

Raja Rogers Meeting Notes  
8-15-06

Raja Rogers: Great feeling in MVC! MMY wants everyone to stay because we are close to the SuperRadiance numbers. The experiences are very, very good nearly every day. Important to synchronize our flying times and inspire everyone to come.

Tony: The new instruction you gave on the phone call – no time limit for flying. Is this correct for the field? And how about consistency on a daily basis?

Raja Rogers: Seems like consistency is out the window. Some have flown all through the night. But we don't make a mood of it. Focus on rest and flying – that's the main instruction. Absolutely no strain. If we feel enjoyment and bliss and having good exp, then we can continue. Don't mind the time. We keep some semblance of boundaries, but if the bliss is there, then we stay there, not minding the time.

Steve: This instruction applies to non-flying?

Raja Rogers: yes. MMY was talking over a year ago about how evolutionary flying is.

Jeff: Can I debrief Sidhas privately if they missed the call and live far away?

Raja Rogers: Tell them to focus on rest and flying. And if they have a deep exp, they don't need to feel like they have to move on to the next sutra. Don't tell them about flying for 3-4 hours – they should get that instruction on the Inv America course.

Diana: What do we tell people on WPA?

Raja Rogers: Tell them the above.

Patrick: How about during group program and they didn't receive the instruction and others are still flying and they ask why people are flying so long?

Raja Rogers: We can give them the adv directives if we are in a vastu flying hall and it is a Recert Gov who gives it. We need to be very very sure that people are not mood-making and not straining. Keep instruction to telling people to fly 1 – 1.5 hours, unless they've been on the Inv America course. Be very strong with everyone about not straining. Don't have a conf call about this. If they ask about, say "favor rest and flying." And if ask more because they see people flying longer, then say that MMY has okayed an hour – 1.5 hrs. People shouldn't be flying longer than 1-1.5 hours unless they have been on the Inv America course.

Patrick: A local drug and alcohol rehab center has asked us to teach all their clients (in-residence), 85 men. We met with the head psychologist who is a Sidha and our "in-house champion." Will meet with leaders of the facility tomorrow.

Jane: Good idea for them to check with Dr. Dillbeck because people under stress may need more than just TM?

Raja Rogers: I'll check on this.

Jeff Murphy: Donations, expenses for Consc-Based Ed tour?

Raja Rogers: We are opening an account to receive donations.

Elaine: Expenses can be entered into NetSuite under code: Teaching Expenses: Conferences and Meetings.

Donations should be by check payable to GCWP. Mail to Elaine along with receipts for the donation monies.

Jeff Murphy: Can we compensate a Sidha for their time in compiling a mailing list?

Jane: You can go online and find names, etc.

Lewis: There are software pkgs that let you harvest names from a website. Also there are companies in India that do the same. Egrabber.com, webrespond. You highlight all the names and it will automatically put it into ACT or a spreadsheet.

Jane: We are talking about 10-15,000 names.

Lewis: Have people email me a sample sheet of the data and I can get a quote from a company that does this ([www.dataorient.com](http://www.dataorient.com), Roheat is his name.).  
[lweiss@globalcountry.net](mailto:lweiss@globalcountry.net)

Dori: But every site has a different format.

Lewis: That's why this company would be better than using software.

Ray: New England Gov used [listlady@flash.com](mailto:listlady@flash.com) or [listlady@flash.net](mailto:listlady@flash.net). \$1000 for a list of 10,000 people. It's important to get teachers to the CBE meeting. They are the ones who initiate the change. They had 7 schools respond to the CBE tour so far in New England.

Raja Rogers: Jane, Lewis and Ray should talk about this and let me know and we will make a decision. Jeff – talk to your local Sidha and see if she is as experienced as these companies just mentioned.

Steve: Should people meet face-to-face with the Superintendent to talk about tour and to get them to send the emailing out to teachers?

Raja Rogers: Yes, very good.

Ray: A lady in New England said the most effective tool was email.

Ray: 5 people going to Inv America course after Raja Rogers's call.

Raja Rogers: Very good. This seems to be the time. People are literally floating around in bliss all the time.

Jane: Printing of mailing for CBE tour should done by Canadian Gov or by MUM Press?

Raja Rogers: Get prices first. We want to keep the money in the movement, unless the price differential is great or MUM Press price is too onerous for our domain.

Meeting next Tuesday night.
