[Note. Suggestions as to the origin of the name *puffin* have mostly supposed some connexion with the verb or sb. *puff* or the adj. *puffy*. Thus it has been conjectured to refer to the 'puffy' or corpulent appearance of the bird (quot. 1678), or

*esp.* to the plumpness of the young, formerly considered a delicacy (cf. the simile 'as plump as a puffin'); also to the soft downy clothing of the young (Prof. A. Newton). Others have sought an explanation in the remarkable 'puffed-out' beak, or in a puffing sound uttered by the bird or its young when seized. Caius (1570) expressly declares that the name is derived 'a naturali voce pupin'. But, as the ME. forms of the name are spelt *poff-*, and the earliest known association of the bird under this name was with Cornwall and Scilly, it is evident that these conjectures rest on insecure bases. The name may even have come from Cornwall, and its change to 'puff-' may be due to 'popular etymology' in English. The erroneous sense *b.*, is due to Ray, who mistook young specimens of the shearwater from the Isle of Man for puffins, and applied to them the name *Puffinus anglorum* (applied by Gesner to the real puffin), which has unhappily been retained in ornithological nomenclature.]

It has been compared with LG. *pûlen* to shell (peas, etc.), husk, decorticate, strip, pick, pluck, pinch, tear (*Bremisches Wbch.* III. 372), also *pûllen*, *pûlken*, MDu. *polen*, 'decorticare' (Kilian), Efris. If *pull* and *pluck* both went back to OTeut. a primitive connexion between them would be conceivable, but historical evidence of this is entirely wanting.

The OE. instances known show already three senses or uses; but all belong to the general notion of *pluck*, *snatch* (with fingers, claws, or beak), rather than to that of *draw with sustained force or effort*, as in modern use. The former is therefore assumed as the primary sense.]

**pump** (pʌmp), *sb.*<sup>1</sup> Also 5-7 pompe, pumpe, (5-6 pomp, poompe, 6 pounge): see also PLUMP *sb.*<sup>2</sup> [Late ME. *pumpe*, *pompe*, = early mod.Du. *pompe*, Du. *pomp*, LG. *pumpe*, *pump*, mod.Ger. *pumpe*; whence Da. *pompe*, Sw. *pump*; also Fr. *pompe*.

Machines for raising water were in ancient and mediæval use, but no trace of the name *pump* appears before the 15th c. This is, as yet, known first in Eng. *c* 1440, in the sense of a ship's pump, for pumping out the bilge-water, in which use it was quite common 1450-1500. In Du., LG., HG. not recorded in this sense before the 16th c.; in Fr. cited 1517 in Hatz.-Darm.; in Du. *a* 1556 in Verwijs & Verdam, in Ger. *c* 1550 (Hans Sachs in Grimm). Plantijn 1573 gives for Du. only the sense 'bilge', *de pomp des schips*, 'l'ossee de la navire, sentina', *pompen*, *wtpompen*, 'vuider l'ossec, sentinam expurgare'; but Kilian 1599 has *pompe* in sense both of a ship's pump, and a pump generally. In Du. dialects, *pompe* is found *a* 1463 in sense of a pipe or tube of wood or metal, or a stone conduit, for the conveyance of water under ground, a sense also found in Frisian, and in some Low German dialects. In view of these dates and various senses, it is not easy to form any inference as to the language in which the word arose; but the probability lies between English and Dutch (or Low German); in either case it was prob. first in nautical use. The primary sense seems to lie between that of 'pipe, tube', and an echoic formation from the sound of the plunger striking the water. In favour of the latter cf. the collateral form *plumpe*, PLUMP *sb.*<sup>3</sup>, found as early as 1477, also LG. *plumpe* pump; and conversely Ger. *pump* the hollow sound of a blow, *pumpen* to make such a sound (Grimm), admittedly echoic. The Cat., Sp., Pg. *bomba* (pump), viewed by Diez as the source of the French, may have been derived from F. *pompe*, but is more prob. an independent though analogous echoic formation. The It. is *tromba*, orig. = trumpet, tube; but Venetian, and some other north It. dialects have *pompa* from Fr. or Ger.]

**I. 1. a.** A mechanical device, commonly consisting of a tube or cylinder in which a piston, sucker, or plunger is moved up and down by means of a rod, or rod and lever, so as to raise water by lifting, suction, or pressure, the movement of the water being regulated by a suitable arrangement of valves or clacks; from early times used on board ship to remove bilge-water; also, from 16th c., for raising water from mines, wells, etc.; now, a generic term for a great variety of machines and mechanical devices for the raising or moving of liquids, compressing or rarefying of gases, etc.

Pumps are variously qualified according to the principle of action, manner of construction, means of operating, purpose, etc., as *force*, *lift*, *lifting*, *suction pump*; *burrr*,

Longer equivalents, found a 1676, were PUNNET and PUNDIGRION; the former app. a dim. of *pun*. It has been suggested that *pun* might originally be an abbreviation of It. *puntiglio*, small or fine point, formerly also a cavil or quibble ('cavillazione, sottigliezza nel ragionare, o nel disputare', *Vocab. Della Crusca*), a pun being akin to a quibble; and that *pundigrion* might perh. be a perversion, illiterate or humorous, of *puntiglio*. This appears not impossible, but nothing has been found in the early history of *pun*, or in the English uses of *punctilio*, to confirm the conjecture.]

|| **punalua** (puna'lua). *Anthrop.* [Hawaiian.] A relationship term formerly denoting spouses who shared a wife or husband and used by L. H. Morgan in his theory of the evolution of kinship systems for a form of group marriage, assumed by him to have replaced promiscuity and preceded exogamy, in which wives' sisters and

husbands' brothers were considered spouses. Hence **puna'luan** *a.*

1860 L. ANDREWS in L. H. Morgan *Anc. Society* (1877) III. iii. 427 The relationship of *punalua* is rather amphibious [*sic*]. It arose from the fact that two or more brothers with their wives or two or more sisters with their husbands, were inclined to possess each other in common. 1877 L. H. MORGAN *Anc. Society* III. iii. 424 The Punaluan family has existed in Europe, Asia, and America within the historical period. *Ibid.* 428 All the sisters of his wife, own as well as collateral, are also his wives. But the husband of his wife's sister he calls *punalua*, i.e., his intimate companion. 1889 C. S. WAKE *Marriage & Kinship* II. 23 The *punaluan* group can, as will be shown hereafter, be accounted for satisfactorily without assuming the prior existence of the consanguine family. 1915 *Amer. **punch** (panʃ), sb.<sup>3</sup> (Also 7 punce, paunch.) [Origin uncertain; stated by Fryer, who travelled in Western India 1672-81, to be the Marāṭhi (and Hindi) word *pāñch* (Skr. *pañchan*, Pers. *panj*) five, from its five ingredients, which may show an explanation then current in the East: but see Note below. The name is evidenced as early as 1632. Beside it, in 17th c., foreign writers have a name with a second element apparently representing *punch* (Du. *palepunts*, *-punts*, Ger. *palepunz*, *-bunze*, Fr. *bolle*, *bouleponge*), which is not explained by any eastern lang., but which appears to be an imperfect (perh. originally native) echo of the Eng. 'bowl o' punch', a phrase already very common in the 17th century. Mod. Du. *pons*, *punch*, Ger., Da., Sw. *punsch*, Fr. *punch*, in 18th c. *ponche*, Sp., Pg. *ponche*, are all from Eng. [*Note.* As to the origin of the name *punch*, Yule thought that 'there is something of Indian idiom in the suggestion of Fryer'. But there are serious difficulties. The word for 'five' in the Indian vernaculars, Hindi, Guzarāṭī, Marāṭhī, etc., is *pāñch* (in Anglo-Indian formerly spelt *pañch*), while the drink has uniformly been *punch*, and was by Fryer spelt *pañch* app. only to support the alleged derivation. The combining form of *pāñch*, however, is *pañch-* with short *ā* (= Eng. *ū* in *but*), as in Hindi *pāñchāmrit* a mixture of five substances, *pāñchbhodra* a sauce of five ingredients, *pāñchgāyā* the five products of the cow, etc.; and it has been suggested that *punch* may have been short for some such compound, as, in fact, *pāñchāyāt* 'a council of five' has been colloquially shortened to *pāñch*, PUNCH *sb.*<sup>6</sup> But the history of English pronunciation shows that *punch* was in the early 17th c. pronounced not with the *u* in *punt*, but with the *u* in *pull*, *put*, as it still is in the north of England, and was by Dr. Johnson ('Who's for Poonsh?': see PUNCH-BOWL quot. 1791); which is confirmed by the 17th c. foreign renderings *punts*, *puntz*, *punch*, etc. Now *punch*, so pronounced, does not represent either *pāñch* or *punch* in Indian languages; which makes its origin from that source improbable. Moreover, the number of ingredients does not seem to have been at any time so fixed as to give origin to a name; some early writers give four, some only three, some six; since Fryer's time it has been usual to say 'five', but the fifth has been very variously specified. As several early passages show that punch was especially a seaman's drink, the Rev. C. B. Mount has suggested that the name originated not in India, but on the way thither, and may have been a sailors' shortening of *puncheon*, as that to which sailors would look for their allowance of liquor. See *N. & Q.* 10th s. IV. 401, 18 Nov. 1905, and subseq. articles to 27 Jan. 1906.]

**punch** (panʃ), *sb.*<sup>4</sup> and *a.* Now chiefly *dial.* [Of uncertain origin. No words certainly related are found outside English.

It has been suggested that it is short for PUNCHEON<sup>2</sup>; cf. Bav. *dial.* *punzon* a cask, also a short thick person or thing (Wedgwood); also that it is connected with BUNCH. But as Pepsy, in quotes. 1669 in PUNCHINELLO 2, and in A here, records the use of both *Punchinello* and *Punch* as appellations for a short and thick person or thing, it is highly probable that *Punch* in this sense, as well as in the next word, was in its origin short for PUNCHINELLO. As it is not certain whether the *sb.* or *adj.* was the original, the senses are here arranged chronologically, on the hypothesis that the *adj.* B was an attrib. use of the *sb.* A, and that an elliptical use of the *adj.* gave rise to the much later *sb.* C.]

MARKHAM tr. *Skoda's Auscult.* 283 The intensity of the râles . . . the punchinello voice accompanying the pectoriloquy.

[Note. There is every probability that the Eng. *punchinello* and *F. polichinelle* are derived from the Neapolitan word, and that *Punchinello*, although evidenced somewhat earlier, and actually given (prob. in error) as the name of the puppet-showman, was an English alteration. The Italian word is said in the *Vocabolario Napoletano* of 1789, to be a corruption of the name of a comedian *Puccio d'Aniello*, originally a peasant of Acerra, whose uncouth physiognomy is said to have served as the model for the mask of the character; another conjecture cites the name of one *Paulo Cinella*, said to have been a buffoon at Naples. Setting aside these legends or conjectures, it has been pointed out that *It. pulcinella* is dim. of *pulcina* chicken, and according to Quadrio and Barretti, cited by Pianigiani *Vocab. Etimol. della lingua Ital.*, 1907, in the Neapolitan dial. *pollecenella* is dim. of *pollecena*, the young of the turkey-cock, to the hooked bill of which the nose of the mask bears a resemblance.]

But *punt-boat* is found in the Maldon (Essex) Records of date 1500 as a current word, and it is noteworthy that the literary use begins with Phil. pupil teacher ('pju:pil'ti:tʃə(r)). A boy or girl preparing to be a teacher, who spent part of the period of preliminary education in employment as a teacher in an elementary school under the supervision of the head teacher, and concurrently received general education either from the head teacher or in some place of higher education.

The system was introduced into England from Holland in 1839-40, the pupil teachers being originally bound as apprentices, a plan which came to an end after 1870. The system underwent many changes; see *Memorandum on the history and prospects of the Pupil-Teacher system*, issued by the Board of Education in 1907. During the ensuing 30 years, it was gradually superseded (cf. *student teacher*).

A. FLEMING *Propagation of Electr. **puppy** ('pəpi), *sb.* Also 5-6 popi(e, 6 pup(p)ee, 6-7 puppie. [Corresponds in form, and, to a certain extent in sense, to F. *poupée* (in 13th c. *popee*, Littré) a doll, a woman likened to a doll as a dressed-up inanity, a lay figure used in dressmaking or as a butt in shooting; also, contextually, a plaything, hobby, toy (e.g. *il en fait sa poupée*), whence app. in Eng. 'a dog used as a plaything, a toy dog', a sense unknown to French. The *doll-* and *woman-* senses of F. *poupée* are usually represented in Eng. by PUPPET *sb.* 1, 2. But *puppet* and *puppy* are not always distinct; *puppet* (sense 4) was in early use synonymous with *puppy* (sense 1 or 2), and in dialects *puppy* is still widely used in the sense of *puppet*, esp. in *puppy-show* for *puppet-show*.

F. *poupée* has no cognate form in the other Romanic langs.; it appears to have been an anomalous French formation on the stem of Romanic *pupp-a* for L. *pūpa* girl, doll, puppet, but the use of L. and Rom. -āta, F. -ée in such a sense is apparently unparalleled.]

2. From the middle of the 14th c., sometimes applied (in Law French) to the piece or tract of land between the wider bounds of a forest and the restricted bounds as fixed by perambulation, and thus passing into the sense of PURLIEU, q.v.

The exact history of this transfer of sense is not evidenced; it was prob. at first an incorrect popular use of the term; but it appears to have been already established before 1344 (when the L. *perambulatō* appears in the same sense), and

thus within ten years of the date at which Robert of Brunne used *purale* in the original sense. *English* examples have not yet been found before 1482, when the word evidently appears as PURLIEU; but *purallee*, *pourallee*, was used by Manwood and by other legal writers as identical with *purlieu*, and the form *purley* has come down from the 16th c. to modern times in the comb. *purleyman* as variant and spoken form of PURLIEU-MAN, q.v.

These are the languages that cut most to the bone of linguistic expression. *Ibid.*, Languages that keep the syntactic relations pure and that also possess the power to modify the significance of their radical elements by means of affixes or internal changes. The former two classes can be grouped together as pure-relational suffixes, to preserve both Hall's (originally Sapir's) term and class. 1963 N. N. A. *sb.*

1. a. *Hist.* A member of that party of English Protestants who regarded the reformation of the church under Elizabeth as incomplete, and called for its further 'purification' from what they considered to be unscriptural and corrupt forms and ceremonies retained from the unreformed church; subsequently, often applied to any who separated from the established church on points of ritual, polity, or doctrine, held by them to be at variance with 'pure' New Testament principles.

According to Stow (see quot. 15...) the name was (?originally) assumed by congregations of Anabaptists in London; but this is probably an error, for otherwise it appears in early use always as a term of reproach used by opponents, and resented by those to whom it was applied: see quot. from Fuller 1655. Its application changed with time and the course of events. Originally, it was applied to those within the Church of England who demanded further reformation, especially in the direction of Presbyterianism; afterwards, naturally, to the same party when they were separated from the Church, and became the anti-episcopal Presbyterians, Independents, or Baptists, and consequently to the typical 'Roundheads' of the Commonwealth period, whose puritanism was sometimes little more than political. In later times, the term has become historical, without any opprobrious connotation, and has even, from its association with *purity* and *pure*, come to be treated, by those who in opinion agree more or less with the early Puritans, as a name of honour.

[15... STOW in *Three 15th C. The early Puritans were in many cases characterized by the prominence which they attached to personal religion, and by strictness and gravity of behaviour, with plainness of dress and manners; hence it was easy to look upon a 'puritan' as one who professed a higher standard of personal religion and morality than was usual.

[Note. The various senses above have been treated together rather for convenience, as all relating to the decoration of apparel, than from any certainty that they are all uses of the same word. The derivation of sense 1 seems clear. That sense 2 had the same origin is possible, if the twist given to the minute loops was the characteristic. Or it may be that, as the purl edging of lace, etc. had a similar ornamental use to that of gold and silver purl, the name was extended from the one to the other; the possibility of this appears to be shown by Cotgrave's inclusion of both as meanings of F. *canetille*, in quot. 1611. The connexion of branches II. and III. is much more difficult to explain, and their inclusion must be considered as merely provisional; the latter may very well be a distinct word, and perhaps better spelt (as it often is) *pearl*. Minshew in his *Ductor* suggested that *purle* was the same word as PURPLE, but this is historically as well as phonetically unlikely.]

(I have been informed that the term has been sometimes extended to all the services on Monday.) **1886** STEVENSON *Kidnapped* xxiv, If you distaste the sermon, I doubt the *purlicue* will please you as little. **1895** CROCKETT *Men of Moss-Hags* xxxvi, She would ware her life upon teaching them how to worship God properly, for that they were an ignorant wicked pack! [*Note.* It is generally assumed that the last part of this curious word is *cue* or *F. queue* a tail; the first part has been conjecturally referred to *F. parler* 'to speak', *par la* 'by the', and *pour la* 'for the', each being supposed to yield a plausible sense. The word is not known before Jamieson; and it is noteworthy that in his Dictionary of 1808, he recognized only senses 1 and 1*b*; although a Scottish clergyman, sense 3 was app. unknown to him both then and when he prepared his 8vo. ed. of 1818, and was added only in the Supplement of 1825.]

[Exemplified in 1482 in the form *purlew(e)*, app. an erroneous alteration of *purley*, syncopated from '*puraley*, the natural Eng. spelling (cf. *alley*, *city*, *army*) in the 15th c. of AF. *purale*, *-alée*, taken in its transferred sense (**PURALÉ** 2).

For the history of *purale*, *-alee* (*pura'lee*) in English between c1330 and 1482 written evidence is wanting; in Anglo-Fr. legal documents it continued to be written *purale*, *poralee* (examples of which, of 1370-78, in the sense 'purlieu' appear under **PURALÉ** 2); but, as an English word, it would naturally become *puraley*, *puraly* ('*porale*', '*porali*'), and easily be syncopated to *purley*, *purly*, as still seen in the 16th c. and later, esp. in the *comb.* *purleyman*, which shows that this was the pronunciation even after the spelling was changed. *Purlew* may have originated in a scribal error, or as a pseudo-etymological spelling, erroneously associating the word with *lew*, *leu*, *LIEU*, place; app. it did not appear in law Fr. till later, when it was prob. taken over from Eng., and Gallicized as *purlieu*: see quot. 1574<sup>1</sup>.]

[OE. and ME. *purs*, app. ad. late L. *bursa* purse (whence OF. *borse* (12th c.), F. *bourse*, Pr., It. *borsa*, Sp., Pg. *bolsa*); the later forms *pors*, *pours*, and those with final *e*, *porse*, *pourse*, *purse*, were evidently influenced by the Fr. word.

The initial *p* for *b* is not certainly explained: influence of OE. *pusa*, *posa*, ON. *posi* bag, has been suggested. As to the loss of the final vowel, if the word was taken as a strong feminine, it would naturally have the form *purs*, in oblique cases *purse*. L. *bursa* (*byrsa*), *a. In the Royal Navy the purser was originally the commissariat officer of the ship, but not the paymaster of the crew (who were paid at the end of the voyage or commission). In 1825, by Act 6 Geo. IV, c. 18, a portion of the wages of the crew was permitted to be paid to them monthly, and the duty of making these payments was assigned to the purser, who in 1842 was officially designated 'Paymaster and Purser'. In 1852 the title was changed to 'Paymaster', and the officer's duties in regard to money transactions on board ship were largely extended. In modern passenger-ships, the purser is the head of the stewards' department, and has general superintendence of the passengers and their comfort and requirements, checks their tickets, issues those taken on board, etc.

**Puseyism** ('pju:zi:z(ə)m). [f. the name of Dr. E. B. Pusey, 1800-82, professor of Hebrew and Canon of Christ Church at Oxford + -ISM.] A name given by opponents to the theological and ecclesiastical principles and doctrines of Dr. Pusey and those with whom he was associated in the 'Oxford Movement' for the revival of Catholic doctrine and observance in the Church

of England which began about 1833; more formally and courteously called Tractarianism. Now little used.

Dr. Pusey's initials were appended to No. 18 (21 Dec. 1833, on Fasting) of the *Tracts for the Times*, and, of the ninety, seven were written by him. His academic and ecclesiastical position gave great weight to his support of the movement, and specially associated his name with it.

**put** (put), *v.*<sup>1</sup> *Pa. t. and pa. pple.* put (put). Forms: see below. [Late OE. *putian* (? *pūtian*), represented c1050 by the vbl. sb. *putung* (? *pūt-*), *PUTTING*; thence early ME. *pūten* and ? *puten*, later *putten*, *putt*, *put*. Beside this, late OE. had *potian* (11th c.), ME. *pōten* (see *POTE v.*), and *potten*; also, OE. *pýtan* (repr. by *pýtan út* in the OE. Chron., MS. F. (12th c.), anno 796, and *út apýtan*, put out, thrust out, Numbers xvi. 14), which app. gave southern ME. *puiten*, *puyte* (= *pūte*), and may even have been the source of the late ME. *pytten*, *pitten*, *pyt*, *pit*. Prof. Sievers thinks that the stem-vowel in OE. *pýtan* (:—\**pūtjan*) was certainly long, and in *putian* probably so, and suggests that the ME. shortening of the vowel was carried over from the *pa. t.* and *pa. pple.* *pytte*, *putte* from *pýt-te*, *pūt-te*. The normal conjugation was *pa. t. putte*, now *put* (cf. *cut*), in ME. and early mod. Eng. also *puttede*, *putted*; *pa. pple.* ME. *yput*, *iputte* and *putt*, now *put*, also in 14-16th c. *putted*. But in Sc. and north Eng. dialects, *put* (or rather its northern form *pyt*, *pit*), has been from the 15-16th c. conjugated as a strong vb., with *pa. t. pat*, *pa. pple. putten* or *pitten* (also in Eng. dialects *potten*); and perhaps the southern *ipitte* also arose out of \**ipitten*. With these compare the northern inflexion of *HIT*, *hat*, *hutzen* or *hitten*. The variant *pot*, *pott*, occurs as an existing dialect form, besides surviving in a differentiated form and sense as *POTE*. The differentiated vb. *PUT*<sup>2</sup>, *PUTT* (pat), used in golf, and in Sc. also in 'putting the stone', is conjugated *putt*, *putted*, *putted*, and is thus quite

distinct in Sc. from *pit*, *pat*, *putten*, as well as from the ordinary Eng. *put*, *put*, *put*.

For the earlier history evidence is wanting, but the various forms appear to be parallel formations from a stem *pūt-*, *pot-*, whence app. also Da. *putte* to put, put in; but this appears in Kalkar only from the 17th c. Rietz gives a southern Swedish *putta* (with variants *pōtta*, *potta*) in two senses: (1) = slå, stöta, knuffa til lindrigt (to strike, knock or push gently); (2) = sticka undan, ställa bort, 'putta i lomman' (to put out of the way (or conceal), put away, 'put in the pocket'). The Welsh *putio* and Gaelic *put* are from Eng. ME. had also a vb. *pulten*, *piltten* (see *PILT*), which was synonymous with *put*, and even occurs as a variant reading in 15th c. MSS., but could not be formally related. It became obs. (at least in the senses in question) before 1500. In the sense 'strike with the head or horns', ME. *putten* was in early use synonymous with *budden*, *BUTT v.*<sup>1</sup>, by which it has been superseded in literary English; but some dialects retain *put* in this sense.]

**II.** To move (a thing or person) physically into or out of some place or local position.

The most general word for this sense, which cannot be so simply expressed by any other word or phrase, and which is more or less implied, literally or metaphorically, in nearly all the other senses that are still in use. The original notion of 'thrust', 'set or insert with some force' is still traceable in some contexts, esp. when followed by *into* or *in*.
