IN-HOUSE TRAINING ON LRH ADMINISTRATIVE TECHNOLOGY

A WISE membership (Company level or above) allows one to set up a course room inside a company and deliver LRH admin tech training courses to all employees. This is the most economical and effective method of implementing L. Ron Hubbard's management principles.

By training one's employees in this technology, they become fully familiar with the principles and apply what they learn. Once trained, they can implement and maintain this system themselves. As training creates broad agreement on organizational procedure and protocol, production lines speed up dramatically and function with fewer mistakes. Not surprisingly, many business owners who set up an in-house training program report unprecedented increases, not only in profit but also in employee morale.

And, if at any time you've wondered, "How in the world can I ever step away from my business (even for short periods) to work on future plans or pursue another goal?"—employee training is the answer. Training in a professional course room creates competent staff and builds an efficient organization—one which does not require every minute of your attention on every detail.

With a WISE Company membership you can deliver 6 courses covering all the basics of LRH administrative technology as well as courses on LRH Study Technology. With a WISE Corporate membership or above you can train your staff on all 26 courses available—there is no limit to the number of staff you can train on these courses during the term of a membership.

which are the foundation of much growth and success. At times, however, these relationships sour and disputes ensue. Often quite explosive, they can crash production and consume the attention of those involved. The Dispute Resolution Service offered by WISE Member Charter Committees provides a swift, fair and inexpensive means of resolving conflicts and disputes in the workplace.

Using unique mediation procedures based exclusively on principles developed by L. Ron Hubbard, a WISE Member Charter Committee dispute handler is able to get to the root cause of a dispute, thereby opening the door to resolution. Dispute resolution fees vary depending on the complexity of the dispute; however, they are kept reasonably priced, covering the administrative costs involved, as well as those of the dispute handler.

Your nearest WISE office or Charter Committee can answer any questions you have or help you schedule a dispute handling if the need arises.

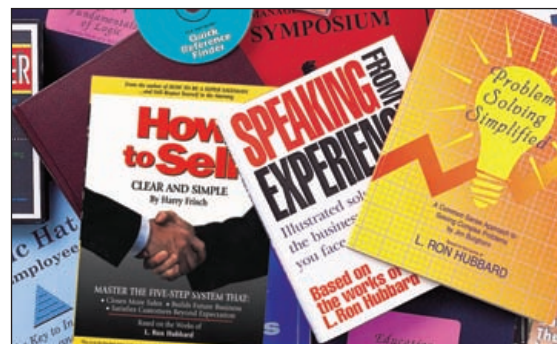

MODEL OF ADMIN KNOW-HOW WORKBOOK

The Model of Admin Know-How programs have now been released in a 270-page workbook. This workbook is designed so that a person who has no experience with L. Ron Hubbard administrative technology can immediately learn and apply these basic principles in their business.

The workbook begins with articles on key fundamentals, followed by practical exercises to ensure these principles are fully understood and can be applied.

Six programs then follow which provide exact guidelines to implement LRH admin tech including proper finance policy, management by statistics, organized production lines as well as much more and all geared to streamline and increase the efficiency of a business.

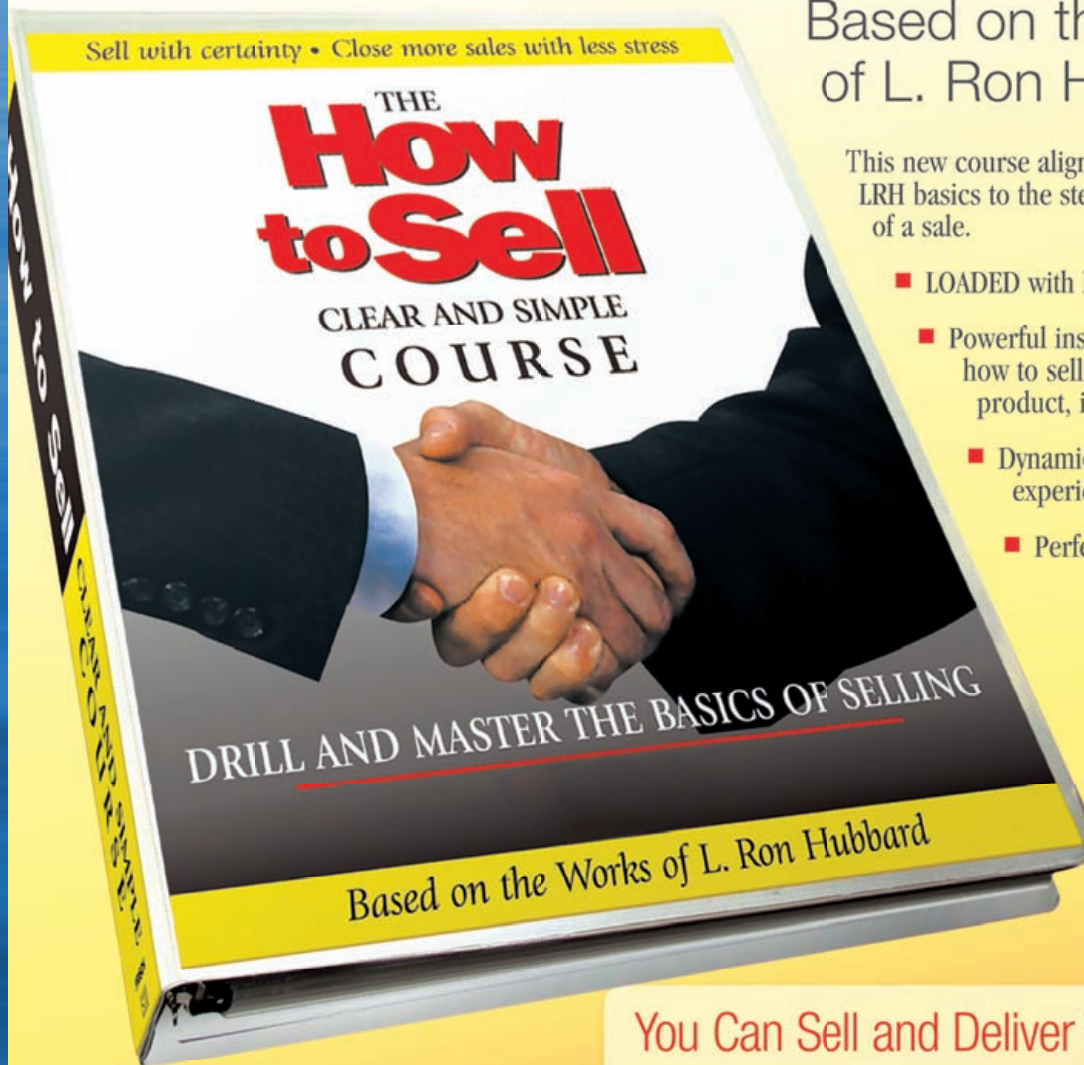

ISSUE AUTHORITY SERVICE

Very often a WISE member wishes to publish quotes or articles from L. Ron Hubbard in company newsletters, issues or training materials. Many members, as part of introducing others to LRH admin tech, create promotional items or products which quote from the principles and techniques of this technology. Professional consultants also create a variety of LRH admin tech products and services for their clients.

The WISE Issue Authority Service authorizes the issuance of all such items. It helps and guides members in the creation of these (so they can be swiftly and easily approved), and furthermore, the WISE Issue Authority Service ensures all republications of L. Ron Hubbard's works are true to the original works and properly copyrighted and trademarked.

Any Activity can Have a Statistic

Any experienced manager will agree that business management is a subject of how to get results. Therefore, the following is an inescapable fact: If you are responsible for getting results you've got to be able to properly measure them. Problems in productivity are much more easily resolved when the ongoing results are being accurately measured.

Each activity of an organization should have a statistic which represents the quantity or value of its results. Some have argued that it is either impractical or impossible to track a stat for certain types of key production areas in a group. The best managers do not give in to that argument. In fact they proceed to identify the most appropriate statistics and get them tracked.

Flat Org Charts

You will find many small businesses where everyone (incorrectly) reports to one person. Such a "flat-line org chart" is not an org board. When this is the case, the one in charge gets exhausted; and despite endless hours of hard work, such a business will not grow.

When a senior executive runs a large business as if it had a flat org chart the results are disastrous.

The Communication Formula Must be Complete

The communication formula is fundamental and true for any communication. If any part of the communication formula is not present you can expect problems. For example, let's take just one part of the formula out and see what happens...

Misduplication

What was the gross profit from toothpaste sales last year?

What was the gross income from toothpaste sales last year?

She wants to know the total amount of money that was collected for toothpaste last year.

Misunderstanding

Intention

Attention

Distance

CAUSE POINT

EFFECT POINT

Abbey (cause point) wants (intention) to ask Steve (effect point) a question. Abbey sees that Steve is listening (attention) and asks him the question. The question travels to Steve (distance), and she hears what was asked but doesn't duplicate it. Thus Steve will not have an understanding of the communication that was just delivered. Steve will of course act upon the communication incorrectly.

INCREASE YOUR COMPANY'S PRODUCTION & PROFITS

There are many software programs on the market that can produce a graph, but only the Management by Statistics® software has been designed exclusively for managing.

134

Management by Statistics - *Based on the works of L. Ron Hubbard*

The ability to see at a glance any area of your business is a big step in determining your company's future success. Having timely statistical information at your fingertips is crucial, but knowing what specific course of action to take based on the information the graphs provide, is the key. It's how you **ACT** on that information and the precise steps you take that is the essence of **managing** by statistics.

Are you flying blind by not having the management Tools you need to tell what's going to happen next week or next month in your company?

The key to having this kind of foresight is in knowing how to be an expert at statistical management. Now this ability is much easier to attain, if you own and use the Management by Statistics software. MasterTech Software brings you the exact tool you need to make these tasks simple and fast. This software will show you the precise indicators you need to watch on a routine basis to have a more profitable business.

How to Advertise in the WISE Directory

WISE membership is an opportunity to meet and form relationships with like-minded professionals of all walks of life and not just in your community. To help you form such relationships, we provide the WISE International Business Directory. Available to all members, each receives a copy and is listed. The WISE International Business Directory includes alphabetical listings, as well as listings by geographical area and business category. Each WISE member may provide a concise description of his/her business or activity to include in the listing. WISE members may also purchase advertising space. This publication also includes listings of groups within the WISE membership, including Charter Committees and Business Expansion Clubs.

How Can I Be Listed in the WISE Directory?

When you sign up as a WISE member, you fill out a WISE Membership Registration Form. The contact information and description of your business which you provide is sent to our Directory Database In-Charge and is used to create your WISE Directory listing. If your contact information or business description changes at any time, simply send the updated information to the Directory Database I/C WISE International with a copy to your nearest WISE office.

On page 303 there is a form showing the information which is used to compile your directory listing. If for some reason you do not wish to be listed in the WISE Directory then inform the Directory Database I/C WISE International as members are listed automatically upon verification at WISE International.

There are no specific requirements for being listed in the WISE Directory other than that one is a current member of WISE abiding by the Code of a WISE Member and operating an ethical business. The Member Ethics Officer at WISE International, reviews the final listings to ensure those included are actually abiding by the Code of a WISE Member with one's ethics in per the information available to him.

Can the WISE Directory Be Used as a Mailing List?

The WISE Directory cannot be used as a mailing list without specific permission from WISE International. Our members provide their contact information in good faith and in general welcome communication from fellow members. However, when these communication lines are overloaded with unsolicited offerings this can undermine the WISE Directory as a membership benefit.

At WISE International we work to safeguard the communication lines of our members; however, we are equally interested in keeping these lines free and open. The solution is to advertise in the WISE Directory. This is without a doubt the most cost effective way to reach WISE members — with an ad all year long!

How Can One Advertise in the WISE Directory?

A variety of advertising spaces are available to members. If you would like to advertise, please use the form on page 302.

Directory Advertising Policy

Acceptance of all advertising is subject to publisher's approval and agreement by the advertiser to indemnify and protect the publisher from loss or expense on claim or suits based upon contents of the subject matter of such advertisement. This includes suits for libel, plagiarism, copyright infringement and unauthorized use of a person's name or photograph, among others.

Cancellation is not accepted after applicable closing date.

The publisher reserves the right to reject or cancel any advertisement which in his opinion does not conform to the standards of the publication.

The publisher shall not be liable for damages if for any reason he fails to publish an advertisement.

The publisher assumes no liability for errors or omissions of key numbers or for the content of an advertisement or listing.

All advertising shall be clearly identified with trademark or signature of advertisers.

Conversion and any unusual production charges related to advertising material are billed at prevailing rates.

Advertising materials are returned upon request only. Otherwise all material is retained twelve months and then destroyed (unless being re-used in future directories).

Publisher shall not be bound by any conditions printed or otherwise appearing on order blanks or copy instructions which conflict with the provisions of these policies and the ad specifications.

Publisher reserves the right to cancel a contract upon default in payment of unpaid charges by the advertiser.

Publisher reserves the right to give a better position than specified, at no increase in rate.

What Format Does My Ad Need to Be In?
