Thank you for the invitation, but in October I'll be working on my degree thesis based on the Bhopal Case (and also the development of Environmental Law in India). Maybe next year!

Ajeet Singh Mac You may desire to meet in person the HERO of GAS TRAGEDY who rescued over 10,000 people when he was a MAJOR. He is my brother in law , now COLONEL G S KHANUJA , VSM , living in PUNE. His statements could add more of the reality & help you in completing your thesis. BE MY PERSONAL GUESTwith GOD'S LOVE

Davide Pellegrino I think this could be a great opportunity. The only problem is that I'm in Italy. However I have to say thank you, maybe we will find a way to going over the distances!
