Herbal Analysis

Selecting the right Oil or Incense

How to organize your formulas

Base Colors

LUCK IN GAMBLING

ALGIERS: Used for Luck and Power. This formula is made up of the following: *Vanilla, Patchouli, and Cinnamon*. When mixing with crushed bamba wood, use a purple base for the incense as this will enhance the vibration. The oil is used in the bath water and is used to anoint one's palms prior to card games or other forms of gambling that you use your hands with. The incense is a good general luck blend which may be used over the long term to enhance luck potential.

(O, I, P, B, FW)

CHYPRE: A ***SUPER LUCK*** oil that brings financial gain in many forms. It is made up of the following ingredients: *Vanilla, Bay, and Galangal (Low John)*. The Vanilla is for luck and money while the Bay is used for protection and power. This keeps negative energies away from your luck. The Galangal (Low John) gives it extra power!!! As you can see, this is a very powerful oil and is used to anoint your palms. As an incense for luck rituals, you couldn't ask for a more powerful blend.

(O, I, P, B, FW)

HAITIAN GAMBLER: Used as a general gambling recipe and for breaking losing streaks with. Good to use on talismans that you carry with when gambling. This is a way all luck and success recipes can be used. When playing dice games, put some on your palms and try to get some of the fragrance on the dice. It is made up of the following: *Patchouli, Lemon, and Jasmine.*

(O, I, P, B, FW)

HERB OIL: Used to enhance gambling luck, along with helping to enhance your memory. This of course would help you in card games. It is made up of the following: *Basil, Oregano, Sage, Thyme, and Lemon.* Use like Algiers and Chypre, but is best used as a bath.

(O, I, P, B, FW)

JASMINE BUSH POWDER: Used basically as a powder, but it can also be used as an Oil or Incense to attract luck in gambling or investments. Generally used with green and purple candles (as all luck oils and Incenses are) and is general in nature. It is made up of the

following: *Patchouli, Vetivert, Lemon, and Jasmine*. By using Vetivert your insured with protection for you and force for the ritual. Because of the ingredients the formula is also good for luck in love matters. It also works well in a bath. A "*LUCK BATH*" is always a good idea prior to any kind of gambling.

(O, I, P, B, FW)

LADY LUCK: We have already discussed this formula in lesson one. When using with a bamba wood base, employ white instead of green since it is felt that this causes the recipe to function on a higher spiritual plane to induce luck. You should also add a shredded dollar bill to add more power to the mixture. It is made up of: *Rose, Cinnamon, and Patchouli*.

(O, I, P, B, FW)

LUCKY DOG: A strange blend used for gambling success. It is made up of the following ingredients: *Vanilla, Cinnamon, Strawberry, and Watermelon*. A very odd mixture, that does not seem to make sense but, it does work well for a lot people. Try it!

(O, I, P, B, FW)

LUCKY-7 ROOT: A very famous and power recipe for gamblers. It is made up of the following: *Nutmeg, Vetivert, tonka, Patchouli, Adam & Eve Root, Galangal (Low John), and Jalap (High John)*. A very protective combination that is highly recommended for luck in desperate situations. This is a very potent counter-hexing oil and is used when a gambler thinks that a jinx has been set upon his luck.

(O, I, P)

THREE JACKS: Used in gambling luck and success rituals. Only used for card and dice games, and is used both to anoint hands and candles. It is made up of the following ingredients: *Galangal (Low John), Vetavert, Patchouli, and Powdered Cardamon*.

(O, I, P)

WINNER'S CIRCLE: Used to help the gambler in Lotteries and Horse racing. It is made up of the following: *Galangal (low John), Jalap (high John), Lovage, and Vetivert*.

(O, I, P, B, FW)

Ten Silvers is a *SPECIAL* luck-crossing powder which is used by sprinkling the powder on the hair of the afflicted person. All the recipes can be used to stuff dolls with and

the oils are excellent to use on talismans or charm bags that you carry with you. It is always a good idea to burn **LUCK** incense weekly to keep that positive energy around you.

GENERAL PROTECTION

I will handle these like the Luck recipes and give you a list of them. As with luck recipes, it is a good idea to burn the incense weekly to keep protection energies around you. Why wait for something to happen to you.

ARABIAN BOUQUET

Sandalwood, Musk, Myrrh and Allspice.

DEVIL'S SNUFF

Cinnamon, Red Sandalwood, Chili Powder and Bayberry.

On the surface, Devil's Snuff looks like a hexing powder, which it is to some extent, but there are positive uses for this formula too. It will temporarily blind opponents who may be encumbering you on your path to success. It is very effective keeping others from screwing with your personal business. Use by sprinkling some on your personal papers, in your bedroom, on a diary etc., to keep others' prying eyes from intruding on your privacy.

FIERY WALL OF PROTECTION

Dragon's Blood, Frankincense, Myrrh and salt.

FOUR THIEVES' VINEGAR

Jalap (High John), Vetivert, Adam & Eve Root, Galangal (Low John) or Black Pepper and Red Wine.

Four Thieves' Vinegar comes from the great sorceress Marie Laveau, and is considered to be one of the most protective potions available. This formula was used in the Middle Ages to protect against the plague! Today we use it mostly to protect property. Sprinkle it around your property and wash down your front and back doors and windowsills. Not only will it protect you, but it will wash away any hex that has been placed on you. Fiery Wall of Protection is another *VERY* effective and popular protection powder. It is also excellent as an Oil, Incense and Floor wash.

HAITI JUNGLE POWDER

Cinnamon, Jalap (High John) and White Sandalwood.

HOLY HERBS

Camomile, Thyme, Tarragon, Cinnamon, Parsley and Cardamom.

HOUSE BLESSING

Cucumber, Lavender, Basil and Hyssop.

HOUSE DRESSING

Van Van, Lavender and Hyssop.

Notice that to make House Blessing you need to first make some Van Van oil. While I did not discuss Van Van earlier when I gave the recipe, you should study the formula with particular care because Van Van is the most important of the "**BLESSING**" or "**BLESSED**" oils and incenses in all of the candle burning practices. Van Van is a general All-Purpose oil for any sort of white magickal working whether it be for love, success, healing or protection.

JYOTI

Galangal (Low John), Nasturtium Seeds (powdered), Patchouli.

LOST AND AWAY

Dirt from a crossroad, Mistletoe, Brimstone (Sulfur), Orris, Sage.

Jyoti is very useful for anyone going into business, but is having a few problems because of bad luck or suspected hexes placed upon the

business by jealous competitors. Sprinkle the powder around the premises and burn some during business hours. You will also need to use it as a floor wash on your business daily, at opening and closing times. You can also use the powder in your cash register, in the drawer where you keep financial records, in your mail box to encourage smooth flow of payments etc. The oil is excellent for dressing success candles. The candles should be green or gold. I have already covered Lost and Away. It works like Get Away Powder.

NINE MYSTERIES

Orange, Violet and Wintergreen

OBEAH

Myrrh, Patchouli, Galangal, Jasmine and Lemon.

Obeah is a very protective oil, but it can be a very destructive one too, it all depends on how you use it. The formula is used to drive away

any sort of hex, bad vibes, etc, from the area of the user. The incense is used in uncrossing rituals because of it's power to reverse hexes and return them to the maker. The powder is *ONLY* used on the altar and in the ritual chamber. *NEVER* sprinkle it outside a sacred area. The oil is a commanding recipe with a great deal of protective powers!!

Nine Mysteries is great for overcoming any sort of problem by sprinkling it in the corners of each room once a month as an "*insurance*" against any sort of intrusion of bad vibes into your space. One of the best *ALL-PURPOSE* protection formulas is *PEACE AND PROTECTION*. It is made up of the following ingredients: *Lavender, Thyme, Vervain, Basil, Frankincense, Rue, Benzoin, Jasmine, and Bergamot*. This is an excellent and complex mixture of great power. Highly balanced for just about any protection situation you will come a cross. Everyone should have a bottle of this oil in their stock.

PENTATRUCK: A general Protection formula. It is made up of the following ingredients: *Myrrh, Bay, Clove, and Cinnamon*.

(O, I, P, B, FW)

QUIETING POWDER: Used to quiet down noisy or troublesome spirits. It is generally used where there are Poltergeist activities taking place, or where Spirits are getting a little too playful. Many Sorcerers use this powder in their success rituals to control the Spirits that these rituals bring. Because Success Spirits deal with the material planes, they can be greedy or grabby, in the sense that they tend to pick up or reflect the bad habits of their human masters. If the Spirits come on too forcefully, and seem to be encouraging you to do more than you probably should, sprinkle some of the powder around your house, or use some powder on your altar in a success ritual to control this problem before it starts. The Powder is composed of the following ingredients: *Chalk Dust, Salt, Sugar, Lavender, and Balm of Gilead.*

(P)

SHOE STRING ROOT POWDER: This is a very powerful and dangerous formula, that ***MUST ONLY BE USED BY A SKILLED PRACTITIONER!!!*** It is used for gambling luck and to protect against

death! Without a controlling herb, this formula becomes dangerous and tricky. Basically this powder is less about luck than it is about intensifying power around the individual. Both Vetivert and Patchouli are particularly noted for their abilities to accept an "Impress" of the will that is, they pick up the desires or "Vibes" of the user and convey them magickally to where they will do the most good. The problem with these two herbs is that, they are totally "Conscienceless" herbs. They are *PURE POWER* Herbs. It takes a strongly willed and a clear goal to handle the power here. These two herbs love to turn on the practitioners. The powder is made of only Vetivert and Patchouli.

(P)

SEVEN AFRICAN POWERS: A general *ALL PURPOSE* incense or oil, used to call the Seven major African Gods. The mixture is strictly white magickal in orientation and is very powerful and lucky to use. The oil is used on white candles and may be used in the same way as *VAN VAN* oil. This is also excellent to use as a bath formula for Protection and Uncrossing. The formula contains success, cleansing and protective

herbs. Many Sorcerers use this oil in all kinds of rituals, because of its all-purpose abilities. By using this in any of its' forms, you are also thanking the Spiritual realms who grant you favors. It is composed of the following ingredients: *Rose, Orris, Frankincense, Vetivert, Bay, Lavender, and Lemon.*

(O, I, P, B, FW)

SPECIAL PERFUME No. 20: Used to calm and Protect, but also has uncrossing abilities, particularly where one is emotionally upset. This formula is composed of the following: *Gardenia, Jasmine, Orris, and Muguet.*

(O, I, P, B, FW)

SWALLOW BLOOD: This formula bring's happiness and protection to those who must travel. It is also a good formula to soothe and calm the nerves. It is composed of the following ingredients: *Dragon's Blood, Red Sandalwood, Rose Petals, Jasmine and Orris.*

(O, I, P, B, FW)

THIEF POWDER: This powder sprinkled at the scene of a crime, and

will help bring the person to justice. It has mild protective qualities. It also has a strange after effect, if you do "**CLEAR**" the area after the thief is caught. Meaning, it will cause robberies to happen! You must carefully sweep up all the powder when the thief has been exposed and wash down the place it was used at with Uncrossing Floor wash. If you do not, trouble will arise. It is composed of the following items: *Galangal, Polk Root, Hydrangea, and Vetivert.*

(P)

TRINITY: An anointing oil for your white altar candles. Trinity, Van Van, and Dressing oils are all general purpose blends which are used on white candles, but can be used on other colored candles, as long as it is for strictly white magick. Composed of the following ingredients: *Hyssop, Olive, and Verbena.*

(O)

UNTRUTHFUL: Will expose liars, without any negative side effects. Generally used as a powder. It is made of the following ingredients: *Mint, Rose, and Nutmeg.*

(I, O, P)

VOODOO POWDER: Used in hundreds of different rituals as an all purpose Spirit drawing formula. This formula will attract powerful Spirits to help you, opposed to just helpful Spirits. This odd formula is 80% Graveyard dust, that gives it a strange magnetic quality. This powder is best left to the more experienced. This powder will draw **VERY POWERFUL SPIRITS** to your ritual. Beginners will have trouble handling these spirits. In the Voodoo tradition, spirits of the dead are often used to help those still living. This powder is considered one of the most substantial bridges between the spiritual and material realms. This powerful formula is composed of the following ingredients: *Myrrh, Graveyard Dust 80%, Patchouli, Mullen, Vetivert, Pine, Clove, and Lime.*

(P)

WATER OF NOTRE DAME: Used to spray down your altar area before and after any kind of ritual, no matter if it is White or Black in nature. It is composed of the following: *Violet Water, Rose Water, Orange Water, and Holy Water.*

(FW)

YO YO PUCKER POWDER: A restraining powder for men to use against the unwanted advances of a women. Wear the powder on your body and sprinkle some in her shoes, along with using it on your altar. A good ritual to perform in this regards is to: Carve her name on a purple candle, anoint the candle with either Commanding Oil or Love Breaker oil, and then circle the candle with Yo Yo Pucker Powder, and sprinkle some of the powder into the candle flame, from time to time as it burns. This needs to be done for 20 minutes a day until the person leaves you alone. It is composed of the following ingredients: *Red Sandalwood, Orris, Vetavert, and Angelica*. If this doesn't work, then you will need to resort to *GET AWAY* or *LOST And AWAY* powders.

(P)

There are some other **PROTECTION** formulas which are commonly employed known as the "**ASTRAL**" or "**ASTROLOGICAL**" oils and incenses. In candle burning rituals these formulas, which relate to one's

astrological sign, and it is considered to be very Protective and helpful to wear your astrological oil. You can also use the oil to anoint a candle representing you, in any sort of ritual you do. One excellent technique in the use of these oils in love rituals is to: anoint the candle representing the person you want with their correct astrological oil prior to applying a Love oil.

BLACK CANDLE TOBACCO: Used to help in all legal matters. Use the formula by burning it as an incense in the following ritual: Place a black candle in a dish of salt and burn it on the day before you go into court. Make sure you use a white disk. While the candle is burning, light the incense, and meditate for an hour or so about a successful conclusion to the case. Let the entire candle burn down and then take the ashes, salt, and candle stub and place them all in a brown paper bag and discard as proper. When mixing this formula the following proportions should be observed: ***60% Tobacco, 10% Galangal and Jalap, 15% Sage, and 5% Rosemary.***

(I)

JURY WINNING POWDER: Used to get a favorable verdict in court.

Technically you are to sprinkle the powder on the Judges chair, and in the Jury box, prior to the trial. This could be difficult to do, so we recommend that you wear some on the soles of your shoes before entering the court room. This powder is composed of the following ingredients: *Hydrangea, Jalap, Galangal, and Asafetida.*

(P)

Another ritual for luck in legal matters is: Obtaining two sheets of parchment paper, and writing the names of the 12 disciples of Christ, six on each piece. Place the piece which contains Judas' name in your left shoe and the other in your right shoe and wear them into court the day of your trial. Many have used this with great success.

BUSINESS PROTECTION

BOSS FIX POWDER: We have already talked about this. The formula is composed of the following items: *75% Tobacco (finely powdered), Pulverized Newsprint (10 %), 15% Chili Powder, and a couple of drops of Musk oil.* You can also use Jyoti formula that we have already discussed too. Look up the Boss Fix paragraph for details on use.

PROTECTION AGAINST HEXES

CONFUSION: This is used to bring total confusion into the life of anyone who may be thinking about or attempting to cast a hex or other negative ritual against you. This is a powerful and often used formula. It acts very quickly and is used as an Oil, Incense or Powder. Most often as a powder. It is composed of the following ingredients: *Vetavert, Lavender, Galangal, and A Knotted Burnt Shoelace.* You mix all the ingredients together in equal parts, and add the shoelace last. Tie the

lace in several knots, and burn it in an ashtray. When making oil, simply burn a little bit of the lace, and put the ashes and what ever is left of the lace in the bottle. The oil is used to anoint image candles of the person whom you suspect is putting a hex on you, and the powder makes a wonderful protective "**TWISTING**" potion to both remove any hex from you and return it threefold to its maker. The powder may be used offensively if someone is persistently prying into your affairs or causes you chronic problems in any area of your life. The function of the powder is not to hex them, but rather to throw them into a mass state of frenzied confusion and upset every time they try to cause you trouble. This is a powerful formula, that is used only in serious cases.

(O, I, P)

PROTECTION

(with Calming & Quieting effects)

A main part of protection is, to "**QUIET**" your enemy or

troublemaker. By quieting the person involved, you will take their “edge” off, meaning they will not be motivated to attack you further. This is a good way to calm the situation down, along with giving an enemy a false sense of security. While he feels calm, and thinks that he has beaten you, you then attack with maximum power!!! The following recipes are of great help in relaxing anyone, including yourself. They can be used in all forms: (O, I, P, B, FW). The baths are highly recommended for those under stress.

DOVE'S BLOOD

Dragon's Blood, Rose, Bay.

PEACEFUL HOME

Lavender, Lemon, Rose, Lilac.

GOONA GOONA

Nutmeg, Orris, Rose, Patchouli.

JOY

Acacia, Carnation, Cammelia.

PAX/PEACE

Lavender, Lemon, Violet, Orris, Cardamon.

KINDLY SPIRIT

Lily, Hyacinth, Lemon.

The following is an interesting formula. It is specially formulated to be used on a person you have deeply hurt or offended, and wish to keep things right with them. This happens to all us, we say a lot terrible things to people we love. Only latter, to wish we had not said those things. This is the formula to use in this situation. To use this formula, you need to first take a bath with an Uncrossing formula and then sprinkle the powder (unforgiving powder) on your head and body. You then take another Uncrossing bath. By doing this the person involved will forgive you. You can also use his in candle burning rituals by sprinkling some of the powder into the flame of the candle representing the angry person.

UNFORGIVING

Salt, Sugar, Sage, Rosemary.

SPIRITUAL AND PROPHETIC DREAM FORMULAS

There are many formulas that will give you Prophetic dreams. People use these dreams for many things like, choosing Lottery numbers, answering questions about a mate or for answers to money problems. The best way these formulas are used, is by burning the incense mixtures before going to bed. Many Sorcerers use these formulas all the time in the form of stuffing pillows with the correct herbs, and sleeping on it. This is a tried and true way, that has been used for hundreds of years. You can also use the oil form with meditation. Anoint a blue or green candle with the oil and also anoint the center of your forehead and your temples prior to retiring for the night. This adds even greater success to the dream process. For the best information on this subject, we highly recommend you purchasing the book "***PSYCHIC SEXUAL***

COMMAND' from the Society. The book gives you detailed information on how to use your dream state to answer all your questions, and to control others. A fascinating book with never seen before information. Used with the proper incenses, oils and meditation, you have a very powerful magickal ritual.

SPIRITUAL PURIFYING AND CLEANSING

These are excellent Uncrossing formulas, but their main use is to **CLEAN** and **PURIFY** the person and his home. This is a greatly overlooked area of magickal practice. Many Practitioners are too busy doing rituals to include the basics. After you have done magick for a time, all kinds of negative energies etc., will form around you. These energies can cause great problems in your rituals and in your life in general. An experienced Sorcerer **NEVER** forgets to cleanse himself, his family and his home. You do not have to be a Sorcerer to have these negative energies around. All

people do, this is why so many people with problems never get rid of them. They never cleanse their homes and self from the negative energies, they just keep building and building, causing more and more problems in the persons life.

As these problems build, you will need to Uncross the person to get them relief. There are three basic areas you must consider when you are Uncrossing a person:

- 1. You need to identify the hex condition and remove it from the person.*
- 2. You then need to PURIFY & RESTORE the person's general health. This includes body and mind.*
- 3. Putting the person on a new positive course of action.*

The following recipes are used in all forms. They are a must as a spray, to cleanse your home and Altar, and as a bath to cleanse our body with. The recipes given deal mostly with these areas, and with removing the curse.

ANOINTING

Patchouli, Cinnamon, Lemon Verbena.

ARABIAN BOUQUET

REPENTANT

ROSEMARY INCENSE

Rosemary, Orris, Few drops of Basil, Few drops of Frankincense.

VESTA

Rose, Lily, Lavender, Peppermint.

As you can see, a lot of recipes have Christian overtones. This is typical of most Voodoo and folk recipes. The Christian cult has effected most magickal forms in use today. Do not let this put you off, they are from ancient recipes used hundreds of years before that cult was

started. All the recipes are used in the same way but, **REPENTANT**, it is used like **UNFORGIVEN**. A general all purpose drawer of White Magickal Spirits is **VESTA**. It is very well known, and widely used by Sorcerers to bring White Spirits to your altar etc., it is considered the best of the "SPIRIT PULLERS".

SPIRITUAL/PSYCHIC **DEVELOPMENT & MEDITATION**

To help develop your Psychic powers the following formulas are excellent to use in meditation. They can be used in all their forms but, you need to anoint your Psychic Centers with the oil too. The way to use them is, first burn the Incense, and then anoint your forehead center (Your so-called Third Eye), and your temples. After doing this you can work on practicing your psychic powers, or meditation. Many have reported great success with these formulas.

CONCENTRATION

Mastic, Cinnamon, Myrrh.

TIGER

Wintergreen, Gardenia, Rose, Peppermint, Cinnamon, Bay.

ZORBA

Gum Mastic, Frankincense, Cinnamon, Lavender, Bay.

The strongest of the formulas is **TIGER**. It gets to the deepest level of your primal consciousness and raises your psychic and clairvoyant abilities. The other famous Psychic recipe is **FIVE CIRCLES**. Some have said they see the future with this formula, either burn the incense for

Astral travel, Meditation, and for Spiritualistic/Mediumistic sessions, like channeling. It can be made in all forms, but the incense in general is the way it is most used. It does take some work to make this formula. It is made the following way:

- 1. Use a white plate and some brown bamba wood base.**
- 2. Make a circle on the plate with Naroli Orange Oil, and rub the circle with the bamba wood base, to absorb all the oil. Then put the bamba wood base in a white bowl, clean off the plate, and...**
- 3. Make a circle with Sweet Basil oil, and proceed as directed above. When, finished, place the bamba wood base in the white bowl and clean it off the plate.**
- 4. Make a circle with Lemon Verbena oil and repeat the above steps.**
- 5. Make a circle with Myrtle oil and repeat above.**
- 6. Make a circle with Narcissus oil, and repeat above procedures but, this time instead of cleaning off the plate, you break it up and dispose of it as usual.**
- 7. Place the Five Circles incense in a natural fiber bag for proper storage and keep it in a cool, dark and dry place.**

MAKE ABSOLUTELY SURE, THAT ONLY YOU TOUCH IT FROM THIS POINT ON. IF OTHERS TOUCH IT, IT IS RUINED!!!

EXORCISM AND BANISHING

This area is **VERY IMPORTANT**. No matter how careful you are, evil energies will bother you from time to time. Some people seem to pull in these types of entities easier than most. Others are attacked because they are gaining power, and the evil plane entities want to stop them. If you do a general cleansing for yourself and your home, you should not have any serious trouble, but if you get sloppy, and do not do the a regular cleansing, you will run into trouble sooner or later. The Earth plane in general, is ruled by evil entities. The forces of **RIGHT**, have great trouble manifesting on this plane. The reason for this is, that mankind is basically a **VERY NEGATIVE** force. By being negative, mankind **FEEDS** these entities and gives them strength, while the feeding of positive entities is few and far between. To prove this correct, just look at the

world: certainly it is not run by loving, caring forces. Those that are evil, grow wealthy with power and finance, while “good” is always struggling. This is the way of this plane. I could go on for hundreds of pages on this but, but I will won’t.

The following formulas can be used in all their forms (*O, I, P, B, FW*). The following recipes work mainly by Cleansing and Uncrossing.

BANISHING

Bay, Cinnamon, Red Wine, Rose, Myrrh, and Salt.

SATAN BE GONE

Salt, Hyssop, Bay, and Vervain.

You can also use Lost and Away, and Get Away formulas in banishing rituals. You must try several formulas before you can say what works best for you. The two noted recipes, have already been given to you.

SPIRIT ATTRACTION & SPIRIT PULLER FORMULAS

I have already given you several of these, look in past lessons and this one. Here is another excellent general formula, ***DRAWING***. It is composed of the following ingredients: ***Jasmine, Violet, and Lavender***. This is a general formula that ***MUST BE*** defined by the candles you use, or incense used. This is a great oil to use to anoint Talismans of any meaning, as long as they are Positive in nature. This would only be used in an oil form.

UNHEXING & UNCROSSING

We will go into more detail on this latter but, here are a few good recipes you could use for this. They can used in any form.

BLACK CAT

Three Black Cat hairs, Steel Wool, Iron Powder, Sage, Myrrh, and Bay.

CAT'S BLOOD

Cat's Blood (Optional-If used, use your own pet, and DO NOT HARM THE ANIMAL) Orris, Frankincense, Tonka, and Ginger.

ENDING OIL

Made like Evil Eye, except draw three crosses with red food coloring on a white plate and wash of with Van Van into a container. Break the plate and throw away as usual.

FLYING DEVIL

Black Pepper, Dragon's Blood Reed (Crushed), Cassia, and Patchouli.

JINX-REMOVING (INSIDE)

Mint, and Wintergreen.

JINX-REMOVING (OUTSIDE)

Camomile.

JINX-REMOVING INCENSE

Rose Geranium, Clove, and Deerstongue.

JOCKEY CLUB

Carnation, Clove, Bay, Cinnamon, a Piece of tanned leather.

JUJU

Myrrh, Mimosa, Jasmine, and Patchouli.

JUA JUA

Gardenia, Rose, and Mimosa.

LOBBAN

Frankincense, Bergamot, Lemon, and Lilac.

MANDRAKE

Galangal, Hyssop, Dill, and Licorice.

MINT BOUQUET

Pennyroyal, Mint, and Lemon.

NO HEX

Patchouli, Hyssop, Lavender, and Salt.

OBITSU

Jasmine, Violet, and Citronella.

ROOT POWDER

Jalap (High John), Galangal (Low John), Adam and Eve root.

SEVEN DAY UNCROSSING

Sweet Basil, Bay, Clove, Lemon Verbena, Hyssop, and Pine Needle.

UNCROSSING

Lavender, Bay, rose, and Lemon Verbena.

ZONKA

Patchouli, Lavender, Lemon, Lemon Verbena, Salt, and Peppermint.

An excellent way to uncross yourself is through the use of a ritual bath. If you have a serious problem, you **MUST** take ritual baths. The following is an excellent ritual bath formula:

SEVEN DAY UNCROSSING BATH FORMULA

***Hyssop, Lavender, Sage, Lemon, Bluing,
Baking Soda, and Castile Soap base.***

Add these ingredients to a bottle of Castile Soap, and use it daily for seven days. It is a good idea to use this formula for a few days each

month. Even if you do not have any problems, as it keeps your aura clean.

HERBAL ANALYSIS FORMULAS

I have broken down recipes into their various component parts. By going through the list, you can figure out the recipes we have given you in the course. This is done for training purposes. By studying the list, you must figure out the correct items to make the formulas needed. By doing this, your understanding will grow greatly.

Now, there's a nice long list for you to study. This is an excellent way to see just how the herbs is used in the many formulas I have given you. You can also track down any formulas, I have not given you in the text. This is good training, as stated before.

You now have *OVER 200* recipes for whatever you will ever need, in your entire *LIFE!!!* This course is basically the only course you will ever need!!! Of course, you are free to add other information anytime you wish, but this course should fill every need you ever have!!! You are *VERY LUCKY* to have found this high quality course. You were not guided to this course for nothing, you were chosen by the powers to be, to follow

a path of positive magick. A path to help and heal, not only yourself but, your family and finally the entire world. To be in balance in this world, you must not only take, you ***MUST ALSO GIVE BACK!!!*** That is your responsibility and duty, for being led to this course. If you do not give back, you will be led into egoism and evil. The choice is yours.....

SELECTING THE CORRECT OIL/INCENSE

Being that there are so many formulas to choose from, your greatest task is to choose the correct formula for the situation at hand. If you use the wrong formula, you will not get results, and may even cause greater harm. Generally you only fail. The basic rule for choosing is simple. Do not use 10 different oils, incenses, etc., when one will do the job just as well.

The following are some questions to ask yourself before choosing a formula:

- 1. What is the problem or situation?**
- 2. Is there just one problem or a series of problems? (You will find that generally there are a series of problems. If a person is hexed, they will soon have trouble in all parts of their life.)**
- 3. What exact herbs are good to heal this situation?**
- 4. Is there any ONE oil or Incense that will solve the situation?**
- 5. Is the person causing their own problem? (This is very important. Most of the time you will have to work on the person with the problem, and NOT look for outside causes. This is especially true with people that think they are cursed for one reason or another.)**
- 6. Can I handle this situation? (If you are working a ritual for another person, you need to be able to handle the problem. Do not take on more than you can handle. This is very true with UNCROSSING AND UNHEXING. If not done right, it can come back on the person trying to remove the hex. You need to be an advanced Sorcerer to handle those situations. We recommend that you refer them to the Society for help. At the very least, you may**

cause them more harm than good).

If you decide that you will need more than one oil, incense etc., then ask yourself the following questions:

1. Can you clear up the situation in a single ritual or should you do separate rituals for each situation the person has? (Generally you have to do more than one ritual for a person. Even though each ritual will help A BIT with each problem the person has).

2. How often will I have to repeat the ritual? (Generally, it takes many, many rituals to break through a problem. The greater the blockage, the greater the period of time you will have to spend doing rituals). REMEMBER, If it was easy, I would be running the world right now.

3. How will I check for results? If not for yourself, you will need to be able to contact the person on a regular basis.

4. How much will I charge for this ritual? (If you are doing this for

*a friend, family member etc., you need to be rewarded for your work in some way or another. This does not have to be money. It could be any kind of product or service you would like to exchange your efforts for. **IMPORTANT:***

NOT CHARGING FOR YOUR WORK, PUTS YOUR WORK IN THE AREA OF WORTHLESSNESS. THIS WILL LESSEN YOUR POWER AND OFFEND THE SPIRITS!!! NOTHING IN LIFE IS FREE, WHY SHOULD YOUR VERY IMPORTANT RITUAL BE!!! THIS IS THE LAW OF THE SORCERER, FROM ANCIENT TIMES.

It still holds true for today. Do not let another so-called magician tell you different!!

THE BEST WAY TO ORGANIZE YOUR FORMULAS

Most Sorcerers put the formulas on index cards and file them in a box. This is really the best way to do it. It is a lot easier than looking through this course to find what you need. It is also an important learning

step. By writing things down, you better understand what you are doing.

You are also better able to understand in general, and it is easier to remember each formula. It also allows you to meditate on the formulas a lot easier than looking through this text every time.

MORE GENERAL INFORMATION

You now have an excellent idea of the basics of candle burning and what herbs, formulas etc., to use. You are probably getting a little overwhelmed by it all right about now. This is just part of the learning process. Things will start to clear up once you start **DOING RITUALS**. This is the only true way to learn, **BY DOING**. It is a good idea to go over and over these first five lessons, as you will need to know the information in these lessons to start practical work.

You also need to start purchasing the herbs, oils, incenses, powders, baths, floor washes, sprays etc., you will need for your first ritual. Think about your greatest need, and start obtaining the items you

will need for this area of your life first of all. As soon as you are able to, it would be a good idea to start stocking up on a wide variety of oils, incenses, powders, etc., as you never know what you will need. It is always good to have what you need on hand. This stops you from trying to use the wrong formulas. **REMEMBER**, this is an investment in your life!!! While the products are not cheap, they are very inexpensive for the possible results you can get from them. One bottle of Money Drawing oil, could bring you thousands of dollars. What is the perfect mate worth to you? Can you put a price on that? I could go on and on. The Society is the only place you can buy quality oils, incenses, powders, etc. made to the formulas in this course. All other producers not only make terrible quality products, but they are not made to the recipes in this course. Plain and simple, that means you are ***“SHOOTING WITH BLANKS”***. Why bother doing a ritual at all. If you expect to have quality results, you will need to use and invest in quality products. If you use a ***“PINTO”*** oil, do not expect to get a ***“PORSCHÉ”*** results.

You should now start on your index file, if you have not already

started it. Some like to skip the cards and use their computer. This is fine too. We will be going into more and more detail on the actual rituals in the up-coming lessons. While candle magick is relatively simple, in reality there are hundreds of potential variables and variations involved in rituals. This is the major reason that rituals fail. If you use the wrong formula, or take short cuts, you will probably fail. This is especially true of the beginning student. As you practice over the months, you can start to try new things, but in the beginning, and until you fully understand what you are doing, stay with the course. Do not change a single detail. We have proven, that the formulas, and procedures work in this course. Do not think you know better, you do not. The two factors involved in construction of a successful ritual is, intellectual and intuitive. The intellectual relates to the selection of your materials; while the intuitive relates to the ways in which you may combine them. The last technique takes a lots of practice to use correctly. You must know what you are doing first.

The other factor is the interaction between the operator and the

ingredients they are using. This means, the things you do with the items you have. Do you sprinkle a powder around a candle or just in the flame? You also need to mentally connect with the items you are using. If you get bad or confused feelings from a formula, even though it is the best to use per this course, do not use it. Feelings are important, but as stated before, you first must know what you are doing.

There is are many ways to add power to your rituals. This is generally advanced work. One of the ways is through sexual practices. Some Sorcerers find that being *CELIBATE BEFORE DOING RITUALS*, while others increase their sexual practices, practice Tantra (A sexual Yoga), or even have intercourse during a ritual and use either the orgasm, or the sexual fluids in the ritual. This holds true in many sexual or love rituals, in regards to the fluids used. Orgasms can be used for any ritual of your choosing. The key to using orgasms is to think of the goal you need at the exact time of orgasm. This will send that strong energy to your goal. Besides being a very strong added power to your ritual, it is also a fun way to add that extra power. The society offers several fine

books on this subject: **SEXUAL SORCERY** and **PSYCHIC SEXUAL**
COMMAND. I highly recommend for you to purchase these texts. They will greatly help you in adding power to your rituals. Of course, sex is not a must in any ritual.

Power can be added in many ways by the addition of other forms of magick. This could be Talismans, Runes, God forms, occult symbols of any kind, and special sigils, to name only a few of the ways. This as stated those, is advanced work. To try this now will **TOTALLY CONFUSE YOU!!! WAIT UNTIL YOU KNOW THIS COURSE INSIDE AND OUT!!!** The only thing I do recommend trying now is a little sex magick with your ritual. The problem with sexual energy, is that only a Master can channel the majority of the energy produced. Most people can only tap into a **VERY** small amount of the available energy produced by sexual practices.

I also need to state that, you must **NEVER HAVE SEX WITH JUST ANYONE!!!** It should only be with a committed mate, for several reasons. Not only the normal disease problems we are saddled with today, but for

the many occult reasons. You must keep your **AURA** clean and free from other energies. By having sex with a person, you combine your body energies or aura. If the person you are having sex with is negative, ill, has mental problems, etc., you will **POLLUTE** your energy and aura. This will cause failure in all your magickal practices. This person could even be hexed or possessed !! These negative, and possibly harmful energies will enter the deepest part of your being. A true Master Sorcerer, is **VERY, VERY** careful of who they have sexual relationships with. As a Master, every act you do becomes a magickal act. This is a whole subject in itself. There are many books on this subject, if you are interested in going into more details on how to use this energy.

I will make one last comment on sexual fluids. The Sperm and Vaginal fluids are excellent to use in lust rituals to rub on candles. The combined fluids are excellent in general for adding extra power, along with having special healing energies in them. For more information on this, get the books offered by the Society on this subject, or any book on Tantra. Tantra, is a type of Sexual Yoga, that has been practiced for

hundreds of years. It is a fine art now. If you are interested in this, there are a lot of books on this available in any occult shop, or through the Societies member book list.

We will now proceed to Base Color information for the formulas on the following pages. While this course is designed to answer all your questions, feel free to contact the Society with any further questions you may have. If you do write us, please enclose a SASE for a reply. We are here to help you in any way we can.

This gives you a lot of information to go by. It is best to purchase
your needed supplies to start. If in the future you want to make your own,
this chart will be helpful. It also gives you greater insight into each

formula. It allows your mind to contact the formulas on a different Level. The level of color vibration. Color vibrations are very powerful. They greatly help you correct with the item on a deeper level, than just meditating on the herb etc. It goes even deeper even that, into your unconscious mind. This is another area of study you may want to get involved with in the future.
