To whom it may concern:

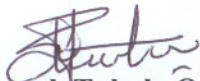

RE: Illegal excision of Trust land, Maasai Mara (Talek 155)

Due to the seriousness of the illegal excision of Talek 155 from the Maasai Mara Reserve I have taken the liberty of distributing the documents mentioned in this letter to selected people who may be able to assist the concerned councilors and stakeholders in the tourism sector to recover this valuable asset.

The Talek adjudication contained only 154 parcels. Talek 155 was illegally added later and was not part of the adjudicated land. It consists of 4,000 acres and is right in the middle of the park overlapping with the Mara Intrepids Camp.
