 *Contemp. Rev.* XX. 75 Noetic intuition involves some discursive thought. 1890 MASSON *Edinb. Sketches* 220 There was little in his mind of what may be called the purely noetic organ—that faculty which speculates, investigates [etc.]. 1907 W. JAMES *Pragmatism* v. 166 This is the hypothesis of noetic pluralism, which monists consider so absurd. 1925 *Brit. Jnl. Psychol.* Oct. 106 In the following pages the word 'noetic' is used for brevity's sake instead of the more elaborate though more correct 'noegenetic'. *Ibid.* 115 The tests... measure the 'Noetic' and the 'Generative' powers of the subject. 1957 J. S. HUXLEY *Relig. without Revelation* (rev. ed.) ix. 204 Some new term... in which communicable mental activities play a predominant rôle. If so, I suggest the term *noetic*. *Ibid.*, Religions are thus noetic organs of evolving man. 1972 *Encycl. Psychol.* II. 327/2 Noetic superstructure, a term applied by strata theorists... to individual thought processes (power of abstraction, judgment, logical reasoning, etc.) that take place, together with voluntary activities, above the endothyne basis.

b. In phenomenology, that which is concerned with or pertains to the act of thinking or perceiving (see NOESIS c). Cf. NOEMATIC a. b.

1931 [see NOEMA]. 1943 M. FARBER *Found. Phenomenology* xvi. 526 This applies to the noetic side ('I think', 'I experience', etc.) as well as to the noematic side. 1969 R. MCKEON in R. Klibansky *Contemp. Philos.* III. 105 The difference of knower and known disappear in the description of the experiencing (or the 'noetic') and experienced (or the 'noematic').

2. Originating or existing in the mind or intellect; purely intellectual or abstract.

c. 1810 COLERIDGE in *Lit. Rem.* (1838) III. 263 Reduce it to the noetic pentad, or universal form of contemplation. 1836-7 SIR W. HAMILTON *Metaph.* xxi. (1859) II. 33 That

the sensible or ectypal world... stands to the noetic or archetypal world... in the same relation [etc.]. 1881 W. R. SMITH *O. Test. in Jewish Ch.* 32 Those doctrines higher than reason, those noëtici truths, as they were called, of a divine philosophy.

3. Given to intellectual speculation. (See quotes.)

1882 MOZLEY *Reminis.* I. iii. 19 The new Oriel sect was declared to be Noetic, whatever that may mean. 1882 *Church Times* 6 Oct. 674 The so called 'Noetic' school at Oriel was far advanced in Rationalism before Newman became a Fellow. 1893 *Month* Dec. 563 It is the noetic school of Whately which is really responsible for this evil.

B. *sb.* 1. A science of the intellect. Also *pl.*

1825 COLERIDGE *Aids Refl.* (1848) I. 137 The universal Noetic, in which we require terms of most comprehension and least specific import. a. 1834 — in *Lit. Rem.* (1838) III. 416 In short, a transcendental aesthetic, logic, and noetic. 1875 T. HILL *Order Stud.* 1 Gymnastics, or care of the body; noetics, or training of the mind. 1931 W. R. B. GIBSON tr. *Husserl's Ideas* II. iv. §59. 176 So too... we cannot suspend general Noetics, which expresses our essential insight into the rationality or irrationality of the judging activity generally.

2. That which has a purely intellectual existence or basis.

1854 MAURICE *Mor. & Met. Philos.* (ed. 2) 59 To separate that in man which is capable of converse with the noetic, the essentially pure, from that which is... earthly. 1876 WILDER R. P. *Knight's Symbolic Lang.* 4 The end of which is the Knowledge of the First, the Lord, and the Noëtici.

3. A member of the noetic school (see A. 3).

1882 M. PATTISON in *Academy* 1 July 1 The old Oriel school—the Noetics—had no dogmas, and left no books. 1885 — *Mem.* 78 The Noetics knew nothing of the philosophical movement which was taking place on the continent.

|| **non** (non). [L. = not.]

1. The first word in a large number of Latin phrases, chiefly legal, some of which have been

†3. Short for NON PLACET. Also *attrib.* in *non-party*.

non, obs. form of NONE, NOON, NUN.

non- (ndn), *prefix* (also 4-6 noun-, noon-, 5 nom-, 5-6 nowne-, 5-7 none-, often written separate), used to express negation. One of the great formative elements in English. The earlier formations were either directly adopted from, or modelled upon, Anglo-French compounds in *noun-* = OF. *non-*, *nom-*, *nun-*, *num-* (mod.F. *non-*):—L. *nōn* 'not' used as a prefix; from about 1500 the predominant form of the prefix is that of the L. *nōn*. It appears first in English towards the end of the 14th c. in *non-power* (Chaucer, Langland, Wyclif), and *non-residence*, *nonsuit* (Wyclif). In the 15th and 16th c. a considerable number of compounds (chiefly nouns of action and gerunds) were in use, most of them being of a legal character. Until about the middle of the 17th c. the compounds formed with *non-* are mostly of a special or technical kind, but from that time the prefix became less restricted in its use and began to be prefixed freely to substantives, adjectives and adverbs, participles, and verbal sbs. (rarely to infinitival forms). To the political and religious movements of the 17th and 18th c. are due many new formations, some of which, as *nonconformist*, *non-juror*, *non-resistance*, have a permanent place in the language.

In the majority of the compounds of *non-* the hyphen is usually retained; but it is commonly omitted in the case of a few, such as *nonconformist*, *nonentity*, *nonsense*, in which the etymology has been to some extent lost sight of. Normally the prefix is unstressed, but in the disyllables *nonage*, *nonclaim*, *nonsense*, *nonsuit*, and in *nonchalance*, *-ant*, *nondescript*, the *non-* receives the stress. It is also liable to be stressed when the compound and the simple word are coupled together, as *to act* or *'non-act*, *distribution* or *'non-distribution*, *being* and *'non-being*.

Formations having an independent status or a continuous history during any period are entered as Main words; a small proportion of the remainder are illustrated in this article, no attempt having been made to represent with any degree of fullness the very extensive development in the use of the prefix during the last hundred years.

non-con'junction. [NON- 1.] 1. *Cytology.* The failure of homologous chromosomes to pair at meiosis. *rare.*

1925 J. BELLING in *Jrnl. Genetics* XV. 256 Non-conjunction. This term is used instead of non-conjugation, because in most cases it cannot be told whether conjugation, that is, parasynapsis, has taken place or not, with regard to the chromosome pair in question... Non-conjunction cannot be distinguished from true non-disjunction, in the later stages.

2. *Logic.* The relation of the terms in a proposition asserting the negative of a conjunctive proposition ('not both..and..').

1926 H. M. SHEFFER in *Isis* VIII. 229 The authors consider one of the cardinal improvements in the new edition to consist in their substitution, for the two operations of propositional *negation* and *disjunction*, of the single operation of *non-conjunction*. **1956** A. CHURCH *Introd. Math. Logic* (rev. ed.) 1. ii. 134 Sheffer uses the sign of disjunction, ∨, inverted as a sign of non-disjunction; he introduces non-conjunction only in a footnote and uses no special sign for it. *Ibid.* 135 Taking non-conjunction as the only primitive connective, give definitions of the singulary and remaining binary connectives. **1957** *Encycl. 1942 J. WOLFOVITZ in *Ann. Math. Statistics* XIII. 264 Most of these developments have this feature in common, that the distribution functions of the various stochastic

variables which enter into their problems are assumed to be of known functional form, and the theories of estimation and of testing hypotheses are theories of estimation of and of testing hypotheses about, one or more parameters... the knowledge of which would completely determine the various distribution functions involved. We shall refer to this situation... as the parametric case, and denote the opposite case, where the functional forms of the distributions are unknown, as the non-parametric case. 1956 S. SIEGEL (*title*) Nonparametric statistics for the behavioral sciences. 1957 KENDALL & BUCKLAND *Dict. Statistical Terms* 87 Distribution-free inference or distribution-free tests are sometimes known as nonparametric but this usage is confusing and should be avoided. It is better to confine the word 'non-parametric' to the description of hypotheses which do not explicitly make an assertion about a parameter. 1962 E. S. KEEPING *Introd. In those cases where a parametric test would also be applicable a non-parametric test will naturally be less powerful than the parametric one. 1966 *Lancet* 31 Dec. 1434/1 To avoid making assumptions concerning normality and homogeneity, the non-parametric one-way analysis [of] variance by ranks... was carried out. 1972 *Jrnl. I first reported my ideas in a seminar talk at Princeton University (November 1960) and, later, in an address at the annual meeting of the Association for Symbolic Logic (January 1961) and in a paper published in the Proceedings of the Royal Academy of Sciences of Amsterdam... The resulting subject was called by me Non-standard Analysis since it involves and was, in part, inspired by the so-called Non-standard models of Arithmetic whose existence was first pointed out by T. Skolem. 1972 *Sci. Amer.* June 86/2 We define the instantaneous velocity not as the ratio of infinitesimal increments, as L'Hôpital did, but rather as the standard part of that ratio; then ds, dt and their ratio ds/dt are nonstandard real numbers. We have as before $ds/dt = 32 + 16dt$, but now we immediately conclude, rigorously and without any limiting argument, that v , the standard part of ds/dt , equals 32.

MOONEY *Teilhard de Chardin* ii. 43 'Noogenesis' will therefore be spiritual and social, that is to say, it will concern itself with the development of individuals as persons and with society on the level of interpersonal relationships.

nook (nuk), *sb.* Forms: a. 3-4 nok, 4-6 noke, 5-7 nooke, 6- nook; 6 noque, 4, 6-7 nouke. *β.* north. and Sc. 5-6 nuk, nwke, 5-7, 9 nuke, 6 nucke (9 nuck); 5 noik, 6 nwik, nuike, 6-7, 9 nuik (9 nuick); 6, 8-9 neuk (9 neuck), newk (6 newke), 9 niuk; 8-9 north. neak. [Of obscure origin; the early examples are northern, and the word has most dialect currency in the north, but the earliest trace of it appears in Layamon in the adj. *four-nooked*.

The forms prove a ME. *nōk*, to which the only parallel seems to be a Norw. dial. *nōk*, recorded by Aasen & Ross with the sense of 'hook, bent figure, bent or contracted person', etc.; whether this is the same word is very doubtful, although a Scand. origin seems probable. Ir. and Sc. Gaelic *niuc* is clearly from northern of Sc. *neuk*, *newk*.]

2. a. Twelve o'clock in the day; mid-day.

The same change in the time denoted by *noon*, probably due to anticipation of the ecclesiastical office or of a meal-hour, has taken place with Du. *noen*, and with F. *none* in older (and still in dialect) use. By the 14th cent. it appears to have been the ordinary sense of the word in English, although in many examples there is no clear indication of the time intended. The common phrases (*before noon* and *after noon* have given rise to the sbs. FORENOON and AFTERNOON. *high noon*: see HIGH *a.* 11.

noosphere ('nəʊʊsfɪə(r)). [a. F. *noösphere*, f. Gr. *vóo-s* mind + SPHERE *sb.* 7.] The name given by Pierre Teilhard de Chardin in his theory of evolution to the stage or sphere characterized by the emergence of consciousness and mind which follows the stage of the establishment of human life (see quot. 1959). Also *fig.* Hence *noospheric a.*

1953 J. S. HUXLEY *Evolution in Action* iv. 110 It provides a new kind of environment for life to inhabit. It needs a name of its own: following Père Teilhard de Chardin, the French paleontologist and philosopher, I shall call it the *nöosphere*, the world of mind. 1959 B. WALL tr. *Teilhard de Chardin's Phenomenon of Man* III. i. 182 Much more coherent and just as extensive as any preceding layer, it is really a new layer, the 'thinking layer', which . . has spread over and above the world of plants and animals. In other words, outside and above the biosphere there is the noosphere. 1962 M. McLuhan *Gutenberg Galaxy* 32 This externalization of our senses creates what de Chardin calls the 'noosphere' or a technological brain for the world. 1965 *Times Lit. Suppl.* 6 May 350/5 Linguistic anthropologists are at least asking questions about language which pull that phenomenon down from its cold noosphere back into the warm current of social living. 1966 *New Statesman* 6 May 659/2 Stock fictional characters in some kind of nöospheric organisation run by Conchis for his own enlightenment. 1967 *New Scientist* 26 Jan. 227/2 In practice we all act as if the mental aspect of Chardin's nöosphere really is a guiding and determining factor in human existence. 1970 *Sci. Amer.* Sept. 53/3 Just before his death on January 6, 1945, he wrote . . 'I think that we undergo not only a historical, but a planetary change as well. We live in a transition to the noosphere.' By noosphere Vernadsky meant the envelope of mind that was to supersede the biosphere.

nor- (nɔː(r)), *prefix. Organic Chem.* [f. NOR(MAL) *a.* and *sb.*] 1. a. Prefixed to the names of organic compounds to denote the replacement of one or (esp. in terpenes) all the (methyl) side-chains by hydrogen atoms.

The use arose from the designation of a compound C₈H₆O₅ as 'normal opianic acid', of which opianic acid was supposed to be a dimethyl derivative: 1868 *MATTHIESON & FOSTER in Jrnl. Chem. Soc.* XXI. 358 We therefore propose to call the compound C₉H₈O₅ monomethyl-normal opianic acid, or if the contraction is admissible, methylnoropianic acid.

nordite ('nɔ:daɪt). *Min.* [ad. Russ. *nordit* (V. I. Gerasimovskiy 1941, in *Doklady Akad. Nauk SSSR* XXXII. 496): see quot. 1941 and -ITE¹.] A silicate of sodium, strontium, manganese, calcium, and lanthanides, found as light brown orthorhombic crystals.

1941 V. I. GERASIMOVSKY in *Compt. Rend. (Doklady) de l'Acad. des Sci. de l'URSS* XXXII. 496 A more detailed study of the mineral has shown that it cannot be identified with any of the minerals already known, and therefore it was given a new name—nordite (because of its northern origin). 1958 *Chem. nordmarkite ('nɔ:dmɑ:kait). [f. *Nordmark*, name of an area in Sweden + -ITE¹.]

1. *Min.* A brown manganese variety of staurolite.

1868 J. D. DANA *Syst. Min.* (ed. 5) v. 389 *Manganese-Staurolite*, *Nordmarkite* (anal. 28); from dolomite in Nordmark, Sweden, of chocolate-brown color, with H. = 6.5, G. = 3.54, and presenting the usual crystalline form. Its easy fusibility is reason for here giving this variety the distinctive name *Nordmarkite*. 1968 I. KOSTOV *Mineralogy* 289 Staurolites rich in manganese are termed nordmarkite.

2. *Petrogr.* [a. G. *nordmarkit* (W. C. Brögger 1890, in *Zeitschr. f. Kryst. und Mineral.* XVI. 1. 55).] A syenite composed mainly of microperthite, with lesser amounts of quartz and usu. oligoclase and biotite, which has a trachytoid or granitic texture.

1895 *Mineral. Mag.* XI. 115 The corresponding abyssal or plutonic rock is nordmarkite. 1928 *Mineral. Abstr.* III. 498 The differentiation of the Lung Wang Miao åkerite has given rise to a whole series of granitic derivatives: nordmarkite, alkali-granite-aplite, and quartz-porphyr. 1942 *Amer. Jrnl. Hence nordmarkitic *a.*, composed of, or having the nature of, (the rock) nordmarkite.

1947 *Mineral. Mag.* X. 90 At Dorowa [S. Rhodesia] nordmarkitic granite occurs with syenite in the outer ring. 1953 *Q. Jrnl. Geol. Soc.* CIX. 161 Keratophyres, kersantites and nordmarkitic rocks occur on both sides of the outcrop of the Moine thrust-plane.

1962 *Nature* 20 Oct. 265/1 The nordstrandite varies from almost colourless to coral pink and reddish-brown, the coloration being largely due to inclusions of finely divided goethite. 1968 *Mineral. b. Algebra. (See *quots.*) Also defined analogously for other quantities. [Introduced as *L. norma* by Gauss 1832, in *Commentationes Recentiores Soc. R. Scient. Gottingensis* VII. Class. math. 98.]

1856 W. R. HAMILTON *Notebook* in Halberstam & Ingram *Math. Papers Sir W. R. Hamilton* (1967) III. 657, $a + ib$ is said to be a complex number, when a and b are integers, and $i = \sqrt{-1}$; its norm is $a^2 + b^2$; and therefore the norm of a product is equal to the product of the norms of its factors. **1866** BRANDE & COX *Dict. The product $\sigma\bar{\sigma} = r^2 + s^2d$ is called the norm $N(\sigma)$ of σ .

(ii) The positive square root of the quantity defined above; more generally, a quantity defined on a vector space over the real or complex field which represents a generalization of the concept of length or magnitude and has the properties that $\|u\| > 0$ if $u \neq 0$ ($\|u\|$ being the norm of the vector u), $\|u\| = 0$ if $u = 0$, $\|au\| = |a| \|u\|$ (a being a real number), and $\|u + v\| \leq \|u\| + \|v\|$ (v being another vector).

1921 *Proc. Nat. Acad. Sci.* VII. 84 The notion of norm or numerical value of a complex quantity, $c = a + b\sqrt{-1}$, namely, $|c| = \sqrt{a^2 + b^2}$, as it arises in algebra, has a more or less immediate generalization to more extensive matrix

In the case where an inner product exists, it is clear that the length of a vector satisfies the requirements for a norm. *Ibid.* 185 Let $M_2, \mathcal{Z}(C)$ be the vector space of 2×2 matrices over the complex field. Then the mapping $\begin{bmatrix} a & b \\ c & d \end{bmatrix} \mapsto \max(|a|, |b|, |c|, |d|)$ defines a norm

in $M_2, \mathcal{Z}(C)$. The mapping $\begin{bmatrix} a & b \\ c & d \end{bmatrix} \mapsto \sqrt{(|a|^2 + |b|^2 + |c|^2 + |d|^2)}$ defines another norm. **1970** F. A. MATSEN *Vector Spaces & Algebras* i. 11 The norm N_c of c is defined by $N_c = (cc^*)^{1/2} = \sqrt{(a^2 + b^2)}$.

JOYCE *Let.* 12 July (1957) I. 143 A great part of the Nostos or close was written several years ago and the style is quite plain. 1924 T. W. ALLEN *Homer: Origins & Transmission* 333, I have found a reference to their Nostos in Plutarch. 1957 N. FRYE *Anat. of Criticism* iii. 159 It is rare, in literature as in life, to find even a domesticated animal peacefully living through its full span of life... The exceptions, such as Odysseus' dog, are appropriate to the theme of *nostos* or full close of a cyclical movement. 1962 M. BOWRA in Wace & Stubbings *Compan. to Homer* iii. 40 The tradition that he composed the *Iliad* and the *Odyssey* becomes less impressive when he is credited by different authorities with the *Thebais*, *Epigoni*, *Cypria*, and *Nostoi*. 1962 THOMAS & STUBBINGS in *Ibid.* ix. 292 Agamemnon, on his *nostos*, was carried away as he approached Malea. 1968 C. R. BEYE *Iliad, Odyssey & Epic Tradition* v. 161 The story of homecoming had a name: *nostos*. The several *nostoi* are a leitmotiv throughout the *Odyssey* which is over-all a *nostos*, being the return of Odysseus. There is a hint in the *Odyssey* that epics of *nostoi* were currently fashionable.

|| **note verbale** (nɔt verbal). [Fr., lit. 'verbal note'.] An unsigned diplomatic note, of the nature of a memorandum, which is written in the third person.

1855 E. GRENVILLE MURRAY *Embassies & Foreign Courts* xvii. 264 Certain diplomatic worthies invented a double-faced document called a *note verbale*, or summary of conversation. These notes are unsigned. Their object is merely to refresh the diplomatic memory. . . . They are supposed . . . to combine all the advantages of writing and conversation. **1911** *Encycl. Brit.* XIX. 823/2 The so-called *notes verbales* are unsigned, and are merely of the nature of memoranda (of conversations, &c.). **1917** E. SAROW *Guide to Diplomatic Practice* vii. 75 As not many *Notes Verbales* are to be met with in print, it seems worth while to reproduce it here. **1939** H. NICOLSON *Diplomacy* x. 246 *Note verbale*. This is a type of communication which is less formal than a signed Note and more formal than a memorandum. It is unsigned, but it is customary that it should contain at the end some conventional expression of courtesy. It is, in fact, merely the addition of this polite tag which differentiates it from the *mémoire*. **1955** *Times* 20 May 8/1 Among the papers now issued by the secretariat is a *note verbale* from the permanent delegation of the United Kingdom to the United Nations. **1970** R. G. FELTHAM *Diplomatic Handbk.* iv. 42 The Note Verbale is not common, but it is used to clarify or confirm points raised in a previous conversation or to list items which one could not expect to be recalled precisely. **1973** I. M. SINCLAIR *Vienna Convention on Law of Treaties* ii. 36 The conference decided otherwise, no doubt influenced by the growing practice of constituting treaties by an exchange of unsigned *notes verbales*.

||**nouveau roman** (nuvo rɔmă). [Fr., lit. new novel.] 'A type of novel developed chiefly in France in the 1960's by such writers as Alain Robbe-Grillet, Michel Butor, Marguerite Duras, and Claude Mauriac, characterized by lack of moral, social, or psychological comment and by precise descriptions that suggest the mental state of the person experiencing or seeing them.' (C. L. Barnhart et al. *Dict. New Eng.* (1973).)

1961 *Listener* 24 Aug. 289/1 *The Key* . . reads very like something young and French: it has the soberness of the *nouveau roman*. **1962** *Times* 13 Dec. 14/3 *The nouveau roman* is already a bit vieux jeu in France. **1965** *Harper's Mag.* July 112 The characters are many and the story jumps from one to another, often (in the manner of the *nouveau roman*) with no names other than 'he' or 'the boy' to tell you whose episode it is. **1965** *New Society* 12 Aug. 26/3 The author obviously owes a big debt both to Beckett and to the French exponents of the *nouveau roman*, with their insistent emphasis on the depiction of physical detail and visual objectivity. **1967** *Listener* 23 Mar. 391/3 One of the most successful recent attempts, for instance, is to be found in a novel by one of Robbe-Grillet's fellow-practitioners of the *nouveau roman*, Michel Butor's *Passing Time*, which combines a narrative giving us the hero's present experience and a diary containing his experiences of several months

before. **1974** *Times Lit. Suppl.* 25 Jan. 69/2 The sources of Mr Gordon's off-the-peg technique are fairly clear: some Kafka; the Burroughs scissors; but mostly the *nouveau roman*. The novel, so this modish dogma asserts, is a 'vision of things', and the universe no more than the sum of the author's sensations.

||**nouvelle** (nuvɛl). [Fr.] A short piece of fictitious narrative, freq. one dealing with a single situation or a single aspect of a character or characters.

||**nouvelle cuisine** (nuvɛl kwi:'zi:n). [Fr., = 'new cooking'.] A style of (esp. French) cooking that avoids traditional rich sauces and emphasizes the freshness of the ingredients and attractive presentation.

1975 *Harpers & Queen* June 124/1 Certainly the French National Digestive System should be functioning more comfortably these days, thanks to the influence of La Nouvelle Cuisine Française. *Ibid.* The devoted journal of La Nouvelle Cuisine Française is the monthly food magazine *Le Nouveau Guide Gault-Millau*. **1977** *Bon Appétit* May 24/1 Theoretically, *la nouvelle cuisine*... aims at producing clear, fresh flavors and light textures instead of self-defeating richness. **1978** *Esquire* 23 May 69/3 Gault and Millau claim to have invented in 1974 the now familiar term 'la nouvelle cuisine', a cooking style that is 'light, imaginative, modern'. **1978** CONRAN & HOBHOUSE tr. *Guerard's Cuisine Gourmande* 9 These three-star chefs have between them changed French cooking radically. The new style... which they have developed together over the years is called Nouvelle Cuisine, and its principles are that food should have a 'lyrical lightness'. **1980** C.
