

Raja Rogers Meeting Notes
October 11, 2006

Jeff L	Getting local donations; 14 signed up for CBE tour; giving an RC.
Ray	36 for CBE tour; no direct mailing; just emailing 100's and 100's; Alcine and Jim S are also working on it. Got a good in with the Global Understanding foundation. We're only bringing in Sarina and Nick, a student, and Carol Lubetkin (who did the program at the Detroit school). We wanted to get Ashley Deans and Rutherford parts of the DVD without any introduction. Peter Wallace is going to do the intro. John Hagelin is calling in. Is there anyone who can cut up the DVD and give us the sections we want?
Elaine	Send me an email about it and I'll see if my brother can do it (he works in that office).
Carol	A network wants to do an interview.
Jane	They had discouraged us from involving the press. Until these programs are very secure we don't want to arouse any concerns about entanglement with the Christians.
Raja Rogers	We should go by Bobby Roth's recommendation.
Carol	It's a public service network. A friend of a meditator suggested it. They asked if they could do an interview before the conference.
Raja Rogers	Better to wait until afterwards as we are targeting our audience specifically to those in education. Fabulous that the whole state is involved. We should do that in NC too.
Jane	Any qualifications Governors should have to get recertified? Some time expectations?
Raja Rogers	Strongest people with the track record of really being devoted. It seems like there is a recertification course in the works. So now we are being very judicious about recertifying anyone in the next few weeks. Unless there is an urgent situation.
Regine	In St. Augustine – doing group program twice a week, 6-8 people. 7 people have gone to DC or FF. 1 Sidha is moving to FF for 1 year.
Raja Rogers	Please stop by if you come to FF. My number is 404-754-8616 – cell phone. Want to emphasize that Maharishi is very focused on people coming to the MVC/FF course, or the DC course. That's why he's putting a great push on having the pundits coming and putting his constant attn on the course. He's going for the top level, #1 exp, that exp of the complete transcendent in flying, sidhis or meditation. Not really looking for exp in activity now. Starting to investigate the fine mechanics at those very subtle levels. Our domain has the largest population domain – 22% of the US population in our 10 states. I'm expecting to have a few states and cities be turned over to some of the new Rajas. Raja Wynne – over 1200 signed up. Konhaus – over 500 signed up. Raja Rogers – over 300 signed up. 70 foreign guests are coming in 7-10 days.
Dori	2 ladies signed up to learn TM. 2 men learning next month. One of our best

	Sidha families was going to FF, but the day before they were to leave, they were told that they would get rooms on opposite sides of campus. So only the father went. So perhaps MUM should emphasize the need for housing for families. Is there any way Recerts could hear Maharishi's lectures about experiences?
Raja Rogers	Right now, no. Maharishi has elected not to put it on the MOU channel. He calls at 9:30 in the morning because people are reporting the experiences more clearly right after their first round. My suggestion for Recerts is to come to the course from time to time.
Alcine	BellSouth told me about a service whereby people type in key words, like "blood pressure," and your ad will come up.
Raja Rogers	I'll look into this. The Raj does the paper click through Google, Yahoo. There's a local company that helps us with this.
Jim	Google will do this by demographic area.
Raja Rogers	We'll be putting this ad in our area in a newspaper where Sidhas and Gavs would come across it. It says, "Enjoy Yogic Flying." It invites Sidhas and Gavs to the Inv America course. Maharishi is strong on this, as well as other initiatives to increase the numbers on the course.
Debbie	Natural Awakenings magazine and other such magazines are a good suggestion and may be better than some newspapers.
Ruth	In our ads for intro lectures, we added one line, "Inviting current meditators to our advanced meetings."
Raja Rogers	The pundits are coming. We're having to build infrastructure, roads and houses. Maharishi wants to start out with a big number like 200-300 and then build from there. We'll move back to Tuesday night meetings.
