This list gives you a general idea of what is used for what. While this is not a complete list, it is a list of the most used and effective potions for the practitioner. These are the “Tried and True” recipes that have been used for hundreds of years.

As we have discussed, oils may be used in many different ways such as in incenses, on candles, as a part of powders or charm bags, to anoint various parts of one’s body, etc.. Because many of the potions we will discussing may be used in various forms, we have a letter code following each entry which should simplify your study:

The letter “ O “ is for oil.

The letter “ I “ is for incense.

The letter “ P “ is for powder.

The letters “ FW “ are for floorwash.

The letter “ B “ is for bath salts.

Any item marked " O " can be used as a spray. However, you never want to use a hexing oil as a spray. You **NEVER** want to spray hexing oils around your own home! You want to spray these at an enemies home but, be careful not to get it all over you. As I have done this myself.

You do need to handle hexing incenses and powders with care. **NEVER** leave them where strangers or others will touch them. Always keep them in a safe place. Store them in plastic jars or bags. This will keep their potencies locked in.

As with the herbs, many recipes can be used for several things. Where they have more than one area of use, it is indicated within the text for each formula.

ANGER

(to create or disperse)

ANGER POWDER: Anger Powder is a "**TWISTING**" powder in that it can create or disperse its effects. The powder is composed of: **Chili**

Powder, Black Pepper, Sulfur, and Asafetida. It is generally used to dispel anger, but if you are mad with someone about something, sprinkle a little of this powder around the room to take away those feelings. The powder acts as a “carrier” that will absorb your angry feelings and take them away from you. However, it is just as good for black magickal purposes since it is made from baneful herbs. With you sprinkle it around your room, ***MAKE SURE*** you clean it up afterwards. You do not want the negative energies to stay around. Better still do the ritual outside. When used for black magick the powder is sprinkled in the home of people you wish to start arguing. Often it is used to break up lovers or to squelch business deals.

(P)

EASY (EASE) WRATH POWDER: This is used strictly to end arguments. This blend is mixed to help calm down a bad situation. The mixture is: ***Ashes, Red Pepper, Rose, Jasmine, and Sandalwood.*** The Red Pepper symbolizes the anger, the ashes symbolize the end of that anger or the “burning out” of the upset. The Rose, Jasmine, and Sandalwood

promote luck, love, and tranquility. In general, this is used only as a powder, but it can be used as an incense too.

(P, I)

UNFORGIVING POWDER: It is used when you quarreled with a close friend or are having difficulties in a relationship due to the “unforgiving” nature of the person. The powder is made of: *Salt, Sugar, Sage, and Rosemary*. By sprinkling this powder, the person should forget the argument! There are many powders and recipes in general. As they all work a little different, you need to give great thought to which recipe you will use. This is what separates the *MASTER* from the student. Using this powder is a way of showing the spirit planes that you are most anxious to bring and end to this problem. To use it, sprinkle a little of it onto an image candle of the person with whom you are quarreling or sprinkle it around their house.

(P)

WAR POWDER: this does have a white magick effect like Anger Powder by dispelling your own wrath. The difference between Anger

Powder and War Powder is the degree rather than the function. This powder is composed of: *Chili Powder, Mustard Powder, Iron Fillings, Patchouli, and Musk root.* Anger Powder is used in normal arguments while War Powder is used when your “enemy” is attacking you. Ideally you would use this outside since it is not a good idea to sprinkle this in your home. When used in ritual, War Powder is sprinkled into the flame of a candle of the person who is on your case or you may circle the person’s candle with the powder to **ENCLOSE their negativity and cause it to **BOUNCE** back on them and not hit you.**

(P)

COMMANDING/COMPELLING

(General)

AS YOU PLEASE: A mild commanding formula that works very well.

It is subtle, but very powerful for forcing people. It contains: *Orange Blossom, Mint, and Musk.* The formula gets its power from the Musk, but

tempers it with the loving and spiritual vibrations of Mint and Orange blossoms. It is best used by actually sprinkling a little on the person or object that you desire. It is most effective in inter-personal relationships and while it may be used in love rituals, it is mostly used to get people to do your will without them realizing it!! When used as an oil, it is normally applied to red, pink, green, and sometimes purple candles.

(O, I, P, B, FW)

BEND-OVER: This is a famous and *VERY* effective commanding and compelling fragrance that will cause others to do your bidding or be anxious to please you. It is best used for financial and business situations. It contains: *Rose, Frankincense, Vetivert, and Honeysuckle*. Vetivert is used because it is the most potent of the “forcing” herbs. The other ingredients modify the power of the Vetivert to give it specific focus. This is an excellent recipe because almost all of the ingredients are white magickal in nature. Making it a very stable mixture to use. Bend-Over is also used in Uncrossing rituals since it is deemed to be highly protective due to the Rose and Frankincense. Of all the

Commanding recipes this will probably bring you and everyone else involved in your ritual the best results. Generally you use the oil on Purple candles and it is great to put into your bath. When using for the purpose of a business meeting you wish to influence, anoint the back of your hands with this oil. As you shake hands with your associates, some of the oil becomes transferred to them and thus the effects start to take place.

(O, I, P, B, FW)

BOSS FIX POWDER: This is used for the boss that is always bothering you. Boss Fix will make your boss get off your back and begin to appreciate your work. It is composed of: *Musk, Chili Powder, Tobacco, and Pulverized Newsprint*. It is used by sprinkling some of it around your boss' office and also around your own desk, making sure that you sprinkle it where it won't be detected or removed by the building cleansing staff. A good place to sprinkle it is in desk drawers, filing cabinets, in corner, in closets, etc. All places where it will not be cleaned up. Due to the highly protective nature of this potion, it is recommended

that you use it in your home since it causes others to react with consideration and kindness towards you. You should sprinkle it in your doorways and on your doorstep to guard against negative people. It is also excellent for women who are being annoyed on the job by sexual advances of a boss or supervisor. There are also are other powders for this purpose too, that work quite well. Use Boss Fix only on *UNMARRIED* bosses. If the passes still keep coming, you will need to employ a hex-reversing commanding preparation such as Inflammatory Confusion.

(P)

COMMANDING: I have already given you the formula for this but, as stated this is good for a general-purpose recipe to have others do as you wish. This is a very powerful recipe that is very effective and you must not abuse its' power. Use only when you have too. One positive use of this oil is to anoint a purple candle with it to compel a person to bring back something they took from you. It is also excellent for removing hexed or crossed conditions since commanding formulas tend to exorcize and banish negative spirits. It is generally used when you want

something done, and you want it done now. This recipe makes things happen fast! We will give you many ways to use commanding oils in the future. **REMEMBER:** To use this type of oil from the "EGO" will lead you down the road to evil energies, that will sooner or later pervert and destroy you. Commanding mixtures can **TWIST** on you. While you may get results, you may paid in another area of your life.

A lot of people are turned off by the controlling aspects of Sorcery. This is generally silly. If you do not control a person, someone else will. That other person will probably be on a **MUCH** lower level than you. Most people are controlled by a number of factors that make them slaves. It is the Sorcerer that seeks to change that, first in their own life, and then in the lives of others. Thus making a much better world!! You could say that curing a person of an illness is dominating them. After all, are you not going against their destiny? The same difference between White and Black Sorcerers are that White Sorcerers seek to help others as well as himself, while Black Sorcerers seek only to destroy and help **ONLY** themselves. Like most things in life, magick can be used for good or bad.

It all depends on the person using it.

(O, I, P, B, FW)

EASY LIFE: This is a mild commanding mixture and works like **As You Please**. It will enable you to relax while others do your bidding. It is composed of: ***Gum Mastic, Cloves, Ginger, Lemon, Orange Peel, and Cassia***. The powder form is sprinkled on the person you wish to influence and will dominate their thoughts. Most of the herbs in this recipe are **Success herbs**, so it is not a powerful commander. It generally works by creating such a positive and dynamic atmosphere around you that others feel good about helping you. This recipe also has a lot of **Money Drawing herbs** in it, so it is good to use in **Money rituals**, and is an excellent bath mixture for bringing success and influences the people around you.

(O, I, P, B, FW)

FIERY COMMAND: This is made with ***Dragon's Blood, Frankincense, and Myrrh***. This is a very effective, powerful and a very balanced recipe, since you cannot use **Dragon's Blood** for baneful purposes. This is generally used for **uncrossing rituals** and it does work very well for this.

The one problem with this recipe is that it is **TOTALLY** non-specific in nature and you must be careful to symbolize (through other oils and candle colors) precisely what it is that you want.

(O, I, P, B, FW)

GET AWAY POWDER: To make this you mix *Sulfur*, *Chili Powder*, and a Pinch of *Asafetida* together. You should mix two thirds Chili powder, a pinch of *Asafetida*, and the rest Sulfur. The powder should look reddish when properly mixed. To employ it, sprinkle some into the shoes of the person you wish to leave you alone and/or outside their front door or in their pockets etc. **REMEMBER**, only a little is needed for results. Do not use an amount that will be noticed by the person. This mixture has a general protective nature to it, and can be used as an exorcism incense.

(I, P)

HIGH CONQUERING: This is a **POWDER** recipe of great value. It is made by mixing *High John (Jalap)*, *Vetivert*, and *Bergamot* together. It is used in several areas. For **LOVE** it is used only by men. It has a dominating sexual effect, but comes off more as compelling invitation

than an assault. It is not as powerful as King of the Woods, or Satyr oil. It is also good for *HEALTH*. It has a Protective nature because of High John and Vetivert. It will remove obsessing "illness" demons when used in combination with white candles anointed with Uncrossing oil. It is also good for *WEALTH*. Because Bergamot is used in this recipe it is also good for wealth drawing rituals.

(O, P)

INSTIGATION: This is a commanding formula that will make others do your bidding without them knowing it. It will suddenly "inspire" the person by the desire to do what you wish for them to do. It is made of: *Hyssop, Verbena, Clove, Galangal, and Coffee*. Because it works so subtly, the person thinks that they have come up with the idea! It will also help make difficult tasks easier and remove blockages that occur. Instigation can be used to get anyone to be inspired by anything you desire depending upon the color of the candles used in the ritual. For love you would red or pink etc.

(O, I, P, B, FW)

LOST AND AWAY POWDER: This is used to get people out of your life. If you have a person that is bothering you, this is the powder to use. It is used in the same way as **GET AWAY POWDER**. It is made by mixing **Sage, Orris, Brimstone, Mistletoe** and **Dirt from a Crossroad**. You use dirt from a crossroad to symbolize a journey or a departure, like **LEAVE BUDDY, GET OUT OF MY LIFE!!!** It is not as good as **GET AWAY POWDER**, but it is still effective. Using this powder is a good way of getting rid of a past lover without a big scene.

(P)

MASTER: This is a very strong **DOMINATION** recipe of some fame. It is **ONLY** used by men and it is very effective for Luck and Power in the material world. It is made up of: **Deer's tongue, Patchouli, and Brick Dust**. It should not be used in Love rituals because it is **VERY** baneful in nature and can cause problems in the future. Many practitioners do use them in Love rituals though with good success. There are times when you may need to Dominate people for their own good. Ultimately you cannot Dominate a person to love you. It will only cause hatred for the person in

the long run. It is better to use Come To Me or a sexual recipe for matters of love.

(O, I, P, B)

POWER BRAND: This is used to control people. It is also used in Uncrossing rituals, but generally it is a controlling recipe. It is composed of Cinnamon, Magnolia, Bay, and Jasmine. It is another strong mixture you should think carefully about before using it on a person. Make sure you are balanced and not operating from the ego.

(O, I, P, B, FW)

THRIFTY POWDER: Makes a person spend their extra money on you.

Excellent for using on a **TIGHTWAD** mate or friend. It is made up of: **Lavender, Orris, and Sage.** This is a commanding recipe with some uncrossing effects too. It is mainly used as a powder and is sprinkled into pockets or shoes and by sprinkling into the flame of a purple candle you have lighted representing the person. You can also use an oil and anoint a candle with it.

(O, I, P)

COMMANDING/COMPELLING

(love)

BLACK CAT: This is used for a lot of situations. In magickal circles, Black Cats are thought to be lucky. It is made of: *Black Cat Hair (3), Steel Wool, Iron Powder, Sage, Myrrh, and Bay.* It will attract love and compel a person to desire you. You use the oil to anoint a **RED** candle or a Black Cat figure candle (available through the Society). You of course, would carve the persons name on that candle or use it as a general drawing ritual by not carving anything on the candle.

(O, P)

CERNUNNOS: This is the God of the Wicca's, also known as the "Horned God" of witches that works with the Goddess to insure good harvests and bounty to those that honor them. This being male energy it has a sexual use with commanding effects. It is mixed by combining *Pine, Sandalwood, Civet, Valerian, Musk, Cinnamon, and Frankincense* together. For a less commanding recipe you can also use the following

ingredients: *Oak leaves, Sandalwood, Allspice, Coriander, Cedar* and *Carnation*. This comes from the authentic Wicca tradition and has been used successfully for years.

(O, I)

COME TO ME: Is a very famous commanding love recipe. It is made with *Rose, Jasmine, Gardenia* and *Lemon*. By adding Gardenia and Jasmine you make this a very effective commanding and compelling formula to work on a disinterested lover. This recipe is generally used by women but, it can also be used by men. This is only used to **BECKON** forth a new lover and to attract a person that is not interested in you. It will not bring back old lovers. Wearing the oil in the presents of the loved one, has a powerful hypnotic effect on them. The powder may be sprinkled into the flame of the candle representing the person you want. You can even put a little powder on your hand and inconspicuously touch the person you are interested in.

(O, I, P, B, FW)

DEVIL'S MASTER: Here's a nasty little commanding recipe. It is

similar to Cernunnos and Master and it is used in the same way. This is a **VERY STRONG** recipe so, be careful using it. It is composed of: **Cinnamon, Red Sandalwood, and Chili Powder.** It will cause the person to be only interested in **YOU.** Make sure that is what you want. You may lust for a person today, only to be sickened by them later. This goes for most rituals, make sure it is what you want because you will get it. This formula is also good at controlling infidelity, particularly when used in combination with Black Devil which we will discuss in later lessons. This can also help you on the job and works like Boss Fix. (see Boss Fix for more info.)

(O, I, P)

DRAW ACROSS POWDER: Used to bring a lover to you. This mixture is nothing more than some **Patchouli leaves** to which you add a pinch of **Cinnamon.** Mix it thoroughly and then add it to your lover's footprint in the dirt and sprinkle some in the general area. I know it is hard to find dirt paths anymore so here is a way to better use this. One person invited their lover to beach and sprinkled the powder in the footprints there.

Pretty smart thinking here. You may be able to think of a way to do this too. The easiest way is to sprinkle a little across your front doorstep or their's. This generally works just as well.

(P)

KING OF THE WOODS: The finest male domination fragrance you will find. It works like Cernunnos and Master. It is made by mixing: *Saturnian oil, Civet, Musk, Vanilla and Cypress*. If you can not find Saturnian oil, you can substitute a piece of Lucky Hand Root in the bottle since Saturnian is very hard to find while Lucky Hand (Salap) is easy to find in most places. Saturnian is known to have a great aphrodisiac effect.

(O, I, P, B)

QUITTING POWDER: Used to make married members of the opposite sex leave you completely alone and it is used to discourage others from putting hexes on you. It is composed of: *Tobacco Ashes, Nutmeg, Cinnamon, and Powdered Newsprint*. You can also carry the powder in a charm bag as a protection against negative energies in

general. The powder is generally used in rituals by surround the candle of the person bothering you. If a person is bothering you for sexual favors, it is best to sprinkle this in the place you generally meet. This will cause them to leave you alone. Both men and women can use this powder. It can be used in a lot of situations where you want people to leave you or another person alone.

(P)

SATYR OIL: This is a sexual commanding oil for homosexual males. It is only worn as a perfume and should not be burned as an incense. However, you can anoint red candles with the oil to draw another man to you. Satyr oil does attract women too, but it will also attract men. King of the Woods is generally used by men to attract women to them. It is made the in the following way: *Saturnian oil, Ambergris, Musk, Civet, Valerian* and *Cinnamon*. Use only drops of the very strong oils in this mixture as stated before. Homosexual women will find other types of oils stated in later lessons.

(O)

COURAGE
(enhancement of)

Courage is something we can use, some more than others. If you are a shy or fearful person the following oils will be a great help to you. These recipes are used to overcome fear and the assertion of self in the world. Courage oils can help pull a person out of a deep depression or other crossed position or add power in general to those in dangerous situations. A good way to use these type of oils is on a purple candles with your name carved on it.

CRUCIBLE OF COURAGE: This is the formula of choice when courage is lacking due to a mild crossed condition. This is a “soft” mixture and not used on serious cases. It is composed of the following ingredients: *Vanilla, Rose, Lilac, and Lavender.* This is basically an uncrossing oil with a courage herb thrown in. You can also use this in success rituals where the odds are against you. A good way to use this

is as a bath before you go into a stressful situation.

(O, I, P, B, FW)

INSPIRING: This is used to help a person "**GET MOVING**". If you know a person that is depressed and cannot get going then this is for them. It is made with: *Pine, Lily, Hyacinth* and *Clove*. This recipe repolarizes a person, that is it turns a person from negative energy to positive energy. You can sprinkle the powder on them or have them burn the incense in their home for some time. You can also carve the name of the person you want to effect on Yellow, Blue or purple candles and anoint with **INSPIRE OIL** and you will see the effect. Hyacinth, is known to change a person's self-perception. You can see how that would be helpful in a lack of courage situation. It can also be used to help a person suffering from extreme grief.

(O, I, P, B, FW)

IRIS PERFUME OIL: This will increase **WILL-POWER** and **DETERMINATION**. It is composed of: *Orris oil*, and *Sweet Flag oil*. It is also a great help in the promotion of concentration and the focusing of

thought. Hermes and Come To Me are also good for this.

(O, I, P, B, FW)

MARIE LAVEAU PEACE: This is an excellent recipe for all types of uncrossing rituals, but particularly in situations where you are up against terrifying obstacles of natural and Supernatural kind. It help brings peace of mind and a relaxed self-confidence. It is make by mixing: *Holy Water, Spring Water, Rain Water, Rose Water and Lavender water.* It is generally used as a floorwash or spray.

(FW, S)

SPECIAL PERFUME OIL No.20: It is generally used as an Uncrossing formula but, it is also good to follow up an uncrossing ritual to bring new, positive, and dynamic growth trends going in the newly uncrossed person's life. It is composed of: *Gardenia, Jasmine, Orris, and Muguet.* This is a "psychological" oil and will bring courage and resolve and it will attract loving, sympathetic, helpful people to you. It is a very gentle recipe and it will help people with love problems but, it is generally used to reverse a person's negative self-image. It will also work on chronic

liars to help them to more honest.

(O, I, P, B, FW)

WOLF'S HEART: The finest recipe to use for courage in all situations. Known to be very effective. It is made with: *Dragon's Blood, Polk root, Myrrh, and Bitter Aloes.* You can anoint purple candle with the persons name carved on it, and anoint the chest area over your heart, back of the hands, and the bottoms of your feet to achieve maximum effects. This is often used in uncrossing rituals to help reverse negative attitudes and to help grant strength and fortitude necessary to pull away from a hexed condition.

(O, I, P, B, FW)

ENVY AND JEALOUSY

(to create or disperse)

ENVY AND JEALOUSY POWDER: It is both a hexing and hex-reversing preparation, although most often it is used banefully. It is made

with: *Bayberry, Vetivert* and *Sassafras*. To use it to rid yourself or another of feelings of envy or jealousy, sprinkle some powder upon the head and sit and meditate. It is also good to use in a bath mixture. To inflict envy and jealousy, the powder is sprinkled around the home of the person you wish to inflict it upon, or sprinkle it into the flame of a candle representing that person.

You can now see that there is two ways to handle a hex. That is to “uncross” the person or “reverse” the hex or both. Uncrossing involves Lavender, Rose, lilac, Bay etc. While reversing involves potions like War, Envy and Jealousy, Anger Powder etc. In one procedure you only lift the condition, while in the other you send back the hex or negative energy. The only true *DEFENSE* is an *OFFENSE!!!* You need to stop the person from attacking you. This is done by sending back their energies and even more negative energies. When doing a hex-reversing I always chant while doing the ritual, “Three the evil back” throughout the entire ritual. Evil must be punished and stopped. If you do not do it, they will attack and hex another. Too much evil goes unpunished in today’s world without

even a thought by most people. I hope that the people taking this course will change that. Only Warriors of the light, will save this plane. If we do not fight for it now, it will *SOON* pass totally into darkness. If we do not stop it, who will?

HEXING
(general)

Each of the following recipes have a real defensive effect, they are generally used for attack. As stated before, make sure you are in the right before using the following recipes. If you step over the line, you may never be able to come back...

AFRICAN JU JU POWDER: Here is a very famous one. It is nothing more than *powdered Galangal* or *Arrowroot* to which you have added *a few drops of Galangal oil*. Galangal is seen as being both a hexing herb and a powerful unhexing herb and African Ju Ju Powder is seen the same

way. The nature of Low John/Galangal is that it will receive any sort of “impression” of the will or charge you give it without conscience. It will work for you either way depending on how you have charged it. Charging or Impressing is done by holding the herb in hand and concentrating deeply on the use of the herb. It can also be charged on the altar by the color of candles you use. Since African Ju Ju Powder is non-specific in function, you must define it’s function by colors, other oils and incenses and even by talismans which you place on the altar. There is a lot of positive uses for this herb, so do not be put it off because it is in the hexing section. It is only when you put black candles near African Ju Ju powder that it becomes negative. Do remember that this is a *TRICKSTER* herb and it can *TWIST* on you at any time if you are not careful.

(P)

BAT’S BLOOD: Is used for hexing and reversing hexes. It is made of: *Dragon’s Blood Reed, Myrrh, and Cinnamon.* Myrrh gives this the kick because it catalyzes Cinnamon. It is generally not the most powerful hexing formula out there. If you substitute Red Pepper for the Cinnamon,

it makes it much more powerful. You should also add a little human or animal excrement to it or a few drops of urine to give it even more punch. This is done in a lot of recipes. You can also make a Bat's Blood hexing ink as follows that can be used on parchment or brown paper. 2 parts Dragon's Blood Reed (powdered), 1/2 part Myrrh, 2 drops of Cinnamon Oil, 2 drops Indigo food coloring, 12 parts Alcohol, 1/2 part Gum Arabic. Bat's Blood is only used as an oil, incense and powder. Never use a hexing mixture as a bath or floorwash.

(O, I, P)

BAT'S EYE INCENSE: Is much stronger than Bat's Blood and its recipe calls for *Dragon's Blood, Bayberry, Myrrh and Real Bat's Eye.*

Sometimes you will see for sale real Bat eyes, but as stated we are strongly against using *ANY* animal products. Bats are *VERY* helpful animals and should never be killed. They eat hundreds of insects nightly. The effects of this incense take place on the psychic level and cause extreme psychological upset to the person you use it on. You can also make this as an oil and use it on black or indigo candles.

(O, I, P)

BLACK ARTS: A very famous hexing recipe. There is nothing positive about this mixture and it cannot be used to reverse hexes or eliminate crossed conditions. This is strictly for causing harm. The *Incense and Powder* consist of: *Myrrh, Patchouli, Cinnamon, Gum Mastic, Graveyard Dust, Vetavert, and Mullen*. This recipe includes *GOOFER* or *GRAVEYARD DUST*. An alternate recipe to the above is: *Myrrh, Patchouli, Ambergris, Civit, Musk, and Black Pepper*. The *oil* consists of: *Myrrh, Patchouli, Cinnamon, Gum Mastic, Graveyard Dust, Vetavert, and Sage*. When you use this ingredient, it shows you mean business.

(O, I, P)

CROSSING: We covered this a little before and have given the recipe. You can use it as an oil, powder or incense. It can cross and uncross. *DOUBLE CROSS* and *CROSSING* are the same recipe and can be used for hex-reversing. The formula consists of: *Bayberry, Cinnamon, and Myrrh*. You can use this on black candles and on red candles to cross a lover, Green to cross money or luck, etc. However, be careful with its

use. Because it is a *TWISTER* or *HEX-REVERSING* potion, there is a possible chance that it will *BOOMERANG* on you. There is the rare person that is unhexable. This person automatically returns anything that is turned loose on them back to the person that sent it. This can cause you great trouble. Take note of this if start having problems after a hexing ritual.

(O, I, P)

DAMNATION POWDER: One of the most potent of the hexing powders. It is made with the following ingredients: *Holy Water, Beer, Myrrh, Lavender,* and the *Ashes from burnt Palm Leaves*. The base should be black in coloration. If needed use black incense as a base. Of course merely powdering Myrrh will provide the needed negative kick you need but, black always adds to the mental effects. Add a few drops of Holy Water and Beer to the Myrrh, toss in a few pinches of powdered Lavender and some ashes from burnt Palm leaves. Once again you see how Myrrh is used to inflict hexes by focusing the energies onto the material plane. By adding Lavender, which is usually used for peace, tranquility and

cleansing to this potion, you succeed in fouling up those effects and creating their opposite effects. This is a symbolic mixture of the sacred and the profane. Holy Water and Palm Leaves are considered strong Christian symbols and by adding them to this mixture with beer, a lowly brew, along with the burnt Palm leaves you are profaning them. As you can see this is a fascinating recipe that mixes several elements.

(O, I, P)

GODDESS OF EVIL: We have already discussed this and it works like Black Arts and Damnation. Because it contains Galangal it is another **TWISTING** herbal formula and needs to be handled carefully. It is generally only used as a powder but you can also stuff dolls with it too.

(P)

GOOFER/GRAVEYARD DUST: Is nothing more than dirt from a graveyard as we have discussed. There is a way to make this dirt more powerful. You could find out where a murderer or other terrible person was buried and take dirt from that grave sight. This may be difficult to do, most people do not advertise that they were murders but, it may be

worth the trouble because you would have a very potent powder, along with a difficult to handle powder. There is an easier way, all you need to do is add Patchouli leaves. This will greatly add to the negative power.

The third recipe is: *Patchouli, Mullen, Vetivert, and Dirt from a Graveyard.*

This is a **VERY** powerful mixture because both Patchouli and Mullen are powerful baneful herbs and the Vetivert adds enormous power to the whole thing. You generally only use this mixture if you want to inflict insanity, illness, or death upon another. Of course, there are a lot of people out there that deserve all three!!!

(P)

HAITI JUNGLE POWDER: Generally a white magick brew but, it can be used to cast and reverse hexes because it is a power based combination which will work both ways depending on the symbolism used in your ritual. It is composed of: *Cinnamon, High John, and White Sandalwood.* Use it with white and purple candles to help remove hexes; use with black candles it will inflict hexes. This is a typical example of how important **EVERY PART** of your ritual is. One detail left out, and your

ritual could totally backfire on you. Small errors can cause you a great deal of problems. Carefully think about each item you use in a ritual.

(P)

HELL'S DEVIL: Another hexing recipe. Generally used for stuffing dolls or as a powder. It has limited defensive abilities, but it is basically used for hex-casting as a powder sprinkled around the home of your enemy. It is made up of: *Capsicum oil, Mustard oil (drop), and Black Peppercorns.*

(P)

HOT FOOT POWDER: It is very much like Get Away Powder, but Hot Foot is very mild hexing powder used to make a person uncomfortable in your presence in the hope that they will stay away from you. It works by making the person very nervous or to give them psychic discomfort and its effects last a very short time. To use this powder, you must sprinkle a little in the shoes of the person you wish to stay away. It is composed of: *Chili Powder, Red Sandalwood, Black Pepper, Cinnamon, and a pinch of Sulfur.*

(P)

INFLAMMATORY CONFUSION & INFLAMMATORY: Inflammatory is a lust inducing incense and is used in love rituals when all else fails. This is a commanding and compelling recipe that tends to enslave the person you are working on. It is made up of the following ingredients: *Oak Ashes, Fennel, Musk, and Chili Pepper.* Inflammatory Confusion, is used to stop a cheating spouse and it is one of the **STRONGEST** controlling potions available. It is generally used on your altar to encircle the candle of the cheating spouse or it is used to stuff dolls with. You can also put the powder in shoes and pockets if you think they are going to meet another person.

(P)

JINX: Jinx incenses come in several colors, some are used for positive rituals and some for negative rituals. Jinx-Black is for baneful purposes and it consists of *Clove* and *Cyclamen* on a black incense powder base. Interestingly, all of the Jinx recipe contain just Clove and Cyclamen as their herbal base and only the color of the incense base

changes. For instance, Jinx-Red for love or invoking love: Jinx Green is used for Luck and Money-drawing; Jinx-Purple is used to command and to enhance one's psychic skills. This group of incenses is a typical example of how the same herbs or oils may be modified in function through the selection of various base colors. This is why color is so important in the construction of any ritual!!! Take great note of this.

(P, I)

JU JU: Here is a real nasty mixture. Unlike Ju Ju Powder we talked about before (African Ju Ju Powder) JU JU contains the following. *Myrrh, Mimosa, Jasmine, and Patchouli.* This is another one that can be used to inflict hexes or reverse them, with particular effects on a persons sex life. When used in a hexing ritual it is the sexual life of the person that will be effected.

(O, I, P)

JUA JUA POWDER: Not a hexing powder but an uncrossing powder that has *SOME* mild impressing of will on another person. It is used the same as African Ju Ju Powder. This formula is composed of: *Gardenia,*

***Rose*, and *Mimosa*.** In uncrossing rituals it is used to encircle the candle of the person you are uncrossing to protect and soothe.

(P)

MAD OIL: Used when you are working on a project or a business and others keep interfering or seeking to limit or inhibit your efforts. This oil works wonderfully to clear the channels for success and to hex those who willfully stand in your way. It made up of: *Capsicum*(Red Pepper), *Ammonia crystals*, *Coriander oil*, and *Pine oil*. This is one of my favorite oils to use because of the effects of getting the bad guys too. In business all is fair and a lot of businesses use unfair tactics. This oil will bail you out of a bad business or reverse a losing idea to a winning one. If you are in a business you should be doing success rituals daily to insure success. This oil is used when you run into trouble because of an attack from another business in some way.

(O)

MANDRAKE PERFUME OIL: Can be used as a hexing agent or a reversing agent with protective abilities. To make it use: **50% Musk to**

which you should add 25% Galangal, 15% Hyssop, 5% Dill and 5% Licorice. It is also used to help clear up sexual problems and it is good at controlling infidelity, even though this is not its main purpose.

(O)

SNUFF POWDER: This is a limited hexing powder used for a “Karmic” situation where a close friend, parent, or associate has betrayed a confidence and thereby caused you great pain. It is made up of: *Tobacco, Bayberry and Goldenseal.* Using the powder will quickly bring them a karmic lesson three time worse than what they did to you and usually the lesson is a precise parallel to the harm inflicted upon you. One important point about using hexing recipes is that you NEVER specify punishment to be handed out to the one who hurt you. Merely ask the spirit planes to bring justice and, believe me, the spiritual planes can inflict punishment more diabolical than your wildest dreams could create! By not naming the punishment you do not set your self up for any “Karmic” problems in the future, if you believe in that stuff.

(P)

TAR PERFUME OIL: A tricky oil used to create dissension, problems and strife for others. It is strictly a hexing recipe and is frequently made in large quantity and placed in a large mayonnaise jar into which you place black wax images of those you wish to be effected by the brew. It's power will cause a messy, sticky, inescapable set of problems for the person you use it on. It is made the following way: *Molasses, Castorium, Turpentine, Creosote, and a Pinch of Bitter Aloes.* You can see this is a very different recipe.

(0)

TEN COMMANDMENTS POWDER: It is used whenever someone has broken one of the Ten Commandments and it will bring instant justice, judgement and punishment for violations of spiritual law when used as a powder. In addition to its Justice function, it is also useful to those who obey the Ten Commandments because it attracts assistance to such people who keep divine law. It is composed of the following ingredients: *Hyssop, Salt, and Powdered Sea Shells(Ochineae).* This powder is very potent for both good and evil purposes. A word of caution here, when

using this powder make sure you are clean of breaking the Ten Commandments yourself or the powder will punish both *YOU* and the person you are working on. Because of the Christian overtones of this mixture it can be very tricky so, use it with care.

(P)

TIPHERETH: This is the sixth sephiroth of the Tree of Life from the Kabbalah. This incense is used to help you before a hexing ritual to inspire you in your attacks. It is made up of: *Dittany of Crete, Pine, Myrrh, Dragon's Blood, Patchouli, and Balm of Peru.* As an oil it is used to anoint purple candles rather than black candles, although it may be used on black.

(O, I, P)

VOODOO POWDER: A powerful drawer of spirits of the dead. In the Voodoo tradition spirits of the dead are often called upon to help those of us who are still living and this powder is considered to be one of the best substantial bridges available between spiritual and material realms. The reason for using this recipe is to attract rather powerful spirits of the

dead to one's working as opposed to the simpler, helping spirits which automatically attend a working the moment the white altar candles are lighted. This powder is for advanced practitioners only, beginners should use a milder powder. You mix it the following way: *Myrrh, Graveyard Dust, Patchouli, Mullen, Vetivert, Pine, Clove and Lime*. The blend of herbs with Graveyard Dust (which should form about 80 percent of the recipe) gives it a strangely magnetic power.

(P)

WEAR-AWAY POWDER: A mild hexing powder for inflicting minor karmic lessons upon a person. Made by mixing: *Castor Bean (palma Christi), Black Pepper, and Orris*. Basically this is used to take care of a minor pest in your life.

(P)

WORMWOOD POWDER: A powerful hexing agent and only used for serious situations. This is an offensive potion with no defensive capabilities. This is used when you want deadly results and have been greatly harmed by a person. It is used like most hexing agents and is

generally for the advanced practitioner. The formula is composed of:

Absinthe and Yerba Mate.

(P)

YAKA POWDER: The same as African Ju Ju and is used the same way.

(P)

YULA PERFUME OIL: Another deadly oil that is used only under the most extreme conditions or against a very evil or hurtful enemy. It can bring sickness and death to your victim. It's ingredients are: *Melon, Rose, Lavender, and Wisteria.* This is another advanced oil that ***MUST BE HANDLED WITH CARE*** by an advanced practitioner. These hexing mixtures can rebound if you do not handle them correctly. You need to work with magick for several years to fully understand all the ***"INS&OUTS"*** of the art.

(O, I, P)

YUZA YUZA: Used for casting hexes and calling forth spirits of the dead. It is lesser known but works like *YULA*. This formula is composed

of the following ingredients: *Myrrh*, and *Cypress*. Things that deals with spirits from the dead are **VERY TRICKY TO USE**. Baneful spirits are all types of evil people from criminals to perverts of all kinds. While these spirits are always willing to carry out your wishes, the problem is in banishing them once they have executed your wishes. Many practitioners find it **EXTREMELY** difficult to banish these spirits once they are invoked. We will give you a ritual for this in a future lesson, for those that get into this trouble. If you think you had problems before, wait until you have an evil spirit hanging around your home. It will cause nothing but terror in your life. Most occult practitioners run into this problem sometime in their life. You need to know what to do about it before it happens or hurts you or your family. There is enough problems in life without dealing with evil spirits. The reason for doing practical magick is to change your life for better, not get into more problems. That is why it is important to follow all the steps given in this course. A lot of practitioners forget or skip certain steps (like floorwashes & sprays) thinking they do not need them. This can cause great troubles in your life. Generally the form of

magick you are learning is pretty safe but, if you do hexing or tend to be a person that brings in negative spirits easily (I know several people like this), you need to take ***GREAT*** care in all your magickal rituals. There is a lot of Astral ***SHIT*** out there that you must protect yourself from. Better to be the initiator of a lot of people wanting revenge for what you did safe than sorry, as the old saying goes.

(O, I, P)

ZOMBI: It has a reputation similar to ***YULA*** and ***YUZA YUZA***, but which actually is more of an extreme controlling mixture than a hexing recipe. It is made up of: ***Low John, Yerba Buena, Nutmeg, and Sage***. ***Zombi*** tends to merely control a person while a hexing recipe adds pain and suffering to the control factor. It has been used to restrain a person from bad habits, but there are better recipes for this.

(O, I, P)

HEXING

(love)

There are recipes that are just for hexing relationships. This seems to be the favorite of a lot of people seeking revenge for past problems with relationships. They generally work by causing infidelity between the couple. Love is the one area in life where all things seems gray, and where there is no totally right or wrong people in the situation. Revenge in this area is generally totally from the *EGO*, and is Black Magick that will lead you down. Once the line is crossed, it is hard to come back.

Once you are touched by the Locust's wings, you tend to become it's slave. There are times that revenge is due in this area. That is why I am including this information here. Of course, you need to think carefully before taking any action in this area. Seek advice from friends that are not emotionally involved in the relationship.

BAT'S HEART INCENSE: This is used specifically in the area of

Jinxing love. The recipe for Bat's Heart is the same as for Bat's Blood Ink which we have already given you with the exception that you are eliminating the alcohol and substituting a pinch of sugar for the Gum Arabic. Not only will this recipe cause Infidelity, but it is also useful to gain justice when a mate has been unfaithful to you. This is the one area where revenge is due, but there are safer recipes for this.

(P, I)

LOVE BREAKER: Here is a wickedly powerful formula for destroying relationships. It is made with *Graveyard Dust, Vetivert, Patchouli,* and *Lemon Grass*. It is good to stuff dolls with and for sprinkling in the flame of a candle representing the person you are working on. The effects are generally to break the marriage. A serious ritual intent that will cause you great problems if you are wrong about the relationship or are doing it only for lust reasons. It has one positive use and that is to break up a relationship that is harmful to one person in the relationship. That would be a situation involving a relationship that one hurts the other mentally of physically. This is the situation more times then we like to say.

(O, I, P)

SEPARATION: Is another like Love Breaker that can be used for several purposes. The recipe will be given in future lessons.

(P)

UNFAITHFUL: This is another love hexing recipe. It is unique because of the **TWISTING** ability of this formula. It is a strange **REVERSING POTION**. It is made up of the following: **Lilac, Carnation, and Khus Khus**. If you touch this to a person that is faithful, they will become unfaithful, and if you touch this to a person that is unfaithful, they will become faithful. This will happen no matter what form you use it in.

(O, I, P)

YO YO POWDER: This is used by males who want to turn away the advances of females. They call it Yo Yo, because you have to be a Yo Yo, to want this result. All kidding aside, there are times that attention from the opposite is unwanted and a pain. It is made up of: **Red Sandalwood, Orris, Vetivert, and Angelica**. This is a restraining formula designed to keep the ladies away from you. You can wear the powder on your body

while around the person or you can sprinkle some of it on the lady or in her shoes. You can use it on the altar by carving her name on a purple candle, anoint with commanding or Love Breaking oil, circle it with Yo Yo Powder, and sprinkle some powder into the candle flame. This needs to be done for 20 minutes a day until the lady leaves you alone.

(P)

ZAWBA POWDER: Will create dissension between friends and lovers and is a hexing blend. It is made up of: *Vanilla, Thyme, Almond,* and *Wintergreen.* Like *YULA*, it overdoses with kindness and too much affection and thereby breaks up the relationships by creating within them jealousy and possessiveness. A nasty potion that effects in a sneaky way. Be careful of the *REBOUND* effect here.

(P)

INFIDELITY
(controlling of)

BLACK DEVIL: A strong recipe for controlling infidelity. This is used on the worst kind of cheater. It works by inflicting **GUILT** on the person to change their ways. The person cheating gets less and less satisfaction out of their cheating. It is made up of the following ingredients: **Bay, Frangipani, Lavender, and Cinnamon.** Used by anointing a red figure candle representing the wandering spouse with the oil. Burn one every day for seven days. You can also use **Stay At Home & Unfaithful** recipes in the ritual too. Other effective items to use with this are sugar and salt. To do this, add a couple of drops of the oil to about an ounce of sugar and salt (in equal parts) and you thereby form a powder which is supposed to be sprinkled into the adulterous one's underwear.

(O, P, I)

LUCKY POWDER: Is a protective powder that instantly stops infidelity. Use it by sprinkling on the wandering spouse, in shoes, or use

in a ritual by forming a circle with the powder around a red figure candle representing the person you want to be faithful. The circle of powder forms a psychic shield around the person. The powder is made by mixing: An ounce of *Oatmeal* and add a few drops each of *Pineapple, Peach Blossom,* and *Melon oils.* This is a mild controller. If the person is a real problem you will need to use a stronger recipe.

(P)

STAY AT HOME POWDER: This is the best known and used recipe for controlling Infidelity. Made up of the following: *A piece of pulverized Bed sheet upon which the cheating one has slept., Clove, Allspice, Deerstongue, Mullen, and Sage.* It is used by sprinkling into the underwear of your mate, or in shoes or you can burn it as an incense in rituals to prevent infidelity. I have not talked about prevention. It is always best to stop trouble before it starts. This world offers people a lot of tempting alternatives in life. That is why it is best to do rituals to prevent actions from taking place. It is always a good idea to do a protection ritual on your relationship. This includes a binding spell and

a **Stay At Home** spell on the person to stay true to only you. This is only wrong if you are **USING** the person for an ego need of yours. It is easier to hold something, than it is to get it back! The same goes for attack rituals. If the person is an enemy, do not wait until you are under attack, you attack first and control or neutralize the person before you are hurt. Prevention in all areas of life, is the best way to go. You can also use the powder on your body before your make love and by doing this adds a lot more power to the potion. Stay At home can control and prevent adultery from happening.

(P)

I have already talked about **UNFAITHFUL** but I need to add that it is a very strong potion and you must be sure that the person is cheating before using it. If you screw up and use it on a person that is **NOT** cheating they will soon start to. That is the **TWISTING** effect of this formula.

LOVE
(passionate)

There are endless recipes for love oils and incenses. The ones that we will give you are the best of the bunch. They have been tested and have shown to be the most effective of the group. The main difference in the recipes lies in their ingredients and the way in which they work to achieve your desires. Love formulas are divided into Passionate Love and Romantic love. The Passionate formulas generate sexual feelings, while the Romantic generate caring, communication, tenderness and long term love feelings in general. Sexual feelings are generally short term feelings.

The following formulas are to be used by women only, unless stated otherwise but, it is good for both sexes to read these recipes.

ASTARTE: A well known and powerful formula linked with Goddess energies. It is powerful with a deceptively sweet fragrance. It is made up of: *Sandalwood, Rose, Orange, and Jasmine.* The formula creates

sensuality and mystery. The incense is excellent to burn for intense lovemaking.

(O, I, P, B, FW)

CALIPH'S BELOVED: Used by wives that feel the passion has left their relationship. It is made up of the following: *Musk, Ambergris, Coriander, Cardamon, and Carnation*. A very unique blend of herbs that work very well.

(O, I, P, B, FW)

CLEOPATRA OIL: One of the strongest oils available for Romantic love, that promotes marriage, as well as protection for the woman that wears it. It is made up of the following: *Pine, Sandalwood, Orris, Patchouli, Myrrh, and Frankincense*. As for the Incense it consists of the following ingredients: *Pine Bark, Sandalwood, Orris, Patchouli, Myrrh, and Olbanum*. As you can see by the ingredients it is a strong recipe that not only attracts quality men but, will screen out freaks and jerks!!!

(O, I, P, B, FW)

DELIGHT: This recipe will help you with a lover that has inhibitions.

It will increase the pleasure of sex, along with removing many sexual inhibitions of all kinds. It is made up of the following: *Sandalwood, Rose, and Melon*. This is only used by women and is best used as a powder sprinkled between the sheets of the bed you will use for your love making. It is also very effective as an oil and incense to get the mood going.

(O, I, P, B, FW)

DIXIE LOVE PERFUME: Both sexes can use this one. It is used as a basic love oil, and as an oil to increase a man's sexual performance and pleasure when anointed on a candle for this purpose. It is made up of the following: *Patchouli, Cinnamon, and Jasmine*. The bath formula is perfect for any ritual involving attraction. The oil is only used by women. Men use it on red female figure candles to awaken a lady's interest!!!

(O, I, P, B, FW)

EVE OIL: Used as a seduction oil after a man is attracted to a woman. It has some aphrodisiac powers but, has little compelling effects. The formula consists of the following: *Apple Blossom, Rose, and*

Lemon. Used on red candles to keep a person at distance to keep thinking about you. This could be a mate that travels or a mate in the military etc.

(O, I, P, B, FW)

FIRE OF LOVE/FIRE OF PASSION: Fire of Love formula made up of: **Patchouli, Civet, and Musk;** while the Fire of Passion formula is made up of: **Patchouli, Civet, Musk, and Ambergris.** These both are very sexual formulas, but with protective qualities that screen out the freaks. The main purpose of this oil is to generate **LUST** in **ANY** man that comes in contact with you. It should be used with care, even though it has **SOME** protective qualities, it still is a lust generator that can cause you problems if worn on the streets.

(O, I, P, B, FW)

FLAMING POWDER: Sometimes called Flame of Desire, and it is used as a compelling love formula. It is made up of the following: **Cinnamon, Galangal, and Bay.** It is used in a red base. The recipe is made of power and dominating ingredients. The color red is used to focus the

reason for use. If Green or purple base colors are used, it can be used for money and general power. The color will direct the energy to your goal.

(O, I, P, B, FW)

FOLLOW ME BOY: A strong passion inducer with protective powers.

Used by Hookers to draw customers and protect them from the Police.

This formula is made up of: *Vanilla, Rose, Jasmine, piece of Coral,* and

Gold Glitter. While this can be used by any woman, it will strictly bring in

a person only interested in sex and nothing else. It's slight protective

nature will only protect you a little. If worn, get ready for all kinds of

horny men to come your way.

(O, I, P, B, FW)

FRENCH LOVE: A sexual compelling recipe and it can be used by

both sexes. It is used both on the body and on candles for rituals

involving attracting sexual partners. It is *VERY* non-selective and should

be used with care. This formula consists of the following: *Musk, Orris,*

Ambergis, and *Vetavert.*

(O, I, P, B, FW)

GODDESS OF LOVE: Only to be used by women seeking a balanced relationship of sex and romance. Made of: *Musk, Mint, and Rose*. Excellent recipe for most love rituals because of it's dual nature.

(O, I, P, B, FW)

GREEN POWDER: Used *ONLY* by men to bring good luck in regards to the opposite sex. It is made up of the following: *Musk* and a *green base*. Used by sprinkling a little bit on your left leg and placing a bit in the pubic region before going out for the night. Homosexuals need to use a Lavender or Purple base powder instead of green.

(P)

HAITIAN LOVER: Used by men *ONLY*. It causes women to fall for you! Good for shy men that need that extra effort from women. This particular formula is made up of the following ingredients: *Cinnamon, Anise, Orris, Clove, and Sassafras*. Used by anointing a red female figure candle. By doing this you cause a powerful effect on the person you want to attract. Great to burn if your favorite lady is to come over your house. It creates a powerful mood for passion.

(O, I, P, B, FW)

ISIS OIL: A strong love oil with a great deal of protective powers to screen out the jerks. Made up of the following: *Myrrh, Vetiver, Frankincense, Civet, Storax, Myrtle, and a piece of Orange Rind.* As you can see, this is a powerful formula with a sexual overtone. Women find this to be of great value. Even homosexual women report excellent results with this formula. It will bring men to you!

(O, I, P, B, FW)

JINX-RED: Used to invoke passion, but is not a strong recipe. See what I have wrote earlier on this.

(I)

LaFAMME: A very strong sexual compelling formula, that will also cause your mate/lover to think of only you! This formula is made up of the following: *Musk, Ambergris, Bay, and Myrtle.* Can be used by both sexes. It has a very forceful psychic effects on the person you project it at. It will cause the person to never forget you. It is generally used by anointing candles and is only worn by women. It is also used as a powder

in between the sheets to add to lovemaking and as an incense to do the same.

(O, I, P, B, FW)

LOVE OIL: A classic recipe for Love rituals and for lovemaking.

Used by anointing the body with the oil. This formula is made up of: a base of *Coconut oil* with a few drops of *Musk* and *Frangipani* in it. Used by many with great success.

(O)

NUMBER 20 LOVE OIL: Used for love problems in relationships. It

also has a protective nature. This formula is made up of the following: *Almond, Rose, Lavender, Bay, and Lemon*. When used in rituals, it will only bring men of quality and is only used by women.

(O, I, P, B, FW)

LOVERS: A strong and non-selective recipe for bringing on *LUST!!!*

Great to burn before lovemaking to increase the enjoy. This formula is made up of the following: *Civet, Ambergris, and Patchouli*. Use with care outside of your home.

(O, I, P, B, FW)

RED POWDER: Used only by women for sexual attraction. Sprinkle on right leg before going out for the night. This formula is made up of the following: a *Red base* to which you add *Cinnamon*.

(P)

MOUNT POWDER: A strong sexual attraction powder for women. Made up of the following ingredients: *Sweet Basil, Bay, Thyme, and Lignum*. Grind all into a fine powder and than add a few drops of *Rum* to the powder. This powder is then sprinkled on your breasts and around your altar for love rituals. It is said to make men ask for your hand in marriage.

(P)

MUSK LOVE: Used to invoke a new lover, but it can also be used to add new attraction between old lovers. This formula is made up of the following: *Musk oil, Violet or Orris oil, and Vetavert*. Best used as a bath before doing a love ritual or before sex.

(O, I, P, B, FW)

PROTECTION AND LOVE: For those that are having love problems and for those that are afraid of getting hurt in a relationship. This formula is made up of the following ingredients: *Patchouli, Lavender, Orris, Lemon, Vetavert, Civit, Ambergris* or *Tincture of Benzoin* or *Styrax, Bay, Muguet,* and *Musk*. A very well balanced recipe that will only bring in happy relationships. It also has a soothing effect for people that get nervous around that special person.

VENUS: Lots of recipes use this name. As a Goddess of Love, these formulas are considered of great value.

The following formulas give you five of the best and tested recipes for Love and Sexual uses. It is balanced this way for both. Excellent for almost all love rituals.

VENUS FORMULAS
FOR USE AS

POWDERS/OILS/BATHS/FLOORWASHES/INCENSE

The *first formula* is composed of: *Rose, Orris, Sandalwood, and Musk.*

The *second formula* is made up of: *Lavender, Camomile, Cinnamon, Rose, Musk, Patchouli, and Orris.*

The *third formula* is made up of the following ingredients: *Jasmine, Rose, Ylang Ylang, Civet, Ambergris, and Myrtle or Muguet.*

The *fourth formula* is made up of the following: *Rose, Lavender, Violet, Musk, and Amber.*

The *fifth and final formula* we will go into is composed of the following ingredients: *Rose, Orris, Orange Peel, White Sandalwood, Deerstongue,*

Allspice, Jasmine, Sage, Basil, Civet, Ylang Ylang, Muguet, and Cinnamon.

As you can see, there is a great deal of power in these recipes for both sexual and romantic love. This is why it is a favorite of most Sorcerers.

VOODOO NIGHT: Used by Hookers to invoke powerful sexual psychic arousal. It is made up of the following ingredients: *Myrrh, Patchouli, Vetivert, Lime, and Lemon.* A strong very non-selective sexual commanding formula. The Hooker connection adds a little nastiness to the mixture.

(O, I, P, B, FW)

YAKA POWDER: Used by couple having trouble conceiving a child. Composed of only ground up Galangal (Low John). Sprinkled on your body and between the sheets of your bed.

(P)

One note on oils used on the body for love. Lust oils are placed in the genital areas, while romantic love oils are placed near the heart and head. The mixing of your own body oil does add to the focusing of these oils.

LUCK IN BUSINESS

ANGEL: Used to protect a business and bring in Success and Money. This formula is made up of: A 50/50 mixture of *Lavender* and *Sandalwood* to which you add a few drops of *Holy Water* and *Spring Water*. This mixture makes an excellent incense, powder, or floorwash for business locations, although it is not as strong in terms of drawing Success as High Conquering or Luck Around Business Powder. It is always a good idea to use a floorwash daily or a spray to keep a good flow of customers coming to your business. Do not wait for problems to happen. Try to prevent problems before they happen. This goes for all magick you perform. Think ahead. It is a lot easier to keep things going, than it is to try and change or repair them. *SHI SHI* Floorwash also works well for general Luck, Success and Protection.

(O, I, P, B, FW)

ARABKA SOUDAGAR: Used for Luck and Success by businesses and individuals. This formula is made up of the following ingredients:

Frankincense tears with a little Tonka Oil on them.

(O, I, P, B, FW)

ATTRACTION: A MAGNETIC formula that will bring anything or anyone you like to you. This recipe is non-selective, so make sure you focus the ritual by using the correct candle color for your goal. Attraction oil on a green candle will bring money, on a red candle will bring love etc.. This formula is composed of the following: *Olibanum, Sandalwood, Myrrh, Cinnamon, and Orris root.*

(O, I, P, B, FW)

FAST SCRUBBING ESSENCE: Used as a floorwash to rid your home/business of any negative energies. This formula is made up of the following: *Florida Water* with a bit of *Vetivert* added. Florida Water is noted for it's ability to cleanse a chamber prior to ritual working. It can also be used to day-to-day to for cleansing your entire home/business. *Vetivert* is a power root that gives Florida Water that extra punch of "EXORCISM" for your home or office. The effects of using this floorwash are long term and not particularly fast or dramatic.

(FW)

GENERAL WAYS OF CLEANING OUT YOUR HOME OR BUSINESS

You must always work at keeping negative energies out of your home or business. If you have negative energies around you, your rituals will always be reduced in power or unsuccessful. The following will help you rid your "space" of negative energies. I highly recommend that you purchase the book "SPIRITUAL CLEANSING" by *Draja Mickaharic - A Handbook of Psychic Protection from the Society*. Cost is \$5.95 plus \$2.00 P&H. It will save you a great deal of pain.

HOME OR BUSINESS PROTECTION

Place Mothballs in all the corners of each room. This keeps out

negative energies.

PROTECTION WHILE SLEEPING

Take a white egg and clean it well. With a pencil write your name
on it and place it at your head while sleeping. Replace weekly with a new
one. Dispose of by breaking egg in toilet and flushing it away. The egg
takes in the negative energy and stores it. Sometimes the eggs break
because of the overload of negative energy they store. Just replace with
a new egg and dispose of the old egg as usual.
