"The spacious firmament on high,  
With all the b.ue ethereal sky,  
And spangled heavens, a shining frame,  
Their great Original proclaim.

"Th' unwearied sun from day to day  
Does his Creator's praise display,  
And publishes to every land  
The work of an Almighty Hand.

Soon as the evening shades prevail,  
The moon takes up the wonderous tale,  
And nightly, to the listening earth,  
Repeats the story of her birth,

"While all the stars around her burn,  
And all the planets in their turn  
Confirm the tidings as they roll,  
And spread the truth from pole to pole.

"What though in solemn silence' all  
Move 'round the dark terrestrial ball;  
What though no voice nor minstrel sound  
Among their radiant orbs be found;

"With saints and angels they rejoice,  
And utter forth their glorious voice,  
Forever singing as they shine,  
"The hand that made us is Divine."— *Addison*

Solemn strikes the funeral chime,  
 Notes of our departing time.  
 As we journey here below,  
 Through a pilgrimage of woe.

Here another guest we bring—  
 Seraphs of celestial wing,  
 To our funeral altar come,  
 Waft a friend and Brother home.

Lord of all! below—above—  
 Fill our hearts with truth and love;  
 As dissolves our earthly tie,  
 Take us to Thy Lodge on high.
