Originally, in plural, Persons taken from among those present in court or standing by, to serve on a jury in a case where the original panel has become deficient in number by challenge or other cause, these being persons *such* as those originally summoned; loosely applied in Eng. as a singular (*a tales*) to the supply of people (formerly even one person) so provided. Also contextually applied to the order or act of supplying such substitutes, as to *pray, grant, award a tales*. In English use now restricted to such summoning of jurors; orig. and still in U.S. of jurors (collectively) and the practice of summoning them.

**talky**, variant form of TALCY *a.*

**tall** (tɔ:l), *a.* Also 4-7 tal, 4-6 talle, 6 tawl(l)e. [Of obscure history. Most prob. repr. (with loss of prefix) OE. *ge-tæl* (pl. *ge-tale*) swift, prompt = OHG. *gizal*, MHG. *gezal* quick. Cf. Goth. *untals* unaccommodating, uncompliant, disobedient, ONorthumb. *untal* evil, improper. For the phonology, cf. *small*:—OE. *smæl*.

The sense-development is remarkable, but is paralleled more or less by that of other adjs. expressing estimation, as *buxom*, *canny*, *clean*, *clever*, *cunning*, *deft*, *elegant*, *handsome*, *pretty*, *proper*; Ger. *klein*, as compared with Eng. *clean*, presents the antithesis to mod. *tall* as compared with *tall* in early ME.

It has been conjectured that in the sense 'high of stature' it is a different word, adopted from Welsh *tal* in same sense; but the latter is, according to Prof. Rhys, merely a 16th c. borrowing of the Eng. word (in Owen Pughe's Dictionary erroneously mixed up with the genuine Welsh *sb. tal* end, brow, forehead, with which it has no possible connexion). The 15th c. instance of the adj. cited by Pughe is prob. from sense 2 or 3 below.]

**A. adj.** I. †1. Quick, prompt, ready, active. *Obs. rare.*

But the sense in both quots. is doubtful; in quot. c 1374, *tall* has been taken by some as = 'meek, docile'; quot. 1542 may belong to sense 2.

By the articles of 1297, the Latin version of which is commonly cited as the Statute *De Tallagio non concedendo*, an attempt was made to restrict the right of tallage, which was finally surrendered by the king in the act of 1340.

From its primary sense of 'teaching, instruction, learning', the word was applied to the teaching or instruction contained in a biblical text, and to the body of traditional learning possessed by a particular Rabbi; but it came to be applied distinctively to the discussion, explanation, and illustration of the body of traditional law contained in the Mishnah, and so to the concrete collection of this teaching.]

In the wide sense, The body of Jewish civil and ceremonial traditional law, consisting of the MISHNAH or binding precepts of the elders, additional to and developed from the Pentateuch, and the later GEMARA or commentary upon these, forming a complement, explanatory, illustrative, and discursive, to the Mishnah. The term was originally applied to the Gemara, of which two recensions exist, known respectively as the Jerusalem (or Palestinian) and the Babylonian Talmud; to the latter of which the name is in strictest use confined.

The precepts of the Mishnah were collected and codified about A.D. 200; the redaction of the Jerusalem Talmud had reached almost its present form by A.D. 408; that of the Babylonian Talmud extended from A.D. 400 to 500.

† **Tambaroora** (tæmbə'ruərə). *Austral. Obs.* The name of a town in New South Wales, used to designate a bar game in which the winner buys drinks for the players. Also in *Comb.*, as *Tambaroora muster*.

1882 A. J. BOYD *Old Colonials* 63 It may be that the exciting game of Tambaroora is not familiar to all my readers... Each man of a party throws a shilling, or whatever sum may be mutually agreed upon, into a hat.

Dice are then produced, and each man takes three throws. The Nut who throws highest keeps the whole of the subscribed capital, and out of it pays for the drinks of the rest. The advantage of the proceeding lies in this: Where drinks are charged at sixpence, the subscription is double that amount for each... Thus if ten Nuts go in for a Tambaroora, with nobblers at sixpence, the winner pockets five shillings by the transaction. 1895 C. CROWE *Austral. Slang Dict.* 84 *Tambaroora*, a game of a shilling each in the hat and the winner shouts. 1897 *Bulletin* (Sydney) 18 Dec. (Red Page), The essence of a present-day tambaroora is a sweep for the purchase of drinks—frequently on the principle that more liquor can be purchased wholesale for 1s. 6d. than six thirsty people can buy for 3d. each. Hence 'tambaroora muster', when the droughty party musters all the coin it's possessed of, and one individual goes and bargains for the beer. 1901 *Bulletin Reciter* (Sydney) 202 (*poem-title*) *Tambaroora*. 1945 BAKER *Austral. 1. A musical instrument consisting of a wooden hoop having skin or parchment stretched over one side, and pairs of small cymbals, called jingles, placed in slots round the circumference, small bells being sometimes fastened to the edge. It is played by shaking, striking with the knuckles, or drawing the fingers across the parchment.

The earlier names for this or a similar instrument mentioned in the Bible were *timbre* and *timbrel*. It is not clear what Spenser and Jonson meant by *tamburin*, *timburine*; the word was known to Blount 1661 only from Spenser; the modern use was unknown to Bailey, to Johnson, and to Ash (1775); it is certain in quot. 1782; but as it does not agree with that of F. *tambourin* it is difficult to know how it arose.

**Tammany** ('tæməni). a. The name of the central organization of the Democratic party in the City (formerly also in the State) of New York, located in *Tammany Hall*, in 14th Street, New York. In English use the name has become esp. associated with the political and municipal corruption which at various times has characterized the government of New York.

Also applied *transf.* to any similarly corrupt political organization or situation.

*Tamanen*, *Tamene*, *Taminent*, *Taminy* was the name of an Indian chief with whom W. Penn had transactions for land 1683 and 1697. Some time prior to 1771 the name became 'canonized', and from 1772 for about twenty years 'Saint' (or 'King') *Tamina*, *Tamany*, *Tammany* (generally identified with the chief of Penn's time) was regarded as the tutelary saint of Pennsylvania and other northern colonies or States, and the day assigned to him, May 1st (Old Style), May 12th (New Style), appropriated to popular celebrations, festive gatherings (often with some benevolent object), etc. From 1782 the name became associated with Societies established on a more or less permanent basis, of which that organized in New York is mentioned in 1787. The one which in 1790 is recorded as the 'Society of St. Tammany' and 'the Sons of St. Tammany and Columbian Order', and which in its constitution is claimed to be 'founded on the true principles of patriotism, and has for its motives charity and brotherly love', soon developed strong political activity, and by c. 1810 had become the head-quarters of the Democratic Party (then called the Republican Party) in the State and City of New York. 1. *Math.* (ellipt. for *tangent line*.) [= Fr., Ger. *tangente*.] a. *Trigonometry.* One of the three fundamental trigonometrical functions (cf. SECANT, SINE), originally considered as functions of a circular arc, now usually of an angle (viz. that subtended by such arc at its centre); *orig.* The length of a straight line perpendicular to the radius touching one end of the arc and terminated by the *secant* drawn from the centre through the other end; in mod. use, the ratio of this line to the radius, or (equivalently, as a function of the angle) the ratio of the side of a right-angled triangle opposite the given angle (if acute) to that of the side opposite the other acute angle (the tangent of an obtuse angle being

numerically equal to that of its supplement, but of opposite sign). Abbrev. *tan*.

Tables of tangents and cotangents were constructed and used by the Arab mathematicians of the 9th and 10th c. (see Nallino *Al Battani, Opus astronomicum*, Milan 1903, I. 182); but began to be constructed in Christendom late in the 15th c. The names *tangens* and *secans*, introduced by Thos. Fincke (Finkius) in 1583, had no connexion with the names used by the Arabs.

b. *Geom.* A straight line which touches a curve (or curved surface), i.e. meets it at a point and being produced does not (ordinarily) intersect it at that point. *spec.* in *Surveying*, a tangent to a curve at a point (*tangent point*) where the curve starts or finishes; freq. *attrib.*, as *tangent distance*, *length*, the length of such a tangent from the tangent point to its intersection with the other tangent.

In Higher Geometry a tangent is regarded as the limiting position of a line intersecting a curve when the two (or more) points of intersection coincide, and is hence defined as a straight line passing through two (or more) consecutive points of the curve. If the curve be conceived as traced by a moving particle, the tangent at any point of it represents the direction of motion at that point; hence a body moving in a curve, when the restraining force is withdrawn, flies off at a tangent, i.e. along the tangent (cf. the *fig.* use in c). At a point of inflexion, where the curvature (i.e. deviation from the straight line) changes its direction, the tangent intersects as well as touches the curve.

**tank** (tæŋk), *sb.*<sup>1</sup> Forms: 7 *tanke*, *tanque*, *tancke*, *tanck*, 7- *tank*. [In sense 1, perh. immediately from an Indian vernacular: cf. Guz. *tānkh* an underground reservoir for water (Shakespeare), *tānki* a reservoir of water, a small well (Wilson); Marāthi *tānken*, *tāken*, a reservoir of water, a tank (Wilson); *tānkā* a cistern of stone inside a house, etc., a reservoir for rain-water: words which some would connect with Skr. *taḍāga* pond, lake, pool; others think that they are all derived from Pg. *tanque* pond = Sp. *estanque*, F. *étang*—L. *stagnum* pond, pool, with which at least the Indian words were identified by the

Portuguese, who even in the *Roteiro de Vasco da Gama* and through the 16th c. applied *tanque* to the Indian reservoirs, called also in Fr. *estang* (Pyrard de Laval c 1610). The 17th c. Eng. forms *tanque* and *tanke* appear to be taken from the Pg.; *tanck*, *tank*, on the other hand, with It. *tancho* (Varthema 1510), may have been from Guz. *tānkh*. As to the Eng. use in senses 1 b and 2, it is not clear whether this came from Anglo-Indian usage, or was immediately related to Pg. *tanque*. It could scarcely arise out of earlier Eng. or Sc. *stank* 'pond, fish-pond, stagnant pool, ditch', since this never in sense approached that of *tank*.]

Now chiefly used in a general sense to include a great number of allied substances, which differ in the proportion of their elements.

These are distinguished by compound names indicating their source, as *quercitannic acid*, that obtained from oak-bark, C<sub>15</sub>H<sub>12</sub>O<sub>9</sub>; also *caffetannic* (C<sub>15</sub>H<sub>18</sub>O<sub>8</sub>), *catechutannic* (C<sub>17</sub>H<sub>17</sub>O<sub>9</sub>), *cincho-* or *quinotannic* (C<sub>14</sub>H<sub>16</sub>O<sub>9</sub>), *fraxitannic*, *kinotannic*, *ratanhiatannic acids*, obtained from coffee, catechu, cinchona, ash-leaves, kino, and ratanhia respectively.

F. *tanin*, 'le principe tannant' (1798 Proust in *Ann. de Chimie* XXV. 225), f. *tan* TAN sb.<sup>1</sup> + -IN<sup>1</sup>.] Any member of a group of astringent vegetable substances, the *tannins*, which possess the property of combining with animal hide and converting it into leather.

The first member of this group isolated and so named was the tannin of gall-nuts, subsequently also called *TANNIC acid*; and to this the names *tannin* and *tannic acid* are still often specifically applied. But the discovery that the astringent principles of other vegetable substances were not chemically identical with that of gall-nuts made it needful to distinguish the various tannins. The original or 'ordinary tannin' became distinctively GALLOTANNIN, other members of the group being named *caffetannin*, *catechutannin*, *kinotannin*, *quercitannin*, etc. (cf. TANNIC), or particularized as *oak-bark tannin*, *alder*, *beech*, *hop*, *horse-chestnut*, *larch*, *rhathay tannin*, according to their source.

3. *a. pl.* Used in the later Wycliffite (or Purvey) version of the N.T. (*Matt.* xiii. 25), also in some MSS. of the earlier text, and thence in Tindale's and subsequent 16-17th c. versions, to render L. *zizania* (Vulg.), Gr. *ζιζάνια*, as name of an injurious weed among corn, which in the first Wyclif version had been rendered 'dernel or cokil', the latter going back in translations and quotations to Old English, the former to Early ME.: see DARNEL, COCKLE. *Obs. exc.* as a biblical use, and as in *b.*

Evidently Purvey and his co-revisers adopted *tares* as in their opinion more intelligible than the earlier 'dernel' or 'cokil'. Probably they thought of *Vicia hirsuta* the Strangle-tare, or other species of wild vetch, as familiar noxious weeds in English cornfields.

GOWERS ABC of Plain Words 133 If target was to have all the stimulating force it was capable of, it would not do to treat it as a live metaphor, and exhort people to do nothing more exciting . . . than merely to hit it. So we were offered a great variety of things that we might meritoriously do to our targets. We might reach them, achieve them, attain them or obtain them; we were to feel greatly encouraged if we came in sight of the target to which we were trying to do whatever we were trying to do, and correspondingly depressed if we found ourselves either a long way behind it or (what apparently amounts to the same thing) a long way short of it. 1952 Sat. [*Note.* It cannot be disputed that the ME. forms of this verb are identical with those of TARY 'to provoke, irritate, harass, vex, excite', both being in ME. *tery-, tary-* (the spelling *tarry* being rare before 1500). Original identity with *tary*, and thus derivation from OE. *tergan*, would also account for the apparent identity of *tarry* and TARROW, since both could go back to the OE. variant types *tergan* (*tergan*), *terw(i)an* (*tærw(i)an*), with phonetic development according to the position of the *g* and *w* in different inflected forms: cf. HARROW and HARRY, *worow* and WORRY. The consequent identification with OF. *tariar* might also help to explain the existence of the derivatives *tarriage*, *tarrance*, *tarryment*, with French suffixes (although it is to be noted that these appear as derivatives of *tarry* and not of *tary*).

But no sense in the least approaching 'tarry' occurs in OE. *tergan*, *terw(i)an*, or in OF. *tariar*, and the difficulty of deriving this sense from that of 'provoke, vex, harass' seems almost insurmountable. Some have suggested an influence upon *tarry* of the synonymous TARGE *v.* 1, OF. *targier*; but this seems impossible. Others, seeing that ME. *terwen*, *terre*, TAR *v.* 4 and TARY had both a (rare) sense (2) 'to weary, fatigue, tire' (as if influenced by OE. *téorian*, ME. *tiere*, *tere*, *TIRE*) have thought that this sense provided a connecting link between the notions of 'vex' and 'delay, retard'; but there is nothing in the quotations to confirm this view, and the actual history of *tarry* in its existing sense remains unascertained.]

The sense-history is also deficient. *Teart* appears in OE. only in reference to punishment, pain, or suffering, which use of *tart*, after many centuries, reappears late in 16th c. In the ME. period, the word is known only by a single instance in Chaucer (if this is the adj.), continued after 1500, in sense 'of a sharp, pungent, or sour taste'. In 1500 it is also applied to a sharp or pungent weapon; and about 1600 to sharp, bitter, caustic, or stinging words. The original name (by which the people in question either called themselves or were designated by their neighbours) is generally held to have been, as in Persian, etc., *Tâtâr*, as to the language and meaning of which various conjectures have been put forth; but in Western Europe, they appear from the first as *Tartari*, *Tartares*, or *Tartars*, their name being apparently associated with *Tartarus*, hell. See the saying attributed by many historians to St. Louis of France a 1270, in Littré, s.v. *Tartare*, and a translation in quot. 1842 below. The form *Tâtar* and its derivatives are now often used in ethnological works in sense 1, but the long-established *Tartar* is always used in the derived senses, and is also held by some to have been the original name: see quot. 1885, and its context.]

**A. sb.**<sup>2</sup> 1. A native inhabitant of the region of Central Asia extending eastward from the Caspian Sea, and formerly known as Independent and Chinese Tartary. First known in the West as applied to the mingled host of Mongols, Tartars, Turks, etc., which under the leadership of Jenghiz Khan (1202-1227) overran and devastated much of Asia and Eastern Europe; hence vaguely applied to the descendants of these now dwelling in Asia or Europe; more strictly and ethnologically, to any member of the Tâtar or Turkic branch of the Ural-Altaic or Turanian family, embracing the Turks, Cossacks, and Kirghiz Tartars. (In all these uses, but esp. the last, now often written *Tatar*, *Tâtar*.)

The most likely suggestion is that the sb. arose from the Fr. phrase *tant pour tant*, 'one for another, tit for tat', lit. 'as much for so much', Englished in 16th c. as *taunt pour taunt* and *taunt for taunt*; hence, as primary sense, 'a return thrust, an effective rejoinder'. But the chronology of the sb. and vb. makes this doubtful.

Other suggestions, for vb. or sb., are OF. *tanter*, variant of *tenter* to try, prove, tempt; ALMG. *tant* empty talk; and Du. *tanden* 'impetere, invadere aliquid' (Kilian), none of which seem adequate.]

**tautochrome** (təʊˈtɒkrəʊn). *Math.* [f. TAUTO- + Gr. χρόνος time: cf. F. *tautochrone* (Dict. So **tautochronism** (təʊˈtɒkrənɪz(ə)m), the property of a tautochrome; **tautochronous** *a.*, having the character of a tautochrome; occupying the same time, isochronous.

1774 GOLDSM. *Surv. Exp. Philos.* (1776) II. 142 The time spent in determining the figure of a tautochrone might have been more usefully employed in this research. 1842 BRANDE *Dict. Prove that the cycloid is the only plane curve possessing the property of tautochronism. 1846 SMART *Suppl.*, *Tautochronous*, arriving at the same time; having the property of the tautochrone.

**tautoclin** (təʊˈtɒkɪn). *Min.* [ad. Ger. *tautoklin* (Breithaupt 1830), f. Gr. ταυτό (TAUTO-) + κλίνειν to bend, incline; so called 'because it has the same rhombohedral angle as dolomite' (Chester).] A greyish-white variety of ANKERITE.

**tautologic** (təʊˈtɒlədʒɪk), *a.* *rare*. [f. Gr. ταυτολογία TAUTOLOGY + -IC: cf. the adv. ταυτολογικῶς in Eustathius c 1160.] = next, 1.

**tautological** (təʊˈtɒlədʒɪkəl), *a.* [f. as prec. + -AL: see -ICAL.]

1. A pertaining to, characterized by, involving, or using tautology; repeating the same word, or the same notion in different words.

1620 T. GRANGER *Div. Logike* 387 Lest thy discourse be tedious, Tautologically, erroneous. 1670 BLOUNT *Law Dict.* s.v. *Alnager*, Measurer, and *Alneger*, which last, though it be a Tautological expression (Aulnage and Measure, being the same thing denoted in two Languages) yet long usage and custom have brought them to distinct Offices. 1800 in *Four C. Eng. Lett.* (1880) 355 Now and then, in the career of declamation, he becomes tautological and ineffective. 1869 INGLEBY *Introd. Metaph.* II. ii. 176 One writer... desperately declares that the Laws of Motion are mere truisms, or tautological judgments.

b. *Mod. Logic*. Characterized by or involving tautology (in sense f).

1922 tr. Wittgenstein's *Tractatus* 97 In the one case the proposition is true for all the truth-possibilities of the elementary propositions. We say that the truth-conditions are tautological. 1926 F. P. RAMSEY in *Proc. London Math. Soc.* XXV. 341 The idea to be defined is one of the essential sides of mathematical propositions, their content, and their form. Their content must be completely generalized, and their form tautological. 1933 *Mind* XLII. 41 Each postulate functions in limiting the ranges of the variables in such a manner that any change is one postulate... involves a reciprocal change in its other parts, which change causes it to remain analytic or tautological. 1950 R. CARNAP *Logical Found. Probability* iv. 289 With respect to the tautological evidence 't'. 1971 G. HUNTER *Metalogic* III. 171 Suppose that A is an instance of a tautological schema of Q.

2. Of an echo: Repeating the same sound several times. ? *Obs.*

1677 PLOT *Oxfordsh.* 7 These return syllables and words, the same oftentimes repeated, and may therefore be stiled Tautological Echo's. 1807 JOYCE *Sci. Dial.* xiii. (1846) 232 Called tautological or babbling echoes.

†3. *loosely*. Of the nature of a repetition, identical (*with*). *Obs. rare*—1.

1689 G. HARVEY *Curing Dis. by Expect.* xvi. 125 Compound Waters... tautological the one with the other.

Hence **tautolog'icality**, the quality of being tautological.

1936 J. R. WEINBERG *Exam. Logical Positivism* II. 80 The formal property of certain combinations of symbols, which is called tautologicality, is solely responsible for the unconditional truth of the truths of logic.

**tautologically** (təʊˈtɒlədʒɪkəlɪ), *adv.* [f. prec. + -LY<sup>2</sup>.] In a tautological manner, with tautology.

1620 T. GRANGER *Div. Logike* 292 Handle the same matter (homogeneously, not tautologically). 1820 COLERIDGE *Let. C. A. Tulk* 17 July (in *Pearson's Catal.* (1894) 14) At once superfluous and defective, tautologically superfluous in the point of co-equality, and dangerously defective in that of the subordination. 1840 HOOD *Up Rhine* 61, I join with Dr. Watts' sluggard in wishing tautologically, for 'a little more sleep and a little more slumber'. 1979 J. A. ROBINSON *Logic: Form & Function* III. 43 We can extend this idea to the case when infinitely many sentences together tautologically imply a given sentence.

So **tauto'logicalness** (Bailey 1727 vol. II).

**tautologism** (təʊˈtɒlədʒɪz(ə)m). *rare*. [f. TAUTOLOGIZE: see -ISM.] The use or practice of tautology; an instance of this. Used by Farrar *spec.* for the combination of two synonymous words or syllables for the sake of precise expression of the meaning, as in Chinese.

1815 *Sporting Mag.* XLVI. 117 Hard and callous, form a tautologism. 1816 BENTHAM *Chrestom.* 293 The reproach of tautologism,—incurred... by the observation. 1869 FARRAR *Fam. Speech* iv. (1873) 122 This chaos [of homonyms in Chinese]... is reduced to order and meaning... partly by what may be called tautologism, i.e. by using a second synonym to define the word which is vague; in point of fact, by making two vague words into one definite word.

**tautologist** (təʊˈtɒlədʒɪst). [f. as prec. + -IST.] One who practises tautology.

1702 STEELE *Funeral* I. 14 Oh! that Damn'd Tautologist too—That [Mr.] Puzzle and his Irrevocable Deed! 1727 BAILEY vol. II, *Tautologist*, one who says the same Things over and over. 1805 W. TAYLOR in *Ann. Rev.* III. 649 All such literary tautologists are proper objects of epitomization.

**tautologize** (təʊˈtɒlədʒaɪz), *v.* [f. TAUTOLOGY + -IZE. (The Gr. equivalent was ταυτολογεῖν.) Cf. APOLOGIZE.] *intr.* To repeat the same thing in the same or different words; to use tautology. Also with *it* (quot. 1656).

Hence **tau'tologizer**, one who tautologizes; a tautologist.

1657 J. WATTS *Vind. Ch. Eng.* 241 A vain babler, a tautologizer and a vain repeater.

**tautologous** (təʊˈtɒləgəs), *a.* [f. Gr. ταυτολόγος repeating what has been said (f. ταῦτό the same + -λογος saying, f. λέγειν to say) + -OUS.] = TAUTOLOGICAL 1.

1714 J. FORTESCUE-ALAND *Pref. Fortescue's Abs. & Lim. Mon.* 67 The County of Devon, in the old way of Speaking... called the County of Devonshire, which is the constant Expression in old Deeds, and signifies the same thing tho' it be tautologous. 1786 H. TOOKE *Purley* I. ix. 406, I have been purposely tautologous, that by my indifferent application of the two words of and for... the smallest... opposition between these prepositions might be done away. 1853 *Fraser's Mag.* XLVII. 358 The circuitous jargon—the tautologous gabble... of special pleading. 1884 SIR W. B. BRETT in *Law Times Rep.* 10 May 315/2, I have come to the conclusion... that the Legislature intended in this case to be verbose and tautologous, and to say the same thing twice over. 1935 *Mind* XLIV. 195 The tautologous 'p or not p'. 1940 W. V. O. QUINE *Mathematical Logic* I. 50 Statements which are true by virtue solely of the truth-functional modes of composition will be called tautologous.

Hence **tau'tologously** *adv.* = TAUTOLOGICALLY.

1865 J. P. COLLIER *Bibl. Catal.* I. 109 It begins thus tautologously: 'The present plagues that now we fele'. 1904 *Westm. Gaz.* 22 Oct. 3/2 'Fraud-pilfered'—the indictment is tautologously complete.

**tautology** (təʊˈtɒlədʒɪ). [ad. late L. *tautologia* (c 350 in Mar. Plotin. Sacerd.), a. Gr. ταυτολογία, f. ταυτολόγος; see TAUTOLOGOUS; in F. *tautologie*.]

a. A repetition of the same statement. b. The repetition (esp. in the immediate context) of the same word or phrase, or of the same idea or statement in other words: usually as a fault of style.

1587 FLEMING *Contn. Holinshed* III. 1533/1 This ambassage is reported in the historie of Scotland, wherevnto (for the auoiding of tautologie) we refer the reader. 1653 GOUGE *Camm. c. With *a* and *pl.* An instance of this; a tautological phrase or expression; †a repetition of something already said (quot. 1599).

1579 FULKE *Confut. Sanders* 644 It is a foolish tautologie, for you sayed the same immediately before. 1599 Broughton's *Let.* ix. 32 Euery later paperwork of yours is but a Tautology of the former. 1608 WANLEY in *Lett. Const.* xix. §1 (1862) 309 Repetitions and tautologies are used.

d. Applied to the repetition of a statement as its own reason, or to the identification of cause and effect.

1659 PEARSON *Creed* II. (1839) 157 To assign any thing as the cause or reason of itself, is a great absurdity, and the expression of it a vain tautology. 1662 H. MORE *Philos. Writ.* Pref. Gen. (1712) 15 The resolution of such Phenomena as we experience in ourselves... into this vital oneness... is no vain Tautology, or the mere saying a thing is so because it is so. 1836-7 SIR W. HAMILTON *Metaph.* (1859) II. xxxix. 377 There is thus conceived an absolute tautology between the effect and its causes. e. *transf.* A mere repetition of acts, incidents, or experiences; in quot. 1650, used for the sending of a thing to its place of origin.

f. *Mod. Logic*. A compound proposition which is unconditionally true for all the truth-possibilities of its elementary propositions and by virtue of its logical form.

1919 B. RUSSELL *Introd. Math. Philos.* xviii. 203 The characteristic of logical propositions that we are in search of is the one which was felt... by those who said that it consisted in deducibility from the law of contradiction. This characteristic we may call *tautology*. *Ibid.* 205 The importance of 'tautology' for a definition of mathematics was pointed out to me by... Ludwig Wittgenstein, who was working on the problem. 1922 tr. Wittgenstein's *Tractatus* 97 The tautology... is unconditionally true. 1933 *Mind* XLII. 37 So taken, a postulate is a tautology and cannot be denied. 1959 *Listener* 19 Mar. 510/1 The simplest rigorous proof is tautology. **tautomerism** (təʊˈtɒməɪz(ə)m). *Chem.* [f. Gr. ταῦτο-, TAUTO- + μέρος part, after ISOMERISM; rendering Ger. *tautomerie* (Laar 1885).] The property exhibited by certain organic compounds of behaving in different reactions as if they possessed two (or more) different constitutions, that is, as if the atoms of the same compound or group were arranged in two (or more) different ways, expressible by different structural formulæ (e.g. the group —CH:C(OH)—, or —CH<sub>2</sub>CO—, in ethyl acetoacetate); esp. such a property due to the reversible migration of an atom (esp. of hydrogen) or group within a molecule (see also quots.).

1885 CONRAD LAAR in *Ber. Dtsch. Chem. Ges.* XVIII. 652 Um die gegenseitige Beziehung gleichberechtigter Formeln... kurz bezeichnen zu können, schlage ich hierfür den Ausdruck 'Tautomerie' vor.] 1890 NEF in *Jrnl. Chem. Soc.* LVIII. 983 A discussion of the alleged cases of tautomerism in ethyl succinosuccinate and analogous compounds. 1901 DIXON *ibid.* LXXIX. 543 Hitherto no isomerism (or tautomerism) has been established amongst mineral derivatives analogous to that subsisting between the normal and isothiocyanates of organic radicles. 1927 T. M. LOWRY in *Chem. Rev.* IV. 233 The necessity for a new definition of tautomerism arises from the fact that Laar embodied in his original definition a theory which is now universally recognized as being incorrect... namely, that the various formulæ which can be assigned to a tautomerism compound represent 'not isomeric but identical substances'. The new definition has the advantage that there is no theory behind it, since it is limited to a mere statement of the fact of dual reactivity. 1927, 1936 [see *keto-enol* s.v. KETO-b]. 1937 H. B. WATSON *Mod. Theories Org. Chem.* ix. 117 Until a relatively recent date... 'tautomerism' was used exclusively to denote the migration of hydrogen. The similar migration of anionic atoms or groups is now recognized, however; this... is included under... 'tautomerism'. 1964 [see PROTOTROPY]. 1969 C. K. INGOLD *Structure & Mechanism Org. Chem.* (ed. 2) xi. 795 Laar's interpretation was that two such structures did not represent distinct and potentially separable species, but only the end-phases of an intramolecular oscillatory situation in a single chemical species. *Ibid.* 799 Since 1911 there has been no question but

that the concept of tautomerism, in terms of which Conrad Laar had incorporated so many scattered observations into a phenomenon, has to be redefined... as meaning reversible isomeric change. Problems of isolation and proof of identity of tautomers are dependent simply on temperature and the available techniques.

So **tautomer** ('tə:təmə(r)), any one of the forms of a tautomeric compound in relation to another; **tautomeric** ('tə:tə'merik) *a.*, pertaining to or exhibiting tautomerism; **tautomerize** *v. intr.*, to change into another tautomeric form; **tautomerizable** *a.*, capable of being changed into a tautomeric form; **tautomerization**; **tautomery** ('tə:təməri) [ad. Ger. *tautomerie*], = tautomerism.

1886 tr. Richter's *Organic Chem.* (1899) I. 55 Laar... assumes that such compounds consist of a mixture of structural isomerides, in that an easily mobile hydrogen atom oscillates between two positions in equilibrium, and thereby the entire complex becomes mobile. He designates the phenomenon as *tautomery*. 1890 GOLDSCHMIDT & MEISSNER in *Jrnl. Chem. † **tawdry lace**. *Obs.* [See *T* (the letter) 7.] In the earliest quotation *St. Audrey's lace*, i.e. lace of St. Audrey, Etheldreda, or Æpelðryp (daughter of Anna king of East Anglia, and patron saint of Ely): A silk 'lace' or necktie, much worn by women in the 16th and early 17thc.; sometimes taken as a type of female adornments.

[As to the origin of the name, it is told, originally by Bæda (*Ecc. Hist.* IV. ix.), and after him by Ælfric in the *Life of St. Æpelðryth*, Virgin (*Ælfric's Lives of Saints*, ed. Skeat, 1885, xx. II. 49-60), that St. Audrey died of a tumour in her throat, which she considered to be a just retribution, because in her youth she had for vain show adorned her neck with manifold splendid necklaces, 'forðan þe ic on iugoðe frætweðe mine swuran mid mænigfealdum swurbeagum'. In the 16th century, N. Harpsfield, Archdeacon of Canterbury under Philip and Mary (died 1588), after relating the story in his (Latin) *Historia Anglicana Ecclesiastica* (Douay 1622), adds 'Our women of England are wont to wear about the neck a certain necklace [torquem quandam], formed of thin and fine silk, perchance in memory of what we have told'. See also, more particularly, quot. 1674 below. Skinner in his *Etymologicon* (licensed 1668), explains *Tawdry lace* as 'Ties, fringes, or bands, bought at the fair held at the fane of St. Etheldreda, as rightly points out Doctor Th. Henshaw'. There is no discrepancy between the two statements. 'St. Audrey's laces' would naturally be largely offered for sale at her fair, and though this did not give the article its name, it doubtless made it more widely known, and led to the production of cheap and showy forms for the 'country wenches' (see *Nares s.v.*), which at length gave to *tawdry* its later connotation.]

1. a. A compulsory contribution to the support of government, levied on persons, property, income, commodities, transactions, etc., now at fixed rates, mostly proportional to the amount on which the contribution is levied.

'Tax' is the most inclusive term for these contributions, esp. when spoken of as the matter of *taxation*, and in such phrases as *direct* and *indirect tax* (see *DIRECT a.* 6 c, *INDIRECT z* c), including also similar levies for the support of the work of such local or specific bodies as county or municipal, councils, poor law or school boards, etc. But in British practice few of the individual imposts are called by the name, the most notable being the *INCOME TAX*, *LAND TAX*, and *PROPERTY TAX* (also *dag-tax*, *match-tax*, *window-tax*), the rest being mostly styled 'duties', as *excise*, *import*, *export*, *estate*, *house*, *stamp*, *death duties*, etc. The 'taxes' levied by local bodies are usually called 'rates', e.g. *barrough*, *county*, *poor*, *school*, *water rate*, etc. In U.S. 'tax' is more generally applied in ordinary language to every federal, state, or local exaction of this kind: cf. the combs in 7.
