1. a. A toy of various shapes (cylindrical, obconic, etc.), but always of circular section, with a point on which it is made to spin, usually by the sudden pulling of a string wound round it; the common *whip*- or *whipping-top* is kept spinning by lashing it with a whip.

Other tops, as the peg-top, are spun in the same way, but not whipped; some are spun by the action of a spring. *humming-top*, a hollow top, usually of metal, with perforations, which makes a humming noise in spinning. *parish top*, *town top*, a large top kept for public use, which two players or parties whipped in opposite directions. [Note. The meaning of *top* in the OE. quot. is only inferential, as the OE. *Apollonius* here diverges from the Latin original, which contains no such terms as *turbo*, *trochus* or other word meaning 'top'; but it is difficult to see what else the OE. word could mean. In c1325 the sense is clear. On the continent, the name of the toy in Holland generally is now *tol*; but *top* is used in East and West Flanders, Antwerp, and parts of Brabant; also in Friesland, Groningen, and Drente, in the North Netherlands; but this has not been found earlier than 1500. In Brussels, Mechlin, South Brabant generally, and Limburg, the form used is *dop*. *Dop*, *doppe*, was also the MDu. form, occurring from 13th c., and was the normal LG. equivalent of OHG. *topfo*, *topf*, MHG. *topfe*, *topf*, Ger. dial. *topf* (= Ger. *kreisel*) in this sense. Of this comparatively late substitution of *top* for *dop* in Flemish, etc., no explanation appears, and it does not help to account for the use of *top* in English in 1060 or even in 1325. The most that could be suggested would be that the word meaning *turbo* or *trochus* has in both cases run together in form with that meaning *apex* (*TOP sb.*). On the other hand, the use in 1325 of an Anglo-French *toup* (*toop*) in this sense seems to form a link with F. *toupie* (also *†toupie*) and its kindred words, OF. *topet*, or *topuet*, obs. F. *toupin*, and the derivative vbs. OF. *toupiere* or *toupiere*, *topiner* or *toupiere*, and *topiller*. But the etymology of *toupie* and its family is beset by as many difficulties as that of *top*; it does not answer in form to either OHG. *topfo* or MLG. *doppe*.]

The term is used 'by the natives with a shade of disparagement', while 'all persons claiming European blood' take pride 'in wearing a hat' (Yule s.v. *topaz*). R. Drummond says that in his time (before 1808), *Topee*wala and *Puggrywala* were used in Guzerat and the Mahratta country for 'European' and 'Native'. topic ('tɒpɪk), *a.* and *sb.* Also 6 topicke, (toopick), 7 topike, -ique, -yc, 7-8 -ick. [As adj., ad. Gr. *τοπικ-ός* of or pertaining to *τόπος* a place (see -IC); local, or concerning *τόποι* commonplaces. As sb., ad. L. *topica*, a. Gr. *τοπικά* adj. neuter pl., in *τὰ τοπικά*, title of a work

of Aristotle, lit. matters concerning τόποι commonplaces.

The use of τόπος 'place' for a class of considerations which would serve as a 'place' in which a rhetorician might look for suggestions in treating his theme, goes back to Isocrates. By Aristotle τόπος was especially appropriated to classes of considerations of a general character, *common* to many kinds of subjects, the use of which was open to any one dealing with his subject as a rhetorician or dialectician, not with special knowledge, with a view to scientific demonstration. Such were more fully described as κοινὸι τόποι, *loci communes*, *COMMONPLACES*. Aristotle's treatise on *probable* (as distinguished from *demonstrative*) reasoning, which started from such general considerations and dispensed with special knowledge, was referred to as τὰ τομικά; and such general considerations and arguments based thereon as were treated of in that work were called *topic axioms*, *rules*, or *maxims*, *topic arguments*, or simply *topics*; sometimes with less, sometimes with more emphasis on the general character of such arguments. (C. C. J. Webb.)

Topsy ('topst). The name of a character in Mrs. H. B. Stowe's novel *Uncle Tom's Cabin*; used allusively as the type of something that seems to have grown of itself without anyone's intention or direction (see quot. 1851).

topsy-turvy (topst'tɜ:vi), *adv.* (a., sb., and v.) Forms: a. 6 topsy tervy, tyrvy, turvie, turvy; 6-topsy-turvy, (8-9 -turvey). Also 6 topsituruie, -turuy, 7 -turvy, -turvie, topsi-turvi, top-si-turvy; 6 topsie turvie, -vie, -vey, 6-7 -turuy, 7 -turvie, -turvy; 7 topse-turvie. See also the inverted TURVY-TOPSY. (Now almost always hyphenated; in early use more usually two words; sometimes (in every century) as one word.) β-υ: see below. [A kind of alliterative or assonant combination, known in print from 1528, but prob. in popular use from an earlier period. The early spelling was *topsy-tervy* or *-tirvy*, from c 1540 written *-turvy*, *-turvie*. (Cf. the pronunciation of *nerve*, *curve*.) As to the actual components no external evidence has been found, and numerous conjectures and suggestions (many of them absurd and impossible) have been offered. Some of the more plausible of these, taking *topsy*

as representing *top-set* or *top-side*, have been introduced (by those who favoured them) into the spelling; but amid all these aberrations, the typical form, with mere spelling variants, as *topsy*, *topsie*, *topsi-*, and *tervy*, *tirvy*, *turvy*, *turvie*, has remained practically constant. It seems certain that the first element contains *top* (or *tops*) and probable that the second is related to *terve* or *TIRVE* *v.* to turn, turn over, overturn; but the *-sy* of the first and *-y* of the second still want explanation: the former is viewed by some as representing an earlier *so*, as in *up-so-down*, now *upside-down*, *so* becoming *sy* under the influence of *turvy*, the *y* of which is apparently as in *hitty-missy*, *hurly-burly*, *arsy-versy*. A suggestion that *turvy* was connected with *turf* or *turve*, and referred to the laying of cut turfs or turves face downward, to keep them fresh, is now discarded, as is the earlier notion that *turvy* might have been altered from *t'other way*.

(There is a certain parallelism between the series *up-so-down*, later *upset-down*, *upside-down*, and **top-so-tervy*, *topsy-tervy*, *topset-tervy*, *topside-tervy*; but the former has not become *upsy-down*, nor has any trace of **top-so-tervy* been yet found, so that the analogy is incomplete.)

A. *adv.* a. With the top where the bottom should be; in or into an inverted position; upside down, bottom upwards; also less definitely, In or into the position of being toppled over, overturned, overthrown, or upset; right over. tornado (tɔːneɪdɔʊ). *Forms*: (6-7 *ternado*), 7-*tornado*; also 7-8 *turnado*, (7 *tornatho*, *tornada*, 8 *turnado*). See also **TORNADO**. [In Hakluyt and his contemporaries, *ternado*; from Purchas 1625 onward, *turnado*, *tournado*, *tornado*. In none of these forms does the word exist in Spanish or Portuguese. But the early sense makes it probable that *ternado* was a bad adaptation (perh. orig. a blundered spelling) of Sp. *tronada* 'thunderstorm' (f. *tronar* to thunder), and that *tornado* was an attempt to improve it by treating it as a derivative of Sp. *tornar* to turn, return; cf. *tornado pple.*, returned. It is notable that this spelling is identified with explanations in which, not the thunder, but the turning, shifting, or whirling winds are the main feature. This is emphasized in the variants *turnado*, *tournado*. Mod. F. *tornado* is from Eng. (not Portuguese, as in Littré).]

tortoise (tò:t'as, -tis). Forms: see below. [Found in 15th c. in forms *tortuca*, *tortuce*, *tortuge*, *tortu*, *tortuse*, *tortose*. *Tortuca* (c 1255 in

Albertus Magnus *Animal*. 24 §126, 25 §59) was the late popular L. name (see below), which later regularly became, as still in Prov. and Sp., *tortuga*, and in F. *tortue*. (Diefenbach cites also med.L. *turtus*, *tortus*.) Of the Eng. forms, *tortuce* evidently represented the Latin, *tortue* and *tortu* the French, and the 16th c. *tortuga* the Sp. form. *Tortuse* was prob. a mere variant of *tortuce* (cf. *lettuce*, *letuse* below); *tortose* and the later forms in -esse, -ise, -oise, being further variants, partly at least due to shifting of stress and obscuration of the vowel. The forms in final -s may have arisen simply from dropping -e mute; but some of them may have come from taking the possessive *tortu's*, *tortou's*, in *tortou's skin*, *tortue's shell*, as the nominative. The form *tortoise* appears c 1569, preceded by *tortoyse*, 1552.

The late popular L. or Romanic *tortuca* is commonly held to be a derivative of L. *tortus* twisted, with the formative suffix seen in L. *carruca*, *festuca*, *lactuca*, *verruca*, and to refer to the crooked feet of the south European species (Diez). With L. *tortuca*, F. *tortue*, Eng. *tortuce*, *tortuse*, cf. L. *lactuca*, F. *laitue*, Eng. *lettuce*, *letuse*, and the variant forms of the last. The classical L. name was *testudo*, from *testa* shell, whence It. *testudine*, *testuggine*.]

1. *a.* A four-footed reptile of the order *Chelonia*, in which the trunk is enclosed between a carapace and plastron, formed by the dorsal vertebræ, ribs, and sternum; the skin being covered with large horny plates, commonly called the shell.

The *Chelonia* are usually divided into Land-tortoises (*Testudinidæ*), Marsh-tortoises (*Emydæ*), River-tortoises (*Trionycidæ*), and Marine tortoises (*Cheloniidæ*), in which the feet are compressed into flippers or paddles. The last are now commonly distinguished as *turtles*; but this name is sometimes extended to species of the *Emydæ* and *Trionycidæ*. By some zoologists the name 'tortoise' is confined to the terrestrial genus *Testudo* and its immediate congeners; see also TERRAPIN¹.

Tory ('tɔ:ri), *sb.* and *a.* [Anglicized spelling of Irish **tóraidhe*, -aighe (tɔ:rije) 'pursuer', implied in the derivative *tóraigheachd*, *tóraidheachd* pursuit; cf. the syncopated Sc. Gaelic *tòrachd* pursuit, pursuing with hostile intent, f. Ir. *tóir* to pursue, *tóirighim* I pursue.

The OIr. agent-nouns in -(a)*id* and -(a)*ige* fall together in mod. Irish in -(a)*idhe* or -(a)*ighe*, whence the uncertainty of the spelling; the native form has not been found in writing, outside of dictionaries. In some Irish Dictionaries, the meaning is given as 'a pursued or persecuted person', hence an 'outlaw', which is not without historical suitability: but the best Irish etymologists agree that the form of the word is that of an agent-noun.

The following passage has what at first sight appears to be the same word, but the date makes this impossible. The writer is treating of the diversity of North American Indian languages, and *Tories* was possibly an Indian word:—

1634 W. WOOD *New Eng. Prosp.* II. xviii. 92 When any ships come neare the shore, they [Tarrentenes, Indians of Maine] demand whether they be King Charles his Tories, with such a rumbling sound [of r], as if one were beating an unbrac't Drumme.]

2. With capital T: A nickname given 1679-80 by the Exclusioners (q.v.) to those who opposed the exclusion of James, Duke of York (a Roman Catholic) from the succession to the Crown.

According to Roger North *Examen* (1740) II. v. ¶9 The Bill of Exclusion 'led to a common Use of slighting and opprobrious Words; such as *Yorkist*. That... did not scandalise or reflect enough. Then they came to *Tantivy*, which implied Riding Post to Rome... Then, observing that the Duke favoured Irish Men, all his Friends, or those accounted such by appearing against the Exclusion, were straight become *Irish*, and so wild *Irish*, thence *Bogtrotters*, and in the *Copia* of the factious Language, the Word *Tory* was entertained, which signified the most despicable Savages among the Wild Irish'. 3. a. Hence, from 1689, the name of one of the two great parliamentary and political parties in England, and (at length) in Great Britain.

The party sprang from the 17th century Royalists or Cavaliers, and its members at first were more or less identical with the Anti-Exclusionists or 'Tories' in sense 2. For some years after 1689 the Tories leant more or less decidedly towards the dethroned House of Stuart; but upon the accession of George III they, as a party, abandoned this attitude, retaining the principle of strenuously upholding the constituted authority and order in Church and State, and of opposing concessions in the direction of greater religious liberty. In opposition to the growing demands of Liberalism (see *LIBERAL* 5), a consistent antagonism to measures for widening the basis of parliamentary representation, or tending to impair the exclusive privileges of the Church as by law established, became their most marked characteristic; but this has in course of time undergone many modifications. As a formal name, 'Tory' was superseded c. 1830 by *CONSERVATIVE*, merged after 1886 (when the Conservatives were joined by many who had previously belonged to the Liberal party, in opposing Home Rule for Ireland) in that of *UNIONIST*. But 'Tory' is still retained (1) colloquially; (2) as expressing attachment to a policy either more old-fashioned (cf. *old* or *high Tory* in b),

or more positive and constructive than that of ordinary Conservatism (cf. *Tory democracy*, C. 3); (3) in hostile usage, identifying the party with the bigotry and opposition to reform and progress charged upon earlier Toryism. Opposed originally and during the 18th c. to *WHIG*; later to *LIBERAL*, and (still more) to *RADICAL*.

1705 G. Lockhart Let. to Dk. Athole 15 Oct. in *12th Rep. Hist. MSS. totem ('təʊtəm), *sb.* Also 8 totam, 9 otem. [From Odjibewa, or some kindred Algonkin dialect. Mentioned (apparently) in 1609 by Lescarbot as *autem* (in Acadia); by Long 1791 as *totam*, by Henry a 1776, Cooper 1826, Catlin 1841, as *totem*, by Rev. P. Jones (a native Odjibewa) 1861, as *toodaim*, by Francis Assikinak (an Ottawa Indian) as *Ododam*, while the Abbé Thavenel gives the simple form as *ote*, 'the possessive of which is *otem*'. The initial *t* is explained by some as the final letter of a prec. possessive pronoun. The meaning given by

most of these is 'mark'; by the younger Henry 'tribe'; Thavenel gives 'mark' and 'family or tribe', app. meaning 'that which marks the family or tribe'. Lescarbot and Long explain it as applied to a familiar spirit.]

1. a. Among the American Indians: The hereditary mark, emblem, or badge of a tribe, clan, or group of Indians, consisting of a figure or representation of some animal, less commonly a plant or other natural object, after which the group is named; thus sometimes used to denote the tribe, clan, or division of a 'nation', having such a mark; also applied to the animal or natural object itself, sometimes considered to be ancestrally or fraternally related to the clan, being spoken of as a brother or sister, and treated as an object of friendly regard, or sometimes even as incarnating a guardian spirit who may be appealed to or worshipped.

HENRY (the elder) *Travels* (1809) 305 To these are added his badge, called, in the Algonquin tongue, a totem, and which is in the nature of an armorial bearing. 1791 J. LONG *Voy. Indian Interpr.* 86 One part of the religious superstition of the Savages, consists in each of them having his *totam*, or favourite spirit, which he believes watches over him. This *totam* they conceive assumes the shape of some beast or other, and therefore they never kill, hunt, or eat the animal whose form they think this *totam* bears. *Ibid.*, One of them, whose *totam* was a bear. 1799-1808 A. We cut them deep in the stones, they are there now. 1851 SCHOOLCRAFT *Indian Tribes* 294 A single element in the system attracted early notice. I allude to the institution of the Totem, which has been well known among the Algonquin tribes from the settlement of Canada. 1855 LONGF. *Hiauw.*, *Picture Writing* 23 From what old, ancestral Totem, Be it Eagle, Bear, or Beaver, They descended, this we know not. 1865 J. G. HODGINS *Hist. Canada* 101 The *totem*, or outline of some animal, (from *do-daim*, a family mark), was always the chief's signature to a treaty. 1861 P. JONES *Hist. Ojebways* 138 Each 'nation' is subdivided into a number of tribes or clans called 'toodaims', and each tribe is distinguished by certain animals or things, as for instance: the Ojebway nations have the following toodaims:—the Eagle, Reindeer, Otter, Bear, Buffalo, Beaver, Catfish, Pike, Birch-bark, White Oak Tree, Bear's liver, etc., etc. The Mohawk nation have only three divisions or tribes—the Turtle, the Bear, and the Wolf. 1865 TYLOR *Early Hist. Man.* x. 281 The Indian tribes are usually divided into clans, each distinguished by a *totem* (Algonquin *do-daim*, that is 'town-mark') which is commonly some animal, as a bear, wolf, deer, etc., and may be compared on the one hand to a crest, and on the other to a surname. 1885 CLODD *Myths & Dr.* I. vi. 106 The Dacotahs would neither kill nor eat their totems. 1887 L. OLIPHANT *Episodes* 72 Twelve of these placed their totems opposite my signature; each totem consisting of the rude representation of a bear, a deer, an otter, a rat, or some other wild animal. 1893 A. LANG *Custom & Myth* 105 Prof. Max Müller (Academy, Jan., 1884) says the word should be, not Totem, but Ote or Otem. Mr. Tylor's enquiries among the Red Men support this.

b. By anthropologists the name has been extended to refer to other peoples and tribes, which (though they may not use totem marks) are similarly divided into groups or clans named after animals, etc.; such animals, animal-names, or animal-named groups, being spoken or written of as their totems, and their organization, their complex system of mutual and marriage relations and religious usages, being styled TOTEMISM, q.v.

There are also said to be among certain races (as the Australian Aborigines) *sex-totems*, peculiar to men or to women, and *personal totems*, pertaining to the individual and not hereditary.

OFr. *tochier*, *tuchier* (11th c. in *Chanson Roland*), mod.F. *toucher* 'to touch' = ONF. *toquer*, Pr. *toquar*, *tocar*, *tochar*, Sp. and Pg. *tocar*, It. *toccare* 'to strike, to smite, to hit, to touch' (Florio), Romanian *tocă* to knock.

The passage of the sense 'knock, strike' into that of 'touch' (in Fr., etc.), is like that of Eng. 'thrust, push' into 'put': a stroke at its lightest is a mere touch. The Romanic *toccare* has been held, after Diez, to be from an OLG. **tokkōn*, **tukken*, MLG. *tocken*, *tucken*, = OHG. *zocchōn*, *zuchen*, 'to draw or pull with force, pluck'; but a change of sense from 'pull' to 'knock' is inexplicable, and it is a more probable view that *toccare* was not from German, but an onomatopoeic formation of the Romanic langs. from the syllable *toc* imitating a knock. *Tocken*, in its own sense 'draw', is still in use in LG. and in parts of Holland on the German frontier, but not in Dutch itself. But the South Netherlands (Flanders, Antwerp, etc.) use now, as in Kilian's time, a vb. *tokken* in the same sense as the *toquer*, *toquer* of Old Northern French and its modern dialects, whence this has prob. been taken over. There is thus a gap in local continuity, as well as in sense, between the German and Romanic words. (Cf. Diez s.v. *Toccare*, Scheler s.v. *Toucher*, Körting 9802 *Tukkōn*; Gaston Paris in *Romania* XXVII. 626.)

I. 1. A building lofty in proportion to the size of its base, either isolated, or forming part of a castle, church, or other edifice, or of the walls of a town.

Often with prefixed word expressing its nature or use, as *bell-tower*, *church-tower*, *gong-tower*, *Martello tower*, *sea-tower*, *watch-tower*, *water-tower*: see the first element. *round tower*: see *ROUND* a. 15. *tower of silence*, the structure on which the Parsees expose their dead (for earlier examples of *tower of silence* see *SILENCE sb.* 2c).

In the Border counties of England and Scotland, 'tower' is often the name of a solitary high fenced house, a tower-house or 'peel-house' (*PEEL sb.* 1 4, 6), too small to be called a 'castle', e.g. Gilnockie, Goldilands, Smailholm Tower.

In OE. the sense 'fence, hedge' does not occur, only that of 'enclosed place', as in sense 1, and its developments in senses 2 and 3, in which it was frequently used to render L. *villa*. The modern sense 4 is later than the Norman Conquest, and corresponds to F. *ville* 'town, city', as similarly developed from L. *villa* 'farm, country-house'.]

4. a. In general English use, commonly designating an inhabited place larger and more regularly built than a village, and having more complete and independent local government (esp. one not created a city); applied historically not only to a 'borough', i.e. a corporate town, and a 'city', a town of higher rank, but also to an 'urban district', i.e. a non-corporate town having an 'urban district council' with powers of rating, paving, and sanitation more extensive than those possessed by a parish council or the administrative body (where such exists) of a village. Sometimes also applied to small inhabited places below the rank of an 'urban district' or its equivalent, which are not distinguishable from villages otherwise, perhaps, than by having a periodical market or fair ('market town'), or by being historically 'towns'.

The distinction between a small town which is not a municipal borough, and a village, is somewhat indefinite; there are also decayed towns, even municipal boroughs, which are surpassed in population by many villages.

town-planning, sb. [Orig. with stress on *town*; subsequently more usu. on *planning*.] The preparation and construction of plans in accordance with which the growth and extension of a town is to be regulated, so as to make use of the natural advantages of the site, and to secure the most advantageous conditions of housing and traffic, the convenient situation of public buildings, open spaces, etc. Also *attrib.* So **town-plan sb.**, a ground-plan showing the positions of the streets and buildings in the proposed development of a town; **town-plan v., intr.** to prepare a plan for the development of a town (whence **town-planned ppl. a.**); **town-planner.**

'townscape. [f. TOWN *sb.*, after *landscape*.]

1. A picture or view of a town.

1880 LD. R. GOWER *Figure Painters Holland* 66 It is a landscape, or rather a townscape. 1889 HISSEY *Tour in Phaeton* 263 Some of the quaint townscapes (to invent another word) of our romantic, unspoilt English towns. 1959 *Sunday Times* 18 Jan. 16/8 These townscapes display, in short, the internal contradictions which also mark this painter's portraits of the aged rich. 1962 *Listener* 4 Oct. 515/2 The tranquillity of his land- and town-scapes.

2. The arrangement and overall appearance of the buildings, spaces, and other physical features of a town.

1937 *Evening News* 23 Apr. 10/4, I prefer a townscape with human figures to a landscape with trees. 1939 *Archit. Rev.* LXXXVI. 235/2 That universal Croydon towards which the townscapes of England are tending. 1953 *Ibid.* CXIV. 33 If I were asked to define Townscape I would say that one building is architecture but two buildings is Townscape. For as soon as two buildings are juxtaposed the art of Townscape is released. Such problems as the relationship between the building and the space between the buildings immediately assume importance. 1972 *Oxford Times* 27 Oct. 2/6 Mr John Ashdown, the city's conservation officer, said the monument would add to the townscape and be particularly attractive when seen by people walking up Turl Street. 1983 *Listener* 20 Jan. 27/3 The tall, usurping factor of Aurungzeb's mosque, dominating the townscape that some remember.

Hence **'townscaper**, one who plans townscapes; **'townscaping**, the planning of townscapes.

1949 *Archit. Rev.* CV. 249 Though the townscaper may welcome the contribution of street publicity to the urban scene there is one pitfall he must avoid—impropriety. 1953 *Ibid.* CXIV. 251 The townscaper's box of tricks—enclosure, escape, claustrophobia, surprise, delight, relief. 1959 *New Statesman* 16 May 686/2 All over the unbuilt ground surface of the Churchill Gardens estate there is evidence of an attitude indistinguishable from Townscaping. 1961 *Guardian* 18 Jan. 10/6 This cool new piece of townscaping.

Townsend ('taunzend). *Physics.* The name of Sir John Townsend (1868-1957), Irish physicist, used *attrib.* with reference to certain phenomena and concepts related to his work on the conduction of electricity through gases, as **Townsend discharge**, a dark, low-current electric discharge in a gas that depends on an external source of ionization for its continuance.

1932 K. K. DARROW *Electr. Phenomena in Gases* ix. 293 The relative importance of the various processes of ionization and electron-expulsion... which figure in the 'Townsend discharge'. 1956 *Nature* 25 Feb. 391/1 The possibility of using the Townsend electron avalanche process in a gas in a stage-by-stage system to give a highly stable electron-multiplication factor. 1968 ROMANOWITZ & PUCKETT *Introd. Electronics* xiv. 563 As the voltage is increased from zero, the dark current (called Townsend current...) increases slowly until the voltage approaches that at which the tube operates with a glow discharge. 1978 J. H. INGOLD in HIRSH & OSKAM *Gaseous Electronics* I. ii. 23 At extremely low currents, on the order of micro-amperes and less, the discharge is a Townsend discharge, with little or no visible light emanating from the discharge tube. 1982 *Nature* 28 Oct. 774/1 The main agents of discharges are electrons that participate in Townsend avalanches.

c. *spec.* Each of the local divisions of, or districts comprised in, a large original parish, each containing a village or small town, usually having its own church (formerly a chapel of the mother church of the original parish, whence such divisions were also known ecclesiastically as *chapelries*).

Township in this sense is chiefly retained in the north of England for the ancient divisions of such original parishes as Crosthwaite, Grasmere, Windermere, and Kendal, e.g. the townships of Borrowdale, Langdale, Rydal, and Ambleside; but it is applied in the Ordnance maps also to the ancient divisions of such original parishes as Cumnor and St. Giles', Camberwell, which for most purposes are now distinct parishes and are usually so called.

Brit. Empire* (1854) I. 141 In the northern counties, where the parishes sometimes embrace 30 or 40 square miles, the poor laws, the due administration or which must always depend on an intimate knowledge of the situation and character of every one applying for relief, could not be properly carried into effect. To remedy this inconvenience, an act was passed in the 13th of Charles II, permitting townships and villages, though not entire parishes, severally and distinctly to maintain their own poor. Hence townships in the north of England may be regarded as divisions subordinate to parishes; and are, in practice, as distinctly limited as if they were separate parishes. **1891** J. P. EARWAKER *Manch. Constables' Acts*. I. 5. *U.S. and Canada.* A division of a county having certain corporate powers of local administration; the same that in New England is called a town (TOWN sb. 6a).

In the newer states, in which the divisions were laid off by government survey, a township is a division six miles square, and is so called even when still unsettled. The name is similarly used in the western provinces of Canada, from Ontario to British Columbia, and in Eastern Quebec and Prince Edward Island.

6. a. In Australia and New Zealand, a site laid out prospectively for a town, meanwhile often consisting of a few 'shanties' grouped around a railway station, store, hotel, post office, or the like; a village or hamlet. (Cf. the *town-site* (TOWN sb. 10) of U.S. and Canada.)

8. By some 19th c. historical writers, adopted to designate what they consider to have been the simplest form of local or social organization in primitive Old English times.

This modern use of the term does not agree with the OE.; it appears to be founded on a confusion of OE. *tūn* and

tūnscepe (sense 1), and the carrying back into early Anglo-Saxon or Teutonic times of the ME. sense 2, 2b. (See W. J. Ashley *The Anglo-Saxon 'Township'* in *Q. Jnl. Economics* (Harvard) VIII. Apr. 1894.)

TOXO-¹ + PLASMA.] A micro-organism of the genus of this name, which comprises crescentic uninucleate sporozoans that are parasites of vertebrates. Also in pl. sense.

1926 C. M. WENYON *Protozoology* II. II. 1042 Mayer... discovered a parasite which appeared to be a toxoplasma in the spleen and liver of a bird. *Ibid.*, Though some of the toxoplasmas may be merozoites of haemogregarines or coccidia, this cannot apply to such an organism as *Toxoplasma gondii*. 1937 *Science* 2 Apr. 336/1 Toxoplasma have been described as the causative agents of various pathologic conditions in birds and mammals, including man. 1962 *Lancet* 6 Jan. 23/2 Only when a woman is initially infected with toxoplasma during pregnancy can she pass the infection to her fetus. 1973 *Times* 31 Oct. 14/3 It is thought that toxoplasma infection may occasionally lead to abortion, or to some cases of mental abnormality in the child.

Hence **toxoplasmic** *a.*; **toxoplasmin** [-IN¹], an antigenic preparation of toxoplasma; **toxoplasmosis** [-OSIS], infection with or a disease caused by toxoplasma, which may vary from symptomless to fatal.

1934 *Biol. K. FRENKEL in *Proc. Soc. Exper. Biol. & Med.* LXVIII. 639/2 The preparation of toxoplasmin, a skin testing antigen made of toxoplasma has been described. 1962 *Lancet* 6 Jan. 23/2 At the end of the third month of pregnancy, all women should be tested by the toxoplasmin skin test, which is cheap and simple. 1971 *Physic. Bull.* July 409/2 Recurrent toxoplasma chorioretinitis, leading to satellite lesions about a scar caused by cysts, presents a serious ocular threat. 1977 *Rolling Stone* 24 Mar. 24/5 Roy Harper, popular British singer and guitarist, almost had to delay a tour of Britain when he caught a rare (in humans), flukie virus called toxoplasmosis while giving mouth to mouth resuscitation to a pregnant sheep.

toy (tɔɪ), *sb.* Forms: ? 4, 6-7 *toye*, 6-*toy*; *Pl.* 6-7 *toyes*, *toies*, 6-*toys*. [*Toy sb.* and *vb.* (formerly *toye*) have been in common use since c 1530, when both are given by Palsgr., and used by Skelton and Tindale. But a single instance of *toye sb.*, apparently the same word, occurs in Robert of Brunne. It is difficult to conceive how such a word in use c 1300 should thus disappear for two centuries, and then should all at once burst into view with a wide sense-development. The etymology is equally problematic, and, in spite of current conjectures, must still be considered unascertained: see Note below.]

[Note. Eduard Müller suggested the identity of *toy* with Du. *tooi*, late MDu. *tōi*, 16th c., 'attire, ornament, finery, dress', which suits the form, but hardly the sense (exc. ? in 10 or 7). Others have thought of Du. *tuig* 'harness, horse-trappings', in pl. 'sails, rigging, implements, tools; stuff, lumber, refuse, trash'; in Kilian 1599 *tuigh*, dial. *tuych*, *tugh*, 'arms, implements, armaments, impedimenta, ornaments', = Ger. *zeug* 'apparatus, tools, gear, furniture, stuff, trash, etc.', LG. *tüg*, tügg, MLG. *tüch*, *tüg*. But, if the sense-development shown above is historically correct, it is difficult to see in either of these suggestions, the origin of the English word. It is indeed true that Du. *speeltuig*, Ger. *spielzeug*, and Da. *legetoi*, mean 'play-tool or implement, plaything, toy', and that Sidney in 1586 used 'playing toy', which might conceivably be a rendering of one of these compounds; but this would still leave the earlier English history unexplained.]

If this be the source, the original sense would appear to have been the line or mark made on the ground by anything hauled or dragged, whence also the mark made or path beaten by the feet of man or beast; the sense-development being parallel to that of TRACE from L. **tractiäre*. It is noticeable that the senses of the verbs *trace* and *track* are sometimes identical; also that *track* and *tract* were often identified in pronunciation and use.]

b. *Tracts for the Times*: the title of a series of pamphlets on theological and ecclesiastical topics (known also as the *Oxford Tracts*, or simply *the Tracts*) started by J. H. Newman, and published at Oxford 1833-1841, on the doctrines of which the Tractarian movement was based; also used in *sing.* with small initials, of any literary work put out to meet a particular need of the times.

The earlier of these were, in accordance with their title, brief pamphlets; but some of the later, e.g. that of Pusey on Baptism, were extended treatises, *tracts* in sense 2. The aim of the series was 'to arrest the advance of Liberalism in religious thought, and to revive' what the writers held to be 'the true conception of the relation of the Church of England to the Catholic Church at large' (*Churchman's Guide*). The last Tract, No. 90, by J. H. Newman, 'On Certain Passages in the XXXIX Articles', 'called forth a storm of reprobation; at the instance of Four Tutors, the Heads of the Oxford Colleges pronounced censure upon the author', and at the request of the Bishop of Oxford the publication of the Tracts ceased. In the sequel, many who sympathized with the teaching of the Tracts (including at length Newman himself) seceded to the Church of Rome.
