dapple ('dæpəl), *sb.* Also 6 *dappell*. [Unless this is the first element in *dapple-grey* (q.v.), it is not known until late in the 16th c., being preceded somewhat by examples of the adj. of the same form, and followed by those of the vb. in the simple tenses; the (? ppl.) adj. *dappled*

however appears two centuries earlier. The mutual relations of these and the derivation and etymological development of the whole group are, from the want of data, still uncertain. The primary meaning of *dappled* was 'spotted, specked, blotched', which might arise either from a vb. 'to spot' or a sb. = 'spot, blotch'. A possible connexion is the Icel. *depill* (found in 13th c.) 'spot, dot'; according to Vigfusson 'a dog with spots over the eyes is also called *depill*'. This is app. a dim. of *dapi* pool: cf. mod. Norw. *dape*, *depe* muddy pool, pond, dub; MLG. *dope*, *dobbe*. Thus *dapple* might perhaps originally mean a 'splash', and, hence, a small blotch or speck of colour.]

dapple-grey ('dæp(ə)lgreɪ), *a. (sb.)* Forms: 4-5 dappel-, -ul(l-), -il(l-, 6-7 dapple-, 5- dapple-grey, -gray. [See DAPPLE sb., a, v. and GREY.]

Since *dapple-grey* occurs nearly two centuries before *dapple* itself is exemplified in any grammatical capacity (the only form known to be of equal age being the ppl. adj. *dappled*), it is difficult to conjecture whence or how the compound was formed. In such combinations, the first element is usually a sb.: e.g. in *apple-grey*, *iron-grey*, *sky-blue*, *snow-white*, etc.; but it is difficult to attach any analogous meaning to 'spot-grey', if we suppose *dapple* here to be the sb. The Germanic languages generally have a combination meaning 'apple-grey': viz. ON. *apalgrár* 'dapple-grey', i.e. apple-grey, having the streaky colour of an apple' (Vigfusson), Sw. *apel-grå*, Norw. *apel-graa*, Da. *ahildgraa*, pied, piebald; OHG. *apfelgrā* 'glaucus' (Grimm), MHG. *apfelgrā*, Ger. *apfelgrau* 'dapple-grey' (Flügel), 'applied to the apple-round spots which show themselves on grey horses' (Grimm), Du. *appel-graauw* 'dapple-grey'. So F. *pommelē* (f. *pomme* apple) marked with roundish spots (of any colour), *gris-pommelē* grey dappled with darker spots, *dapple-grey*, *pomely* grey in Chaucer, C.T. *Prol.* 616; with which cf. Russ. *yablochnyi* dappled, f. *yabloko* apple; all said esp. of the coats of horses. It is not easy to believe that 'dapple-grey' which renders these words, has no connexion with 'apple-grey', their actual translation; the explanation may be that *dapple-grey* was a mixture of DAPPLED spotted, taken as the sense-equivalent of F. *pommelē*, with *apple-grey* the formal representative of Norse *apel-grā*, and its Teutonic equivalents. This would account at once for the difficulty in analysing *dapple* - in this combination, and for its presence here before its appearance as an independent word.]

darbar: see DURBAR.

Darby ('dɑːbi). A southern (not the local) pronunciation of *Derby*, the name of an English town and shire, which was formerly also sometimes so spelt. Hence an English personal surname, and an appellation of various things named after the place or some person of that surname.

1. *Father Derby's* or *Darby's bands*: app. Some rigid form of bond by which a debtor was bound and put within the power of a money-lender. (It has been suggested that the term was derived from the name of some noted usurer of the 16th c.)

1576 GASCOIGNE *Steele Gl.* (Arb.) 71 To make their coynce, a net to catch yong frye. To binde such babes in father Derbies bands. To stay their steps by statute Staples staffe. 1592 GREENE *Upst. 6. *Darby and Joan*. A jocose appellation for an attached husband and wife who are 'all in all to each other', especially in advanced years and in humble life. Hence *dial.*, a pair of china figures, male and female, for the chimney-piece.

Hence **Darby-and-Joan** *v.*, *-Joanish* *a.*; **Darby and Joan club**, a club for elderly men and women.

The *Gentl. Mag.* (1735) V. 153 has under the title 'The joys of love never forgot: a song', a mediocre copy of verses, beginning 'Dear Chloe, while thus beyond measure, You treat me with doubt and disdain', and continuing in the third stanza 'Old Darby, with Joan by his side, You've often regarded with wonder: He's dropsical, she is sore-eyed, Yet they're never happy asunder'. This has usually been considered the source of the names, and various conjectures have been made, both as to the author, and as to the identity of 'Darby and Joan', but with no valid results. It is possible that the names go back to some earlier piece, and as Darby is not a common English surname, it may have originated in a real person. There is also a well-known 19th c. song of the name.

Darcy ('dɑ:si). [The name of H. P. G. Darcy (1803-58), inspector of the Paris waterworks.]

1. Used attrib. and in the possessive to designate concepts arising out of Darcy's work on fluid flow, esp. in Darcy's law, a law governing the flow of fluid through a porous medium, according to which the volume flow per unit cross-sectional area is proportional to the pressure gradient divided by the viscosity of the fluid.

1881 *Encycl. Brit.* XII. 493/2 (heading) Ganguillet & Kutter's modified Darcy formula. 1931 *Physics* I. 35 In the case of the flow of liquids through porous media... the empirically established law (D'Arcy law [*sic*]) that the velocity is proportional to the pressure gradient has been taken as the basis of the hydrodynamics. 1957 *Nature* 23 Feb. 407/2 The section concerned with underground water devoted most of the sessions to an appreciation of the so-called Darcy's Law and its application and validity over a wide range of ground-water problems. 1972 R. G. KAZMANN *Mod. Hydrol.* (ed. 2) v. 184 It is only in connection with water flow in the vicinity of discharging wells that... the flow is often turbulent, and Darcy's law does not apply.

2. Written darcy (pl. darcys, darcies). A c.g.s. unit of permeability to fluid flow, being the permeability of a medium that allows a flow of 1 cubic centimetre per second of a liquid of 1 centipoise viscosity under a pressure gradient of 1 atmosphere/centimetre.

1933 R. D. WYCKOFF et al. in *Rev. Sci. Instruments* IV. 395/2 In view of Darcy's fundamental work in establishing the laws of flow for porous media it has seemed appropriate to name the unit of permeability the darcy. 1971 *Bull. Amer. Assoc. Petroleum Geologists* LV. 1694/2 Average porosity is about 34%, and average permeability is in excess of 3 darcys. 1975 G. ANDERSON *Coring* i. 15 The American Petroleum Institute has modified the darcy to standardize its use for the petroleum industry.

Skr. *dhṛsh-*, perf. *dadhāṛsha*, to be bold, Gr. *θάρσ-*, *θραο-* in *θραοῖς* bold, *θραοῖς* to be bold, Oslav. *drŭzate* to be bold, dare. In ON., the word is wanting, its sense being supplied by the weak verb *þora*. It is also lost in mod.Ger. and Du.; in MDu. it appears to have run together with the verb *dorven*, = OE. *purfan* to need (see **THAR**); hence in Du., *durven* is to dare; and Ger. *dürfen* in some of its uses approaches the sense 'dare'. These two verbs have also fallen together under a *d* form in some Frisian dialects; and in ME. there was some confusion between them, *dar* being sometimes written for *thar*, while, on the other hand, *th-* forms (some of them at least from Norse) appear with the sense of *dar*: see A. 9 below.

The original 3rd sing. pres. *he dare*, and *pa. t. durst*, remained undisturbed to the modern period, in which the transitive senses (B. II.) were developed; but early in the 16th c. the new forms *dares*, *dared*, appeared in the south, and are always used in the transitive senses, and now also in the intransitive sense when followed by *to*. In the original construction, followed by the infinitive without *to*, *dare*, *durst* are still in common use (esp. in the negative 'he dare not', 'he durst not'); and most writers prefer 'he dare go', or 'he dares to go', to 'he dares go'. The northern dialects generally retain 'he dare, he durst', and writers of northern extraction favour their retention in literary English when followed by the simple infinitive without *to*.]

darloch, var. of **DORLACH**.

darn (dɔ:n), *v.*¹ Forms 7-8 *dern*, *dearn*, 7- *darn*; 9 *Sc. dern*. [Derivation unknown.]

The verb appears about 1600, and becomes at once quite common: it may be that this particular way of repairing a hole or rent was then introduced. The form suggests relationship to *DERN* (later *durn*) secret, hidden, and its verb *dern*, *darn* to conceal, put out of sight; but satisfactory connecting links between the two have not yet been found. On the other hand the Celtic derivation suggested by Wedgwood is absolutely inadmissible. Welsh *darn* 'piece, fragment' has no association with darning or mending in any way, and the sense 'patch' given by Owen Pughe is correct only in the sense that a 'piece' may be used to patch. The Welsh *darnio hogan* would mean 'to cut a stocking to pieces' (with a knife); 'to darn a stocking' is *creithio hogan*. (D. Silvan Evans, and Prof. Rhys.)

1. a. *trans.* To mend (clothes, etc., esp. stockings) by filling-in a hole or rent with yarn or thread interwoven so as to form a kind of texture. (This is done with a *darning-needle*.)

Known first as the English name for the *lolium* of the Vulgate: see COCKLE *sb.* 2. thoughter, 5-6 *Sc.* dochtir, 5-9 *Sc.* dochter, 6 doughtour, *Sc.* doughter). *β.* (6 *dial.* dahtorr, doffer, 6-7 dafter), 6- daughter (riming with *after* in *Pilgr. Prog.*, etc.). *Plural:* see below. [A Com. Teutonic and Common Aryan word of relationship, OE. *dohtor* (-ur, -er) = OFris. *dochter*, OS. *dohtar* (MDu., Du., LG. *dochter*), OHG. *tohter* (MHG. *tohter*, Ger. *tochter*), ON. *dóttir* (-:dohter), (Sw., Norw. *dotter*, Da. *datter*), Goth. *dauhtar*:-OTeut. **dohtēr*; corresp. to pre-Germanic **dhuk'tēr* from original **dhugh's'tēr*, whence Skr. *duhitār*-, Zend *duyādar*, Armen. *duštr*, OSlav. *dūšti*, Lith. *duktė*: cf. also Gr. *θυγάτηρ*. Generally referred to the verbal root **dhugh-*, Skr. *duh-* to milk.

The normal modern repr. of OE. *dohtor*, ME. *dozter*, is *daughter* still used in 16th c., and now represented by *Sc.* *dochter*, *dowchter*, north. Eng. *dowter*. The form *daughter* appeared in the 16th c. (substituted in Cranmer's ed. of the Bible for Tindale's and Coverdale's *daughter*, whence in all later versions, and always in Shakspeare and later writers). It appears to be of southern origin, and analogous to the southern phonetic development of *bought*, *sought*, *thought*: a Wells val of 1531 has *dahtorr*s: cf. the mod. Somerset and Devon (*do:ta(r)*).

In OE. the dative sing. was *dehter*; genitive *dohtor* (sometimes *dehter*); the uninflected genitive continued in use to the 16th c. The plural shows a variety of forms, viz. OE. *dohtor*, -ur, -er (like the sing.), *dohtro*, *dohtro*, Northumb. *dohter*, *dohtro*; the first of these app. did not survive the OE. stage; the form in -u, -a, is represented in early ME. by Layamon's *dohtere*, *dohtre*; but Layamon has also *dohtren*, which survived in S.W. dialect to 1500. Ormin has *dohhtres*, and the later text of Layamon *dohtres*, which is always found in northern ME., and became the standard form. An unmlaut plural *dehter* appears in the West Midland *Alliterative Poems* of 14th c. and the *Troy-book* of c. 1400; it occurs elsewhere with inflexional endings, *dehtren*, *dehteres*: cf. *brether*, *brethren*. The uninflectedness of the form is seen in this, that the earlier text of Layamon has both *dohtere* and *dohtren*, the later both *dohtren* and *dohtres*; the MSS. of Chaucer also show both *dohtres* and *doughtren*, *Hali Meidenhad* has *dohtren* and *dehtren*, the *Alliterative Poems* *dehter* and *dehteres*.

With the OE. plural forms, cf. OFris. *dohtera* and *dohteren*, OHG. *tohter*, *tohterā*, *tohterūn*, MHG., with unmlaut, *tóhter*, Ger. *tóchter*, LG. *dehter*. The original Teutonic nom. pl. was **dohteriz*; in early Norse runes *dohtri*, whence regularly Norse *deitr*, *deittr*; a corresponding OE. **dehter*, **dehter* is not found, but the ME. West Midland *dehter* may be its descendant. The other forms in the various languages are later, and analogical. For OE. *dohtor*, *dohtro*, -ra, see the similar forms under BROTHER: it is possible that those in -ru, -ra, northern -ero, are assimilated to -os, -or stems like *lombru*, -ra, -ero. ME. *dohtren*, *dehtren* exemplify the usual passage of vowel plurals in early southern ME. into the -en type, and Ormin's *dohhtres* the early ascendancy of -es plurals in the north and midlands.]

daur, Sc. f. DARE.

daurg, var. of DARG Sc.

daut, dawt (dɔ:t), v. Sc. Also 6-8 *date*. [Etymology unknown.]

- If *daut, daut*, is, as it appears to be, the proper form, it ought to represent an original *daūt*: cf. Sc. *faut, maut, sout*, etc.; but the two 16-17th c. examples of *date* from Scotch writers of English make even this doubtful. *Daut* suggests Gael. *dalta* foster-child; but, though the word appears to be exclusively Scotch, there is no evidence pointing to a Gaelic origin. Connexion with DOTE, *daot* is excluded by the fact that Sc. *au, aue*, does not answer to Eng. *ō* from any source. Cf. also DAUNT v. 6.]

The corresponding verb to *dawn*, which has similarly displaced *daw*, is not exemplified till the 15th c., and appears to have been deduced from *dawning*; the *sb.* *dawn* appeared still later, app. from the vb. As ME. *daw-en* had also an early doublet form *daiz-en*, *day-yn* (see DAY v.¹), so beside *dawen-yng* is found *daizen-ing*, *daien-ing*, *dain-ing* (see DAYN v.). No form corresponding to *dawening*, *dawning* is recorded in OE., and it was probably from Norse; Sw. and Da. have a form *dagning* (OSw. *dagning* c 1300), either from *daga* to dawn, with suffix *-ning*, as in *kvað-n-ing*, *sað-n-ing*, *tal-n-ing*, etc. (Vigf. *Introd.* xxxi), or from a deriv. vb. **dagna*.]

B. Signification.

I. The time of sunlight.

1. a. 'The time between the rising and setting of the sun' (J.); the interval of light between successive periods of darkness or *night*; in ordinary usage including the lighter part of morning and evening twilight, but, when strictly used, limited to the time when the sun is above the horizon, as in 'at the equinox day and night are equal'. *break of day*: dawn: see BREAK, DAYBREAK.

This is the *artificial day* of astronomers: see ARTIFICIAL. It is sometimes called the *natural day* (Ger. *natürlicher tag*), which however usually means sense 6.

II. As a period, natural division, or unit of time.

6. a. The time occupied by the earth in one revolution on its axis, in which the same terrestrial meridian returns to the sun; the space of twenty-four hours, reckoned from a definite or given point. *Const. during, in*, formerly *on*, *o*, *a*, retained in twice a day, etc.: see A *prep.* 1. 8, b.

The *solar day* (and, formerly, the *astronomical day*) is reckoned from noon to noon; and, as the length of this time varies (within narrow limits) according to the time of the year, its mean or average length is the *mean solar day*. (The astronomical day is now reckoned from midnight to midnight.) The *civil day* in civilized countries generally is the period from midnight to midnight, similarly adjusted to its mean length. Ancient nations variously reckoned their day to begin at sunrise, at noon, or at sunset. The *sidereal day* is the time between the successive meridional transits of a star, or specifically of the first point of Aries, and is about four minutes shorter than the solar day. (The term *natural day* is sometimes used in this sense, sometimes in sense 1.)

de, obs. Sc. form of **DIE** v.

de, a dialectal (Kentish), foreign, or infantile representation of **THE**.

Sometimes in early MSS. a scribal error for **de** = **the**.

de (di:). 1. A Latin preposition, meaning 'down from, from, off, concerning', occurring in some Latin phrases more or less used in English. The chief of these are the following:

1. **de bene esse** (*Law*), as of 'well-being', as being good, of conditional allowance for the present.

'To take or do any thing *De bene esse*, is to accept or allow it, as well done for present, ... but [on fuller examination] to be allowed or disallowed, according to the Merit or Well-being of the thing in its own nature' (Blount, *Law Dict.* 1670).

1603 *Egerton Papers* (Camden) 372 (Stanf.) Wherefore, *de bene esse*, I have provisionally made a warrant ready for his Majesty's signature. 1656 BLOUNT *Glossogr.* s.v., The Court... often orders that Defendant to be examined *De bene esse*, i. that his depositions are to be allowed or suppressed at the hearing, as the Judge shall see cause. 1885 *Law Rep.* 20 Ch. Div. 290 (Stanf.) The Court ultimately determined that it should be read *de bene esse*.

2. **de congruo**, of CONGRUITY.

1623 W. PEMBLE *Justif.* (1629) 33 When they tell vs, that faith merits justification *de congruo* they intrap themselves in grosse contradiction; seeing to deserve *de congruo* is not to deserve at all. 1841, 1856 [see CONGRUITY 5a].

3. **de facto**, in fact, in reality, in actual existence, force, or possession, as a matter of fact. Very frequently opposed to *de jure*. Used also as an *adj.* = 'actual, actually existing', and then sometimes so far anglicized as to be prefixed to its sb.

1602 W. WATSON *Quodlibets* 73 (Stanf.) That the Pope erred *de facto* in the reconciliation of the French King. 1638 CHILLINGW. *Relig. Prot.* 1. iii. §30 He may do it *de facto*, but de iure he cannot. 1691 NORRIS *Pract. Disc.* 29 It will appear, that *de facto* it is so. 1696 *Growth Deism* 12 The Shioleth of the Church now is King William's *de facto* Title. 1765 BLACKSTONE *Comm.* 1. 371 That temporary allegiance, which was due to him as king *de facto*. 1870 [see *de jure*, below]. 1891 *Law Rep.* Weekly Notes 70/1 The acts of the *de facto* directors might... bind the company.

Hence †*de facto*-man (also *defacto sb.*), one who recognised William III as king *de facto*. †*de factoship*, a *de facto* standing, position, or title.

1696 *Growth Deism* 15 For these *de facto*-men, and the Jacobites, were but lately the same sort of People. *Ibid.* 13 And when the King had better Titles... yet he must be made to pay... Dr. S... Sixteen Hundred Pounds a Year, for a *Defactoship* only. 1710 *Managers' Pro & Con* 39 The one allows the *Defactoship* of the Queen.

4. **de fide**, of faith, to be held as an article of faith.

1638 CHILLINGW. *Relig. Prot.* 1. iii. §5 Some [hold] that the Popes indirect Power over Princes in Temporalities is *de Fide*; Others the contrary. 1865 PUSEY *Eirenicon* 115 The poorer classes are not, for the most part, even acquainted with the distinction between what is to be believed to be *de fide* and what is popularly taught them as truth. 1951 *Essays in Criticism* 1. 4 Modern critics... treat this as self-evident or *de fide*.

5. **de jure**, of right, by right, according to law. Nearly always opposed to *de facto*; like that also (though less usually), treated as an *adj.* = 'legal', and placed before the sb.

1611 *Court & Times Jas. I* (1848) I. 136 (Stanf.) Done *de facto*, and not *de jure*. 1638 [see *de facto* above]. 1694 *Poet Buffoon'd*, etc. 7 (Stanf.) Husband or Gallant, either way, *De facto* or *De jure* sway. 1837 Ht. MARTINEAU *Soc. Amer.* II. 81 States that are *de facto* independent, without having anything to do with the question of *jure*. 1870 LOWELL *Study Wind.* (1886) 74 It is a *de jure*, and not a *de facto* property that we have in it.

6. **de novo**, anew, afresh, over again from the beginning. Rarely as *adj.* = 'new, fresh', and prefixed to sb.

1627 *Court & Times Chas. I* (1848) I. 304 (Stanf.) It is said they have opened *de novo* Calais to our English trade. 1817 PEEL in *Edin. Rev.* XXIX. 121 We cannot make a constitution *de novo*. 1847-9 TODD *Cycl. Anat.* IV. 143/2 A *de novo* development of such texture. 1881 *Med. Temp. Jnl.* XLIX. 18 In which it is developed by circumstances *de novo*.

7. **de profundis**, the first words of the Latin version of Psalm cxxx (cxxix) = 'Out of the depths (have I cried)'; hence subst. a. the name of this psalm; b. a psalm of penitence; c. a cry from the depths of sorrow, misery, or degradation.

1463 *Bury Wills* (Camden) 18 Saying *De profundis* for me, for my fader and my moder. 1500-20 KENNEDIE *Flying w. Dunbar* 447 With *De profundis* fend the, and that failye. 1589 NASHE *Prof. Greene's Menaphon* (Arb.) 17 Let subjects for all their insolence, dedicate a *De profundis* euerie morning to the preservation of their Cæsar. 1890 *Open Court* 10 Apr.

2204 2 (Stanf.) The Labor cry, the new *De Profundis*, the passionate psalm of the workers appealing out of the depths of misery and degradation for more wages and less hours of daily toil.

II. The French preposition *de*, *d'* (də, anglicized di:, di, də), meaning 'of, from', occurring in names of places, as *Ashby de la Zouch*, in territorial titles, as *Earl Grey de Wilton*, *Lord Talbot de Malahide*, and in personal surnames, as *De Lisle*, *D'Israeli*, *De Quincey*; also, in French phrases more or less in English use, as *coup d'état*, *coup de main*, etc. (see *COUP*); *de haut en bas*, from height to lowness, condescendingly as from a lofty position, with an air of affected superiority; *de nouveau*, anew, afresh; *de rigueur*, of strictness, (a matter) strictly or rigorously obligatory, according to strict etiquette; *de trop*, too much, (one) too many, in the way.

1697 VANBRUGH *Relapse* i. ii, Not if you treat him *de haut en bas*, as you use to do. 1752 CHESTERF. *Lett.* (1792) III. 274, I know no company in which you are likely to be *de trop*. 1775 GIBBON in *Life & Lett.* (1869) 237 (Stanf.) EDWARDS *Girton Girl* I. ii. 39 Noble French family who... dropped the 'de' from before their name, and settled here [sc. in Guernsey]. 1887 *Illustr. Lond. News* 5 Mar. 269/3, I am decidedly *de trop* this morning. 1888 C. M. YONGE *Our New Mistress* v. 43 The names with a *De* before them are always the grandest. 1915 MRS. H. WARD *Eltham House* vii. 119 Ask an officer to do without his uniforms. My frocks are just as much *de rigueur*. 1944 A. L. ROWSE *English Spirit* 134 It seems to have been *de rigueur* to say that the Queen looked twenty. 1965 R. FERGUSON *Woman with Secret* vi. 42 Her father thought he wasn't good enough for somebody with the 'de' in her name. 1966 *Listener* 17 Nov. 747/2 Hopkins has a distinct tendency to talk *de haut en bas* to his captive audience.

de-, prefix. The Latin adverb and preposition, used in combination with verbs, and their derivatives. A large number of verbs so formed lived on in French as popular words, or were taken over into the language in earlier or later times as learned words, and thence came into English, as *décresc-ère*, *décres-tre*, *decrease*; *défend-ère*, *défend-re*, *defend*; *désider-ère*, *désire-r*, *desire*. In later times English verbs, with their derivative adjectives and substantives, as also participial adjectives and substantives without any verbs, have been adapted directly from Latin, or formed from Latin elements, without the intervention of French. The following are the chief uses in Lat. and Eng.

1. As an etymological element. In the senses: 1. Down, down from, down to: as *dependere* to hang down, *DEPEND* (DEPENDENT, -ENCE, etc.); *dēponere* to lay down, *DEPONE*, *DEPOSE*; *dēprimere* to press down, *DEPRESS*; *dēscendere* to climb down, *DESCEND*; *dēvorare* to gulp down, *DEVOUR*. So of English formation, *DEBREAK*.

2. Off, away, aside: as *declinare* to turn aside, *DECLINE*; *dēducere* to lead away, *DEDUCE*; *dēfendere* to ward off, *DEFEND*; *dēportare* to carry off, *DEPORT*; *dēsīgnare* to mark off, *DESIGNATE*; *dēsistere* to stand off, *DESIST*.

b. Away from oneself: as *dēlegare* to make over, *DELEGATE*; *dēprecari* to pray away, *DEPRECATE*.

3. Down to the bottom, completely; hence thoroughly on and on, away; also methodically, formally: as *dēclāmāre* to shout away, *DECLAIM*; *dēclārare* to make quite clear, *DECLARE*; *dēnūdare* to strip quite bare, *DENUDE*; *dēplōrare* to weep as lost, *DEPLORE*; *dērelīnquere* to abandon completely, *DERELICT*; *dēspoliare* to spoil utterly, *DESPOIL*.

b. To exhaustion, to the dregs: as *dēcoquere* to boil down or away, *DECOCT*; *dēliquescere* to melt away, *DELIQUESC*.

4. In a bad sense, so as to put down or subject to some indignity: as *dēcipere* to take in, *DECEIVE*; *dēludere* to make game of, *DELUDE*; *dēridere* to laugh to scorn, *DERIDE*; *dētestāri* to abominate, *DETEST*.

5. In late L., *dēcompositus* was used by the grammarians in the sense 'formed or derived from a compound (word)', passing later into that of 'compounded over again, doubly or further compounded'; in this sense the word has in modern times been taken into chemistry, botany, etc. (see *DECOMPOSE*, *DECOMPOUND*), and the prefix has been similarly used in other words, as *DECOMPLEX*, *DEMIXTURE*.

6. In Latin, *dē-* had also the function of undoing or reversing the action of a verb, e.g. *armāre* to arm, *dearmāre* to disarm, *decorāre* to grace, *dēdecorāre* to disgrace, *jungere* to join, *dējungere* to unyoke, *vēlare* to veil, *dēvēlare* to unveil, and of forming verbs of similar type from substantives, as *deartuare* to dismember, from *artus* member, joint, *dēcollare* to behead, from *collum* neck, *dēcorticāre* to deprive of bark, from *corticem* bark, *dēflōrare* to rob of its flowers, from *flōrem* flower. A like notion was usually expressed in classical Latin by the prefix *dis-*; e.g. *cingere* to gird, *discingere* to ungird, *convenire* to agree, *disconvenire* to disagree, *jungere* to join, *disjungere* to disjoin, *diffidulare* to unclasp, *dilōricare* to uncorset, *discaleatus* unshod. In late L., *dis-*, Romanic *des-*, became the favoured form; and although some L. words in *dē-* lived on, or were by scholars adopted into the Romanic langs., all new compounds were formed with *des-*, and many even of the Latin words in *dē-* were refashioned in Romanic with *des-*: thus L. *dearmāre*, *dēcarnāre*, *dēcolorāre*, *dēcorticāre*, *dēdignāri*, *dēformāre*, **dēcapitāre*, Romanic *desarmare*, *descarnare*, *descorticare*, *desdegnare*, *de-* and *des-formare*, *de-*, *des-capitare*, OF. *desarmer*, *descharner*, *descorchier*, *desdāigner*, *de-* and *desformer*, *de-*, *descapiter*. In later F. *des-* became, first in speech, and finally in writing, *dé-*, in which form it was identical with the *dé-* of learned words from L. *dē-*. In English, early words taken from OF. with *des-* retained this form (now altered back under Latin influence to *dis-*), as in *disarm*, *disband*, *disburse*, *discolour*, *disdain*, *disfrack*, *disjoin*, *disrobe*; but later words have *de-*, which, although coming from F. *dé-*: — OF. *des-*: — L. *dis-*, is usually viewed and treated as identical with Latin *dé-*, e.g. *debauch*, *debord*, *defy*, *defile*, *depeople*, *derange*, *develop*. In some words both forms have passed into English, as *disburse*, †*deburse*, *discard*, †*dēcard*, *disconcert*, †*dēconcert*, †*disfrack*, *defrock*. In French the prefix *dé-*, *dé-*, has received an ever increasing extension as a privative, freely prefixed to verbs, as in *débarasser*, *débrutaliser*, *décentraliser*, *déconstiper*, etc., or used to form verbs of the same type from nouns, as *débanquer*, *débonder*, *déchaperonner*, *défroquer*, etc. From the free adoption of these into English, *de-* has here also become a living privative element, freely prefixed to verbs (esp. in *-ize*, *-ate*, *-fy*), and forming verbs of a similar type from substantives or adjectives. Hence:

II. As a living prefix, with privative force.

1. Forming compound verbs (with their derivative sbs., *adjs.*, etc.), having the sense of undoing the action of the simple verb, or of depriving (anything) of the thing or character therein expressed, e.g. *de-acidify* to undo or reverse the acidifying process, to take away the acid character, deprive (a thing) of its acid; hence *de-acidified*, *-fying*, *-fication*; *de-anglicize* to undo the anglicizing of, to divest of its English character, render no longer English. Some of these are formed by prefixing *de-* to the original verb, but others are more logically analysed as formed with *de-* + sb. or *adj.* + verbal suffix, the resulting form being the same in either case. In others, again, no corresponding simple verb is in use: e.g. *decephalize*, *decerebrize*, *decolourize*, *defibrinate*. The older and more important of these words are given in their places as main words: e.g. *dechristianize*, *decompose*, *demagnetize*, *demoralize*, etc. Of others of less importance, of recent use, and of obvious meaning, examples, nearly all of the 19th c. (but *decanonize* 1624, *decarnalize* 1645), here follow.

(The hyphen is conveniently used when the *de-* comes before a vowel, and sometimes elsewhere to emphasize the occasional nature of the combination, or draw special attention to its composition; otherwise it is not required.)

de-acidify (-fied, -fication), *de-alcoholize* (-ed, -ization, -ist), *de-alkalize* (-ed), *de-americanize*, *de-anathematize*, *de-appetize* (-ing), *de-ar-senicize* (-ing), *de-aspirate* (-ing, -ation, -ator), *de-bitumenize* (-ation), *de-brutalize*, *de-bunniionize*, *de-cæsarize*, *de-calvinize*, *de-canonize* (-ation), *de-camphorize*, *de-cardinalize*, *de-cathedralize*, *de-celticize*, *de-chemicalize* (-ation), *de-choral-ize*, *de-ciceronize*, *de-citizenize*, *de-classicize*, *de-clericalize* (-ation), *de-climatize*, *de-con-catenate*, *de-concentrate* (-ation), *de-con-vention-*

dead, sb.² Also 3-6 ded, dede, 4- deid. The northern form of DEATH sb., formerly in regular use with Northern writers (*dede*), and still dialectal in Scotch (*deid*, pronounced [di:d]), esp. in certain locations, e.g. *tired to dead* (*deid*), *to be the dead* (*deid*) of, *dead-bell*, *dead-candle*, *dead-rattle*, *dead-spoke*, *dead-thraw*, etc. For examples of the simple word, see the β forms under the various senses of DEATH sb.; for the combinations see under the standard English forms DEATH-BELL, DEATH-THROE, etc. In some instances it is difficult to decide whether *dead-* in combination is the sb. = death, or the ordinary adj. And it is evident that later writers have often used phrases and combinations containing the sb., with the notion that it was the adj. Thus *dead-bell* could easily be understood as the bell of the dead, or rung for the dead, *dead-sweat* as the sweat characteristic of the dead.

1. A slice sawn from a log of timber (now always of fir or pine), and usually understood to be more than seven inches wide, and not more than three thick; a plank or board of pine or fir-wood.

In the timber trade, in Great Britain, a *deal* is understood to be 9 inches wide, not more than 3 inches thick, and at least 6 feet long. If shorter, it is a *deal-end*; if not more than 7 inches wide, it is a BATTEN. In N. America, the standard deal (to which other sizes are reduced in computation) is 12 feet long, 11 inches wide, and 2½ inches thick. By carpenters, deal of half this thickness (1½ inches) is called *whole deal*; of half the latter (¾ inch) *stilt deal*.

The word was introduced with the importation of sawn boards from some Low German district, and, as these consisted usually of fir or pine, the word was from the first associated with these kinds of wood.

dean¹ (di:n). Forms: 4-5 dene, deen(e, den, 5 deyn(e) (dyen), 6 *Sc. dane*, 5-7 deane, 7- dean. [ME. *deen*, *dēn*, a. OF. *deien*, *dien*. mod. F. *doyen* = Sp. and It. *decano*, Pg. *deão*, Cat. *degà*:—L. *decān-um* one set over ten (cf. Exod. xviii. 21 Vulg.), also Gr. *δεκάνας*, explained from *δέκα*, *dec-em* ten.

Whether viewed as Gr. or L., the form of the word offers difficulties. In both languages, it had also an early astrological sense, 'the chief of ten parts, or of ten degrees, of a zodiacal sign': see DECAN. Salmassius, *De annis climactericis et antiqua Astrologia* (Leyden, 1648), considers this the original sense, and holds it to be a term of oriental astrology, which was merely assimilated to *δέκα*, *decem*, in Gr. and L. As a military term, the Gr. derivative *δεκάνα* occurs = L. *decuria*, in the *Tactica* of Ælian and of Arrian (both c. 120); the L. *decanus* occurs in Vegetius *De Re Militari* c. 386. The word is then used by Jerome c. 400 in his translation of Exodus xviii. 21, 25, where the Old Latin had *decurio*; and about the same time the monastic use (sense 3 below) appears in *Cod. Theodos.* xvi. 5. 30, and Cassian's *Instit.* iv. 10. In later times of the empire it was applied to various civil functionaries. From these monastic and civil uses come all the modern senses of *dean*.]

And in the larger houses, where the numbers amounted to several decuries, the senior dean had a special preeminence, and had sometimes the care of all the other devolved upon him alone. And therefore the institution of cathedral deans was certainly owing to this practice. 1885 *Catholic Dict.* s.v. The senior dean, in the absence of the abbot and provost, governed the monastery.

4. The head of the chapter or body of canons of a collegiate or cathedral church.

Arising out of the monastic use. 5. A presbyter invested with jurisdiction or precedence (under the bishop or archdeacon) over a division of an archdeaconry; more fully called *rural dean*; formerly (in some cases) *dean of Christianity*; see CHRISTIANITY 4. (There were also *urban deans* (*decani urbani*): see Kennett *Par. Antiq.* II. 339.)

The rural dean had, in England till the Reformation, and in France till the Revolution, large powers of visitation, administration, and jurisdiction, which are still retained in some Roman Catholic countries. In England the office and title became almost obsolete from the 16th c., but have, since 1835, been generally revived for purposes of diocesan organization. See DANSEY, *Horæ Decanice Rurales*, 1835.

(Kennett, Du Cange, etc., have cited *decanus episcopi* in this sense from the 'Laws of Edward the Confessor' xxvii; but *episcopi* is an interpolation not in the original text, the *decanus* spoken of being really in sense 2 above.)

b. In the American Episcopal Church, the president of a CONVOCATION (q.v., 3 b).

6. In other ecclesiastical uses.

Dean of Peculiars: one invested with the charge of a peculiar, i.e. a particular church, parish, or group of parishes which is exempt from the jurisdiction of the bishop of the diocese within which it is situated, e.g. the Dean of Battle in Sussex. Such is also the *Dean of the Chapels Royal* in England (St. James's and Whitehall); in Scotland the *Deans of the Chapel Royal* are six clergymen of the Ch. of Scotl., who receive a portion of the revenues formerly belonging to the Chapel Royal of Holyrood.

Dean of the Arches: the lay judge of the Court of Arches, who has peculiar jurisdiction over thirteen London parishes called a deanery, and exempt from the authority of the bishop of London.

Dean of the Province of Canterbury: the Bishop of London, who, under a mandate from the archbishop, summons the bishops of the province to meet in Convocation.

Deans of peculiars have sometimes jurisdiction and cure of souls, as the Dean of Battle, in Sussex, and sometimes jurisdiction only, as the Dean of the Arches, London. 1893 *Whitaker's Almanack*, Dean of the Chapels Royal, The Bishop of London.

7. In the colleges of Oxford and Cambridge: The title of one or more resident fellows appointed to supervise the conduct and studies of the junior members and to maintain discipline among them, to present them for graduation, etc.

The office came originally from that of the monastic dean, and was disciplinary; one important function of the dean in early times was to preside at the disputations of the scholars, and in the Oxford colleges of the new foundation deans were appointed in the different faculties, e.g. at New College, two in Arts, one in Canon Law, one in Civil Law, and one in Theology, who presided at the disputations of the students in these faculties; from the end of the 16th c., it became customary also in most colleges for the dean to present for degrees. At present the functions pertaining to discipline, attendance at chapel, graduation, etc., are sometimes discharged by a single dean, alone or in conjunction with a sub-warden, vice-president, or other vice-geregent, sometimes distributed among two or three deans; hence the offices of *senior* and *junior dean*, or *sub-dean*, *dean of arts*, *dean of divinity*, *dean of degrees*, existing in some colleges.

[In the Statutes of Merton Coll., 1267-74, such officers are appointed 'numero culibet vicinario vel etiam decenario,' but the title *decanus* is not used. 1382 *Stat. New Coll. Oxon.* xiv. B. as *sb.* = Dear one, darling. This comes from A. 2 d, through intermediate uses like 'I met my dear' 'he found his dear', in which the adj., although capable of being compared ('his dearest'), can also be treated as a *sb.* with plural *dears*.

C. Used interjectionally. *Dear!*, *Oh dear!*, *Dear, dear!*, *Dear me!*: exclamations expressing surprise, astonishment, anxiety, distress, regret, sympathy, or other emotion. *dear bless, help, love, save us (you)*: ejaculations of astonishment, usually implying an appeal for higher help (*obs.* or *dial.*). *dear knows!* goodness knows, Heaven knows (*I do not*).

These uses with a verb suggest that *dear* represents or implies a fuller *dear Lord!* Thus *dear knows!* is exactly equivalent to the *Lord or God knows!*; cf. also the elliptical *Save us! Help us! Keep us!* and the like; but the historical evidence is not conclusive. (A derivation from *It. dio*, God, as conjectured by some, resting upon mod. Eng. pronunciation of *dear*, finds no support in the history of the word.)

†*dear, dere, a.*² *poetic. Obs.* or *arch.* Forms: 1 *dior, déor, 3-5 dere, 6-7 deere, deare, 7- dear* [OE. *déor*; not known in the cognate langs., and of uncertain etymology.

By some held to be intimately related to OE. *déor* animal (see DEER). By others thought to contain the same radical form as DEAR *a.*¹, and to differ only in the stem-suffix (**deur-*o-). In OE., from the levelling of *a*-stems and *jo*-stems, *déor* was formally distinguishable from *déore* only in the nom. sing. (of all genders), the acc. sing. neuter, and nom. acc. pl. neuter, which had *déor*, as against *déore, déoru* (-o). Hence, when the final -e was lost or mute in ME., the two words became entirely identical in form. But in OE., their senses appear to have been quite distinct; and, in later times, the sense of *dere, dear*, from *déor* was highly incongruous with those developed from *déore* (though intermediate or connecting links of meaning also arose). This difference of sense is a serious objection to the view that the two words are merely different formations from the same base, as in the pairs *strong strenge, weorð wærdæ*, etc., where the two forms agree in sense. The ultimate etymology has been discussed by Karsten, *Mod. Lang. Notes*, 1892, 345.

Common in OE. poetry, but found in no prose writing. In ME. poetry, not known in southern writers, but in the East-Midland *Genesis & Exodus*, the West Midland *Allit. Poems*, *Gauvain & Green Knight*, *Piers Plowman*, and the metrical *Destruction of Troy* (all these except the first being alliterative); it then appears in Spenser (by whom it was perhaps revived), occurs frequently in Shakespeare, in 17th c. poets, and archaically in Shelley. By these later writers it was probably conceived of only as a peculiar poetical sense of DEAR *a.*¹, and there are uses in Shakespeare evidently associated with both sense-groups.)

b. *Black Death*, the name now commonly given to the Great Pestilence or visitation of the Oriental Plague, which devastated most countries of Europe near the middle of the 14th c., and caused great mortality in England in 1348-9; sometimes also including the recurrences of the epidemic in 1360 and 1379.

The name 'black death' is modern, and was introduced into English history by Mrs. Penrose (Mrs. Markham) in 1823, and into medical literature by Babington's transl. of Hecker's *Der schwarze Tod* in 1833. In earlier writers we find the *pestilence*, the *plague*, *great pestilence*, *great death*, or in distinction from later visitations the *furste moreyn*, the *first pestilence*; Latin chroniclers have *pestis*, *pestilentia*, *epidemia*, *mortalitas*. The distinctive *magna mortalitas*, 'great mortality' or 'death', and its equivalents, prevailed in many languages: Ger. *das grosse sterben*, *LG.* *de grote død*, *Flem.* *de groete doot*, *Da.* *den store død* or *manddöth*, *Swed.* (1402) *store döden*, later *stördöden*,

digerdöden (thick or frequent mortality), *Norweg.* (14th c.) *manddöth hinn mikli*, cf. *It. mortalega grande*, *F. la grande peste*, etc. The epithet 'black' is of uncertain origin, and not known to be contemporary anywhere. It is first found in Swedish and Danish 16th c. chroniclers (*swarta döden*, *den sorte död*). Hence, in German, Schöler in 1773 used *der schwarze Tod* in reference to Iceland, and Sprengel in 1794 took it as a general appellation. From modern German the name has passed into Dutch (*de zwarte dood*) and English, and has influenced French (*la peste noire*). The quotes. 1758 and 1780 below are translations from Danish and Swedish through German, and refer not to the pestilence of 1348, which did not reach Iceland, but to a later visitation in 1402-3, known at the time as *plagan mikli* (the great plague), but called by modern Icelandic historians, from 17th c., *swarti döði* (black death).

debauch (di'bɔ:tʃ), *v.* Forms: 6- debauch; 6-7 (9 Sc.) debosh, 7 debaush, debauch, debosche, 7-8 debosh, 9 Sc. debush. [a. (c 1600) F. *débauch-er*, in OF. *debaucher* (13-14th c.) to entice away from the service of one's master, seduce from duty, etc. Of obscure derivation. The original pronunciation after modern F., and its gradual change, are seen in the spellings *debosh*, *debaush*, *deboach*, *debauch* riming in 1682 with *approach*: see the *sb.* See also DEBOISE.

F. *débaucher* is, according to Littré and Hatzfeld, derived from a *sb. bauche*, of which the precise sense and origin are according to the latter unknown; according to the former it = 'a place of work, workshop', so that *débaucher* would mean orig. 'to draw away from the workshop, from one's work or duty': so Dicz. Cotgr. has *bauche*, 'course of stones

or bricks in building', *baucher* 'to chip, hew, or square timber, etc.; also to ranke, order, array, lay evenly'; hence *débaucher* might primarily mean 'to disorder, bring into disarray or disorder'. The sense 'draw away from service or duty' appears however to be the earliest in French, though that of 'corrupt', had also been developed before the word was taken into English.]

debenture (di'bentʃə(r)). Also 5-7 debentur, 6-7 debenter. [In early use *debentur*, stated by BLOUNT in 17th c. to be the L. word *debentur* 'there are due or owing', supposed to have been the initial word of formal certificates of indebtedness. This is, from the early use of the term, probable; though no actual examples of documents containing the Latin formula have been found.]

1. A certificate or voucher certifying that a sum of money is owing to the person designated in it; a certificate of indebtedness.

a. A voucher given in the Royal household, the Exchequer or other Government office, certifying to the recipient the sum due to him for goods supplied, services rendered, salary, etc., and serving as his authority in claiming payment. A principal application of the word during the 17th and 18th centuries was to the vouchers given by the Ordnance Office in payment of stores.

† b. *spec.* A voucher certifying to a soldier or sailor the audited amount of his arrears for pay; see quot. 1674. *Obs.*

This was a regular feature of 17th c. army organization; such certificates, issued 'upon the public faith of the kingdom', were given to the Parliamentary Army during the Civil War, app. from November 1641 onwards, and similar bonds were also given in subsequent reigns; in some cases these certificates were secured upon and redeemed in forfeited land, esp. in Ireland.

† 2. A certificate of a loan made to the government for public purposes, a government bond bearing annual interest. *Obs.*

The first quot. connects this with sense 1; it refers to government debentures given to the inhabitants of Nevis and St. Christopher's to recoup them for losses sustained from the invasions of the French.

3. A bond issued by a corporation or company (under seal), in which acknowledgement is made that the corporation or company is

indebted to a particular person or to the holder in a specified sum of money on which interest is to be paid until repayment of the principal.

Not occurring in the Companies Clauses Consolidation Act of 1845, but used shortly after in connexion with the loans raised by Railway Companies and the like, the name being evidently taken from sense 2. The term is in general use, especially for those bonds by which public companies raise money at a fixed rate of interest, with a prior charge on the assets of the company or corporation issuing them.

mortgage debenture: a debenture the principal of which is secured by the pledging of the whole or a part of the property of the issuing company.

Div.* 215 The term *debenture* has not, so far as I am aware, ever received any precise legal definition. *Ibid.* 215 In my opinion a debenture means a document which either creates a debt or acknowledges it, and any document which fulfils either of these conditions is a 'debenture'. It is not either in law or commerce a strictly technical term, or what is called a term 'of art'.

CONCEIT.)]

In ME. and early mod.Eng. with many varieties of spelling, partly inherited from Fr., partly due to Eng. change of OF. *ei* to *ai*, *ay*, and consequent interchange of *c* and *s*, whence arose such forms as *desait*, *Sc. desate*. In OF. the spelling was sometimes assimilated to Latin *decepto*, as *decepte*, whence in Eng. *decepte*. But in both langs. the *p* was mute; the oldest Gower MSS. have *decepte*, *deceite*, but the word rimes with *streite* (*strait*); the ordinary 16th c. pronunciation rimed it with -ait, as in *Wither a 1667 bait: deiceit*; cf. the common 16th c. spellings in -sait, -sate, -ceat. The narrowing of *ē* to *i* came later. In OF. the prefix *de-* was sometimes changed to *des-* (see DE- I. 6), which became very common in ME., and was here, moreover, in the general alteration of the French form *des-* back to the Latin *dis-*, subjected to the same change, so as to give, in 15-16th c., such odd spellings as *dis-ceat*, *dis-sait*, *dis-sate* (all meaning [dɪˈsi:t]): cf. DECEIVE.]

deck (dek), *sb.*¹ Also 5 *dekke*, 6-7 *decke*. [In sense 1, app. of Flemish or LG. origin.]

In sense 1, prob. a MDu. *dec* (neuter) roof, covering, cloak, pretext (app. from *decke*—OTeut. *pahjom*, from same root as DECK 1-3): cf. Kilian 'decke operimentum, lodix = *decksel* operimentum, operitorium, tegumen, tegumentum, tegmen, stragulum'; also mod. Du. *dek* bed-covering, horse-cloth. But in the nautical sense, 2, the word is not known in Du. before 1675-81, when *dek* (neuter) appears as a synonym of *verdek*, quoted in the nautical sense in 1640, but recorded by Kilian, 1599, only in the general sense 'tegumen, velamen'. Thus, *deck* in the nautical sense, appears to be known in Eng. 160 years earlier than in Dutch. It may be simply a specific application of the general sense 'covering', or it may come more immediately from the MDu. sense 'roof'.

I. † 1. A covering. *Obs.*

In quot. 1466 app. some material used for covering; with 1712 cf. Du. *dek* 'horse-cloth'.

Gaz.* No. 4997/4 A red Saddle with 2 Ovals in the Skirt, and the under Decks edg'd with blue.

2. *a. Naut.* A platform extending from side to side of a ship or part of a ship, covering in the space below, and also itself serving as a floor; formed of planks, or (in iron ships) of iron plating usually covered with planks.

The primary notion was 'covering' or 'roof' rather than 'floor': see quots. 1550 and 1624, and cf. 1466 in sense 1, where the 'dekke for the spynas' or pinnace, may have been a covering of canvas, tarpaulin, or the like. In early craft there was a deck only at the stern, so that 16th c. writers sometimes use *deck* as equivalent to *poop*. In Elyot (1538), whence in Cooper, Huloet, and Baret, *deck* is erroneously made the equivalent of *prora*, instead of *puppis*.

decoy (dɪˈkɔɪ, dɪˈkɔɪ), sb.² Also 7 decoye, dequoy, de quoy, duckquoy, 7-8 duckoy, duck-coy, duccoy. [*Decoy*, in all its senses (exc. 4a) and combinations, was preceded by a simple form *coy* sb.¹ (known in 1621), a. Du. *kooi* of the same meaning. Thus senses 1 and 3 are identical with 1 and 3 of *coy*; sense 2 is a fig. use of 1; 4 b. and 5 are closely related to 3. The combinations *decoy-bird*, -dog, -duck, -man, etc., were preceded generally by the forms *coy-bird*, -dog, -duck, -man, etc. It is thus evident that *de-coy* is a derivative, compound, or extension, of *coy* sb.; but the origin of the *de-* is undetermined.

It has been variously conjectured to be the prefix *de-*, the Dutch article in *de kooi* 'the coy' or 'decoy', the second half of Du. *eende in eende-kooi* 'duck-coy', and an obscuration of *duck* itself in *duck-coy*, which is indeed found in the 17th c., and (what is notable) not merely as the sb., but as the vb. (see below). Yet we do not find it as the earlier form, which suggests that it is really a later spelling of popular etymology. The likelihood that *decoy* is the Du. *de kooi* has been forcibly urged by C. Stoffel in *Englische Studien* X. (1887) 180. But direct evidence is wanting. And, since *decoy* sb.¹ appears to be an entirely distinct word, being much older in the language than either this word or *coy* itself, and was probably still in use when *coy* was introduced from Dutch, it is possible that the latter was made into *de-coy* under the influence of that earlier word. It is to be noted also that the sense 'sharper', 4a below, actually appears earlier than any other, literal or figurative, and may possibly not be a sense of this word at all, but an independent and earlier cant or slang term; if so, it may also have influenced the change of *coy* to *decoy*.]

1. A pond or pool out of which run narrow arms or 'pipes' covered with network or other contrivances into which wild ducks or other fowl may be allured and there caught.

4. Applied to a person:

† a. A swindler, sharper; an impostor or 'shark' who lives by his wits at the expense of his dupes. *Obs.*

(It is, from the early date and sense, very doubtful if this belongs to this word. In the 'character' by Brathwait (quot. 1631), there is no reference explicit or implicit to the action of a decoy-duck. It rather looks as if this were a slang term already in use when *coys* and *coy-ducks* were introduced into England, and as if *coy-duck* were changed into *decoy-duck* with allusion to this.)

4. *Law.* A judicial decision. In various specific uses: a. *Rom. Law.* A decision given by the emperor on a question brought before him judicially.

1776-81 GIBBON *Decl. & F.* xlv. The rescripts of the emperor, his grants and decrees, his edicts and pragmatic sanctions, were subscribed in purple ink. 1880 MUIRHEAD *Gaus.* I. § 5 An imperial constitution is what the emperor has established by decree, edict, or letter. It has never been disputed that such a constitution has the full force of a *lex*.

b. *Eng. Law.* The judgement of a court of equity, or of the Court of Admiralty, Probate, and Divorce. But since the Judicature Act of 1873 5, the term 'judgement' is applied to the decisions of courts having both common law and equity powers.

Decree is still used in Admiralty cases. In Divorce cases, a decree is an order of the Court declaring the nullity of dissolution of marriage, or the judicial separation of the parties. *decree nisi*: the order made by the court for divorce, which remains conditional for at least six months, after which, unless cause to the contrary is shown, it is made absolute. In Ecclesiastical cases, *decree* is a special form of citation of the party to the suit.

1622 CALLIS *Stat. Severs* (1647) 231 A Decree is... only a Sentence of Judgement in a Court of Justice, delivered or declared by the Judges there. 1735 *Col. Rec. Pennsylv.* IV. 39 But two Causes, and both by Consent, have been brought to a Decree. 1768 BLACKSTONE *Comm.* III. 451 When all are heard, the court pronounces the decree, adjusting every point in debate according to equity and good conscience. 1848 WHARTON *Lat. 'Judgment' shall include Decree. 1873 PHILLIMORE *Eccles. c. *Sc. Law.* The final judgement or sentence of a civil court, whereby the question at issue between the parties is decided; strictly, a judgement which can be put in force by containing the executive words 'and decerns': cf. DECERNITURE.

Decrees are said to be *condemnatory* or *absolutor* according as the decision is in favour of the pursuer or the defender. A decree in *absence* is a decree pronounced against a defender who has not appeared and pleaded on the merits of the cause = 'Judgement by Default' in English Common Law. *decree of registration* is a decree *fictione juris* of a court, interposed without the actual intervention of a judge, in virtue of the party's consent to a decree going out against him. *decree arbitral*: an award by one or more arbiters: see ARBITRAL. *decree dative*: see DATIVE. *decree of locality, modification, and valuation of teinds*. various decisions of the Teind Court. (Bell, *Dict. Law Scot.* 1861.) Cf. earlier DECREET I b. 1754 ERSKINE *Princ. Sc. Law* (1809) 484 Before homing could pass on the decree of an inferior judge, the decree was, by our former practice, to have been judicially produced before the Session, and their authority interposed to it by a new decree. 1861 W. BELL *Dict. Law Scot.* s.v., The decree issued by the Court of Session in aid of the inferior court decree, was called a *decree conform*. 1877 MACKAY *Practice Crim. Session* I. 581 The term *decree* is now sometimes used interchangeably with *interlocutor*, though it might be convenient to apply the former to a final determination by which the whole or a substantive part of the cause is decided, and the latter to an order pronounced in its course.

GRÜNHEIT *Penal Reform* xvii. 451 Decriminalization has a twofold meaning. First, it implies that although the new sanction can be legally applied only if a criminal offence has been committed, the treatment is selected and administered not in relation to the gravity of the offence, but to the prospects and needs of the individual... Decriminalization means, secondly, the substitution for punishment of another type of sanction, either reformatory or protective. 1968 N. Y. *Times* 23 Aug. 67/3 Dr. Fort... called present drug laws 'extreme, barbaric and inefficient', and said that 'immediate de-criminalization of the whole thing' was needed. 1973 *Daily Tel.* 21 June 18 From time to time it is held against stores and firms that they adopt their own policy of 'decriminalisation' and do not take action against offenders where sums below a certain amount are involved. 1975 *High Times* Dec. 113/2 The National Organization for the Reform of Marijuana Laws (NORML) is laying plans for an autumn attack on the recently passed California decriminalization legislation. 1984 *Listener* 3 May 3/1 The emerging policy theory was... summed up as the three Ds: decriminalisation, diversion (from court) and de-institutionalisation.
