

Mysteries of the Seven Rays Revealed!

A Pirated Knowledge Lecture from the Secret Chiefs™

Over the last several centuries, there have been any number of veiled comments in occult books about the Seven Rays and their mysteries. Earnest seekers have sought out Those Who Know, Those Who Pretend To Know and Those Who Haven't Got A Clue in order to learn more about the Rays, but until now everyone has been fobbed off with various blinds (not to mention other kinds of window dressing) and denied access to the true secrets.

Well, here they are. Feast your eyes.

The true names and correspondences of the Seven Rays are as follows:

The Sting Ray

Symbol: tailfins

Colors: screaming red metal-flake glitter and polished chrome
