

Meeting Notes with Raja Rogers

October 21, 2005

1. Salary guidelines were emailed out by Charlie. One Gov expressed disappointment that didn't get full salary as we need it in order to survive and Center income was high. Disconcerting when target moves each month.

Raja Rogers will try to talk to Dr. Feldman about this. Policies are getting more refined. Rajas do not make financial decisions.

2. This Tues, full page cover story in Asheville Citizen-Times on the TM program and benefits to health will appear.

3. Hagelin and Lynch tour – have they been teaching from this tour? Lots of interest. Some teaching is taking place. But staff wasn't ready to meet the demand. They will go to CA in Nov. Jan/Feb – David will be avl. Raja Rogers will continue to lobby for a SE tour.

Webcast? David Lynch will be at UC Berkeley on Sun, Nov 6 at 7:30pm PST. Raja Rogers will confirm if there will be a webcast and how locations can connect. He will let us know by the next meeting.

Fundraising? They have had some success. A lot of money has been raised, but have not received the go-ahead from Maharishi to offer TM for free to the students.

In the Vedas, a great master was teaching Arjuna the art of war. After learning art of war – Dhanur Veda - the teacher said – now you must pay me. This is because the weapons won't be effective without dakshina - some gift must be given. Everything in the relative has a cost – even meditation. In India, you spend a year or two in an ashram and then if you are lucky, teacher will initiate you. Our society doesn't understand this. The test in the West is finances.

4. One Gov asked about Adv lectures – any resource for Maharishi videotapes?

Candace – best source is MOU Tape library. Will be checked with Int'l.

Raja Rogers – watch press conference weekly and tape it.

John Revolinski's Health Day Seminar fee? All right to offer for \$45 as proposed? Raja Rogers will discuss with Mark Piper and Dr. Feldman as to how to enter in NetSuite and will get back to us about this.

5. Okay to use a hotel room with a bed? Better to find a hotel room with a suite and use the outer room without the bed.

6. Maharishi has approved land in Atlanta and around Augusta, GA and Gainesville, FL and Asheville, NC. Submit land while the window is open. Some locations - 2 pieces of land were approved.

7. Buy the land, get a Peace Palace up. In reference to the Houston Peace Palace, Maharishi said, “As the storm approached Houston, it woke up and veered away.”

8. Having very good luck with one builder in our domain, who can get financing and can build the building. So find land so they can build there.

Both types of locations are being accepted for purchase – large area with housing (2 -2.5 acres) and commercial area with space for caretakers to live.

9. Whatever the sale price of the house is, we would like 20% of that.

10% licensing fee and 10% royalty – includes all Sthapathya Ved plans, etc.

Now able to build custom homes? Could be possible, but not real clear. To do quickly, go with a pre-designed house. Raja Rogers and Candace will bring it up to Eike again.

For example, if builder builds a house at \$100,000 and it is appraised at \$140,000, we take 20% - \$20,000. So we are taking \$20,000 of the total profit. But value to developer is that he is building something unique - fortune-creating homes, plus the development is a marketing opportunity.

Generally we buy the land for PP and developer buys land for a housing development, but we can always bring any variations up to Dr. Feldman.

10. Indian communities – present to them about Sthapathya Veda communities. Then show a developer the demand from Indian families to live in those types of communities. Some Indian community members even own banks.
