

## Excerpts from "BUCKY FULLER MEETS THE BIG KAHUNA"

In our quest to define the nature and extent of the universe we thrust our perception outwardly to the farthest reaches of time and universe. Concurrently, we delve inwardly to determine the construction of the smallest particles. As we expand our perception to the edge of the known universe, our senses perceive phenomenon which relative to us, no longer exist. The farther our perception expands, the larger the spatial distances, the larger the incremental time relative to us.

Reassuring to us and our need to qualify, define and integrate into the laws we have enacted to express these events, as we examine the small, the micro-side of universe, the incremental time relative to us is smaller or faster. So much faster that through applying these laws which we have enacted, we are aware of events which have yet to happen.

This symmetrical view of the universe is very reassuring to us. I say we having enacted these laws, because that is exactly what we've done. We need them in order to describe and visualize the events and phenomenon upon which we concentrate. So whether we look outward to the larger, slower macrocosm or inward to the smaller, faster microcosm, we are looking at the same thing, looking in the same direction. We are thinking.

Universe is thought and the laws of science or whatever language we use, or whatever symbolic representation we use is simply relative to the local system focal point (in our case, the individual or collective human intelligence) and its perspective, language, believe system, memories and general perception of who, what, where, and when this focal point understands itself to be.

This is a very momentous time in the evolution of human consciousness. It is the turning of a page, a millennium on some calendars. A time prophesied by many cultures as a pivotal turning point of great importance.

It is, in the least a time when certain types of knowledge is increasing in the human consciousness at a geometrical rate. That is not to say

that our ability to use said knowledge in an intelligent or creative way, is increasing in proportion.

### Knowledge is dimensional.

Descriptive knowledge relative to an object or phenomenon defines and positions that object or phenomenon.

The more definitive the knowledge, the more precise the definition or positioning of said object or phenomenon.

These statements also apply to abstract ideas, propositions, statements, theories or thoughts.

Like an object or phenomenon, a thought or idea, is also defined by its positioning or relativity to other thoughts or ideas and by the data relating to it.

The system by which we position, measure or triangulate thought must itself be accountable to the same logical process of positioning, measurement or triangulation.

This accountability allows for definitive measurement and positioning of all physical phenomena and abstract thought only by the presupposing that there is a constant in universe.

There is one: **All data is fluid**. It is this fluidity, which is the only true constant of universe. And like an electron, data is affected, positioned and defined to some degree by the perspective of its observer/s. Therefore, thought or conclusions based on this data must also remain fluid or become obsolete.

It is this constant, which, while in the process of measuring, defining or positioning, holds a final, definitive reference point always just out of reach.

Universe is simultaneous.

One cannot measure one's self.

The stage upon which this theatrical production called reality is being produced, is composed of sets and backdrops whose degree of realism is relative to how closely they will be examined by the players or audience. In other words, as we examine a phenomena or object or law of science, it will define itself simultaneously only to the degree to which we examine it.

**The tetrahedron is the first defining structure, the first packaging or differentiation.**

**When you view the tetrahedron or any of the shapes on these pages, shown as lines, remember that each vertex or intersection of angles is actually the center of a sphere of influence radiating outwardly (and of course inwardly) in every direction..**  
**The 60 degree angle repeats itself infinitely and explodes outwardly and implodes inwardly to become a matrix or grid like structure or the**

filling space as a system, definable at its minimum but inconceivable at its maximum. This matrix exists in a state of “potentia” or potentialness. It awaits an observer and an action (thought) to manifest at a local system focal point .

There is but **one** entity who discovers it's existence and with a grand sense of theater, or perhaps from sheer loneliness, loses itself in infinite illusion, becoming the ultimate schizophrenic by maintaining an infinite number of seemingly individual, local system focal points of consciousness.

**CONSCIOUSNESS IS UNIVERSE!!**

**UNIVERSE IS CONSCIOUSNESS!!**

**THERE IS ONLY ONE THOUGHT**

**THERE IS ONLY ONE MIND**

**UNIVERSE HAS NO SIZE BECAUSE IT IS ONE.**

**ALL SHAPE AND ACTION ARE SIMULTANEOUSLY**

**POSSIBLE IN THE --**

**SIMULTANEOUSLY OUTWARDLY**

**AND INWARDLY 60 DEGREE PROPAGATING UNIVERSE --**

**ME**

AS THIS NARRATIVE PROGRESSES, AT SOME POINT,

IF I AM TO SPEAK FACTUALLY,

I WILL NEED TO BEGIN REFERRING TO UNIVERSE AS "I"

**TO PROCEED FARTHER,  
YOU MUST SEE YOURSELF AS UNIVERSE!!**

\*\*\*\*\*

WHEN I WAS VERY YOUNG MY MOTHER TOLD ME THAT GOD WAS EVERYWHERE,

HE WAS INSIDE US ALL...

I KNEW SHE WAS RIGHT EVEN THEN BUT THAT POSED A VEXING QUESTION..

WHERE DOES "ME" END AND GOD BEGIN? THE ANSWER LIES IN SIMPLICITY...

**THERE IS NO DIVISION.**

MOST OF US WHO TAKE THE TIME TO PONDER THE MIRACLE OF EXISTENCE,

HAVE COME TO THIS UNDERSTANDING ON ONE LEVEL OR ANOTHER.

GOD, THE CREATOR, IS... THIS PHYSICAL UNIVERSE .

GOD IS ME

AND I AM GOD.

SO SIMPLISTIC

CHILDLIKE PHILOSOPHY.

BUT TAKE THIS THOUGHT ONE STEP FARTHER...

MY PHYSICAL BODY AND ALL MATTER IN THE UNIVERSE,

NOT COMPRISED OF COUNTLESS NUMBERS OF PARTICLES

BUT SIMPLY TRAILS LEFT

IN THE CLOUD OF SMOKE WE CALL TIME

BY THE SINGLE PARTICLE...."WE"....." I " .....

**ALL DONE WITH SMOKE AND MIRRORS**

MY THOUGHTS.....ARE THEY BUT MERE REFLECTIONS ,  
FRAGMENTS OF INFINITE COSMIC THOUGHT ?

**NO**, THAT WOULD IMPLY THAT THERE IS MORE THAN ONE THOUGHT.

**THERE IS NO DIVISION**

**ONLY ONE THOUGHT.**

WHAT WE BELIEVE TO BE THE INDIVIDUAL THOUGHT,  
"DID I PAY THE PHONE BILL?" HAS NO DIVIDING LINE FROM  
ALL YOUR PERSONAL THOUGHT , PAST AND FUTURE , IN SO CALLED "LINEAR TIME.

BUT GO ONE STEP FURTHER...

YOUR LINEAR THOUGHT HAS NO WALLS OR CEILING.

IT HAS NO RESTRICTIONS AT ALL

AND IT'S NOT LINEAR AT ALL.

THE ONLY THING THAT SEPARATES YOUR THOUGHT FROM MY THOUGHT  
AND THE ONE THOUGHT THAT IS THE STUFF AND GLUE OF REALITY,

IS THE **PRIME DIRECTIVE OF "THE ONE"**

AND THAT IS "PRETEND TO BE MANY"

**MY PERSONALITY, YOUR EGO**, THE TOTALITY OF ALL **I...YOU** CONSIDER TO BE **ME...YOU**

IS, IN **OUR** LOCAL SYSTEM FOCUS POINT, **THE PERSONALITY, THE EGO OF GOD.**

CONSCIOUSNESS IS UNIVERSE

Just because, through our senses, we are limited in what we perceive by the position or perspective of our senses does not mean that our consciousness is so limited. All consciousness is one and is completely accessible to the concept "you" or "me", the moment that we **stop thinking with our senses**. And there's the rub! **Doesn't that defeat the purpose?** From the minimum, from the first awareness of other, from

the first differentiation of "is" and "is not" the sole motivation, the prime directive of the prime mover is diversification and the interaction or drama of these diverse perspectives. What I consider to be me, or what you consider to be you, the ego, the soul, is simply a collection of data formulated by interaction with stimuli perceived by our senses and triangulated against previously collected data to form a subjectively cohesive reference point. Consciousness or intelligence would not continue this game if that were all there were to it. What drives consciousness to continue, to exist at all, is the subjective reflection and subsequent drama produced by the juxtaposition of the referential points of perspective. What we do with our lives, the decisions that we make and the artistic awareness and appreciation based on this data is the **food of universe**.

**ACCEPTING THIS ON A VERY PERSONAL LEVEL, WE BECOME OMNISCIENT.**

**UNIVERSE BECOMES OUR CLAY TO MOLD AS WE IMAGINE.**

And here's where the fun begins . To be aware of everything is to be aware of only one thing and that can become exceedingly boring. Hence the universe as we know it. On the other hand to be an individual, a human being who lives his or her life, filled with the richness of drama in which even the most mundane life is steeped, and not be aware of its implication is also tragically boring. So, is not the optimum position that of the cosmic surfer, balanced on the crest of the wave of life. While the need to achieve awareness of all things and the progression or growth of that awareness is the food that fuels the individual, it is the subsequent titillation of this local based drama receptor that fuels universe. In other words if you expand your mind or consciousness to the point of awareness of all things eventually life becomes meaningless. Conversely if you see your life only from within its one perspective then that too can become meaningless. But to live your life as a wonderful drama and view it from both without and within, satisfies the hunger of both universe and individual.

MY THOUGHTS ARE GOD'S THOUGHTS

MY IDEAS ARE GOD'S IDEAS

AND AS GOD, THE THINGS "WE"....." I " .....IMAGINE, COME TO PASS

TO SPEAK OF THIS AT ALL WE MUST **PRETEND** THAT....

**WE ARE "WE"**

**AND NOT "I"**

**Attempting to communicate this understanding of reality, whether to others or simply putting the concept into human comprehensible language, causes an inherent logical paradox to surface and that is; once you know that you are god, once you experience total understanding, the emptiness of oneness returns and you remember why you play the**

game of illusion with yourself and this remembrance causes  
you to want to cease the communication and

**get on with the drama of life.**

\*\*\*\*\*

**THERE IS ONLY ONE WAVE**

**IT IS OMNI DIRECTIONAL IN ITS PROPAGATION.**

**IT LOOKS LIKE THIS**

**IT CYCLES IT'S AWARENESS OR PERSPECTIVE OR POLARITY ..**

**THROUGH THE GLAMOUR (ILLUSION) OF TIME.**

**IT IS THE ONLY CONSCIOUSNESS, THE ONLY AWARENESS. IT IS POTENTIALLY EVERYWHERE AT ONCE. IN THE STATE OF**

**POTENTIA, SOMETHING DOESN'T EXIST UNTIL THE OBSERVER OBSERVES IT (OR THINKS IT) AT A LOCAL FOCUS POINT.**

**IT MANIFESTS AND THEN IT WAS ALWAYS THERE.**

**WHEN ONE MEDITATES ON THE PROPAGATING ANGLES OF THE TETRAHEDRONAL  
60 DEGREE MATRIX, THROUGH A PROCESS SIMILAR TO SYMPATHETIC VIBRATION,  
THE MIND BEGINS TO REACT, ON A CONSCIOUS LEVEL, TO THE PATTERNS, THE SAME PATTERNS BY WHICH IT CONCEPTUALIZES  
CONSTANTLY ON A SUB-CONSCIOUS LEVEL.**

**And that's how you must form the thought you wish to manifest.  
From the minimum, expanding and contracting through the  
tetrahedronal matrix outside of time and defined as a tetrahedronal  
thought package,  
reiterating at each frequency of outward and inward repetition.**

**I WOULD STRONGLY SUGGEST YOU VIEW THIS  
ANIMATION OF THE TETRAHEDRONAL MATRIX WITH

**BUT REMEMBER ---**

**IF YOU ARE TRYING TO MANIFEST A NEW CAR FOR EXAMPLE,  
THOUGHTS ARE NOT OF THINGS BUT HOW WE SUBJECTIVELY,  
EMOTIONALLY, RESPOND TO THESE THINGS**

**SOON I WILL COMPLETE THIS TEXT ON THE EXPLANATION OF THOUGHT MANIFESTATION AND A VERY SIMPLE AND CONCISE METHOD FOR IMPLEMENTING IT....BUT IN THE MEANTIME, YOU CAN BEGIN CHANGING YOUR NEURO-PROCESSING SIMPLY BY MEDITATING ON THE NEXT PAGE--**

**WARNING!! BE VERY CAREFUL WHAT YOU VISUALIZE WHILE MEDITATING  
ON THESE SHAPES. DO NOT DO THIS IF YOU ARE ANGRY OR DESPONDENT.  
ALSO I WILL MAKE NO ATTEMPT TO MORALIZE BUT REMEMBER  
"WE ARE ONE AND WHAT YOU DO OR THINK AFFECTS US ALL"**
