### Le symbolisme de la Deuxième Lame du Tarot

La Deuxième Lame du Tarot représente le Temple de l'Initiation, —qui est identique au Microcosme, «le petit Univers»— c'est pourquoi elle est souvent considérée comme caractérisant le Temple de Salomon. Celui-ci s'érige sur quatre colonnes, symbolisant respectivement les quatre Éléments ainsi que la Connaissance, la Vaillance, la Volonté, le Silence, en d'autres termes le YOD-HÉ-VAU-HÉ de la Kabbale.

Chaque colonne repose sur un piédestal circulaire de pierre taillée et représente la maîtrise parfaite sur l'Élément correspondant que le Mage a acquise après avoir reçu l'Initiation dans ce Temple.

Le marbre blanc et noir du sol, taillé en carrés égaux, représente l'action positive et négative des Éléments sur notre monde physique. Dans sa signification la plus élevée, il symbolise la Légimité — détenue par la Sphère de Jupiter— reflétée sur le plan physique et que le Mage doit bien connaître avant d'être initié.

Devant l'Autel, le sol est recouvert d'un tapis formé de deux morceaux; ceux-ci représentent respectivement l'action positive et négative de toutes les forces de notre Système Planétaire, agissant sur le plan physique. Le Mage doit également bien maîtriser ces énergies qui sont, en fait, les Fluides Électrique et Magnétique.

Sur le tapis, on peut voir le Cercle magique représentant l'Infini, l'Alpha et l'Oméga (cf. à la description de cette figure au premier

chapitre de ce livre). Le Pentagramme qui s'inscrit dans le Cercle symbolise le Microcosme, le «petit Univers», la structure personnelle du Mage; celle-ci doit être très bien développée pour être en parfaite Harmonie avec le Macrocosme, généralement représenté par l'Hexagramme.

Le Mage, revêtu d'une Tunique de couleur violette, tient à sa main gauche son Épée magique, symbole de la victoire et du lien qui l'unit au Seigneur Tout-Puissant, —à son Intuition— contacté via le Principe Akâshique; il brandit à la main droite, comme cela se fait lors de Conjurations, sa Baguette magique qui représente sa volonté absolue, la totalité de son pouvoir.

Sur un trône d'or, situé à la droite du Mage, est assise la Grande Prêtresse; Elle représente Isis, tenant dans Sa main gauche le Livre de la Sagesse et, à Sa main droite, les Deux Clés de l'Initiation, Clés qui symbolisent la maîtrise sur les Deux Polarités Universelles, Positive et Négative. Elle a initié le Mage, qui s'est préparé pour effectuer une Évocation, aux Mystères les plus profonds de la Magie des Sphères. Dans certains jeux de Tarot, cette Lame est appelée «la Papesse», dans d'autres, «l'Impératrice». Cependant, s'agissant d'une Lame qui représente le Pouvoir et la Sagesse, il n'est nul besoin de préciser que c'est la polarité féminine qui est impliquée.

Devant le Cercle, trois marches conduisent à l'Autel. Elles symbolisent la Maîtrise des trois plans: physique, astral et mental. L'Autel lui-même représente la Dévotion et le Triangle, placé en son centre, montre que l'Action tridimensionnelle de l'Émanation Divine est effective sur toute chose, tant dans Son Aspect Positif que Négatif.

Les deux brûle-parfums signifient que le Mage, en pleine Évocation, a sous son contrôle toutes les entités positives et bonnes ainsi que tous les êtres négatifs ou mauvais et qu'il est capable de les matérialiser. Le miroir sphérique, posé sur l'Autel, avec ses sept cercles colorés concentriques, montre que le Mage n'est pas seulement en contact —par voyage mental ou clairvoyance— avec tous les êtres peuplant les sept Mondes planétaires, mais qu'il peut les appeler dans notre monde physique au moyen d'une Évocation.

Sur le mur, en arrière-fond, et selon le symbolisme que l'Anceenne Égypte a attribué à la Deuxième Lame du Tarot, se trouvent deux images, l'une d'Isis et l'autre de Nephtys.

### Le Chemin de la Véritable Initiation Magique

Plus qu'un livre, c'est là toute une somme sans précédent qui constitue le fondement de toute démarche sérieuse vers la Magie, c'est à dire la Doctrine Hermétique, tant dans ses aspects théoriques que pratiques.

Franz Bardon expose ce que sont le Macrocosme et le Microcosme, l'Univers et l'Homme, le vrai sens de la Magie, les Éléments et leurs pouvoirs, les plans de l'Être, les contacts avec la Divinité en soi et hors de soi, la respiration magique, la Magie de l'Eau, les condensateurs fluidiques, la maîtrise des fluides électrique et magnétique, les miroirs magiques, le voyage astral et mental, etc.

Ce chef-d'œuvre, écrit par un authentique Adepté, permet à l'Homme de s'harmoniser avec les Lois de l'Univers, de se connaître lui-même et d'atteindre ainsi les sommets de l'Esprit...

Format 13x20,5 cm — 456 pages ♦ Traduction Alexandre Moryason

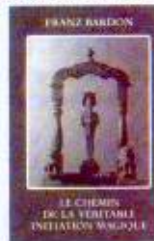

### La Clé de la Véritable Kabbale

La puissance des « Sons Universels », « le Verbe Créateur » par lequel tout vint à l'existence... Telle est la Clé de la Véritable Kabbale

Franz Bardon expose les Lois de l'Analogie Universelle, le Langage Cosmique, le Mot Magico-Kabbalistique, le Secret de la formation des Mantras et des Tantras ainsi que des Formules Magiques, la Force inhérente à chaque Son Universel permettant d'élaborer des Incantations entières et complètes, à caractère kabbalistique afin d'acquérir la maîtrise sur le Plan physique ou matériel, sur le Plan astral ou psychique et sur le Plan mental. Une véritable Révélation qui va au-delà des Secrets contenus dans les Tantras, si jalousement gardés dans le lointain Orient.

Cette connaissance unique, révélée par un authentique Adepté, n'a pas son égal dans la littérature Ésotérique tant orientale qu'occidentale.

Format 13x20,5 cm — 254 pages ♦ Traduction Alexandre Moryason

### Frabato, le Magicien

Le récit voilé et pudique d'une partie de la vie même de Franz Bardon. Ce livre révèle, entre autre, ce que sont, au XX<sup>ème</sup> siècle, les loges de magie noire, comment elles attaquent les vrais adeptes, comment elles ont programmé depuis la nuit des temps la destruction de l'Humanité et occasionné les souffrances de celle-ci. Comment enfin, leur pouvoir est illusoire devant la Lumière de la Véritable Science Magique qui est essentiellement Divine !... Ce livre est poignant ; la discrétion et la simplicité de l'auteur sont un gage de ce qu'est un Maître. À lire et à méditer absolument.

Format 20,5x14 — 158 pages ♦ Traduction Alexandre Moryason
