# INTRODUCTION

This book is the culmination of years of reading, investigating, and practicing the Enochian tradition of Ceremonial Magick to simplify the long procedure of calling the powers of the Enochian Watch Towers without all the paraphernalia of tables, wax circles, and the long prayer of John Dee. The book can be used as a standalone book of Low Magick and influence the material plain or it can be used as a companion book for Books of Scholars like Aaron Leitch or the Enochian Vision Magick of Lon Milo DuQuette for High Magick and Spiritual Enlightenment.

If you have read books from The Gallery of Magick or Jared Tempest, you'll be familiarized with the way things work and want to use the Sigils now, but I advise to not do this, read the whole book and be patient you need be careful about Enochian Magick, it isn't something to take lightly.

This aren't your normal Angels nor Demons; this are beings that are made from the raw energy of creation, these intelligences weave the fabrics of reality and can be very dangerous in the hands of the impatient.

# ENOCHIAN MAGICK

First, we must start with a question: ¿What is Enochian Magick? In summary we can say that Enochian Magick is a Ceremonial Magick system based on the writings that were found in journals that detailed scrying sessions from the scholars John Dee and Edward Kelley in which they claim to be talking with angels.

This Angels gave them an encoded language that they decipher and something that we speculate is that could be a form of Proto-Hebrew before the Tower of Babel event because of all the similarities and correspondences later attributed to the letters, another interesting thing is that Dee never called the alphabet Enochian, he referred to it a Celestial.

The Enochian system use a combination of complex rituals with very loooooong (but beautiful) prayers, magical tools, magic squares, seals that must be carved in wax and altars with specific measurements with the letters of this Celestial Alphabet to call on Angels and other Spirits. The system has a heavy influence in the Hermetic tradition and that's why there is heavy emphasis on the five elements which are Air, Water, Earth, Fire and Spirit/Ether

.

# THE METHOD

## *Part I: Desires*

This is the long part of the book, to do the invocation without the long Keys, payers, tools, tables, and seals we'll be using a series of rituals that will open a portal to facilitate our connection with the celestial realms, charge the room with the appropriate elemental energies and make sure our request can be heard by the entities of the Enochian Magick System.

First we need to know what is what do you really want, it is important to know this since the enochian entities do not need your feelings to act, they will do exactly what you told them to do without carrying, if you are experienced in Low Magick probably you have noticed that sometimes it doesn't matter which entities you use, the result you want doesn't happen, you do exactly what the book said, do offerings, or even make the ritual for some days but your desire just doesn't manifest. This is because some entities aren't willing to make things that will harm you in the long run, even demons won't act unless there is a lesson in the end, but the Enochian entities doesn't care if you end hurting others or yourself or become regretful for all the chaos and destruction you caused, your feelings are irrelevant to them and this magick. They will only care if your will ends interfering with the will

of the lord of the universe. Be mindful of your desire for you may get what you want but not what you really needed and in that is a lesson to learn.

Second you must choose a sigil that will do the trick for your desire, try to be creative with the power, “creativity brings clarity” (Damon Brand). Don’t worry I will give examples on how to uses each set of angels but try to be creative.

## *Part II: Sigils and Pathworkings*

### **Pathworking**

¿What is a Pathworking? A Path working a guided meditation that require the visualization of a mental scape or series of images that are associated to the power or intelligence your are trying to channel.

The science of this technique is unique and I'm going to explain it. The mind doesn't process the things you visualize o tell yourself as fake, for the mind your fantasies and all that mental movies are happening and will believe your self-talk. In ancient times people used to make pilgrimages with specific timings of astrological phenomenon to get to the temple or altar of a deity with specific paraphernalia, and incense and a specific ceremony to call a deity, these meditations are in some way a Pilgrimage through a mental or astral realm associated to the power or entity.

¿What if I have problems to visualize or have aphantasia? Don't worry my friend I got you covered, and this will help you with other books with pathworkings.

You people only need to say the sentence in your mind, but it would be better if you say it out loud with the word "I see" or "I'm in" tell yourself that you are seeing, smelling, hearing, standing, or walking through the images, this will trick your mind to believe they are in the place and is seeing what you are saying.

At the end of the final image traditionally you recite a mantra or the name of the entity or nothing is just to channel a kind of energy or power.

Always close the path working or you will maintain connection with the power or entities of the path working, and you may face a change in your energy, even a partial possession depending on the nature of the entity. The connection exposes you to the energy and

when exposed for a long time it may overwrite your energy changing your behavior and acquire attributes of the power or entities.

For example, let's say you make a Pathworking for Lucifer, but don't close it or you expose yourself too much to his presence, you will experience a shift in your energy that will make you become more rebellious against authority figures, obsessed with discovering truths and awakening people to reality but also will make you prideful, stubborn, egocentric, narcissistic, etc. You will gain the positive and the negative attributes of the entity.

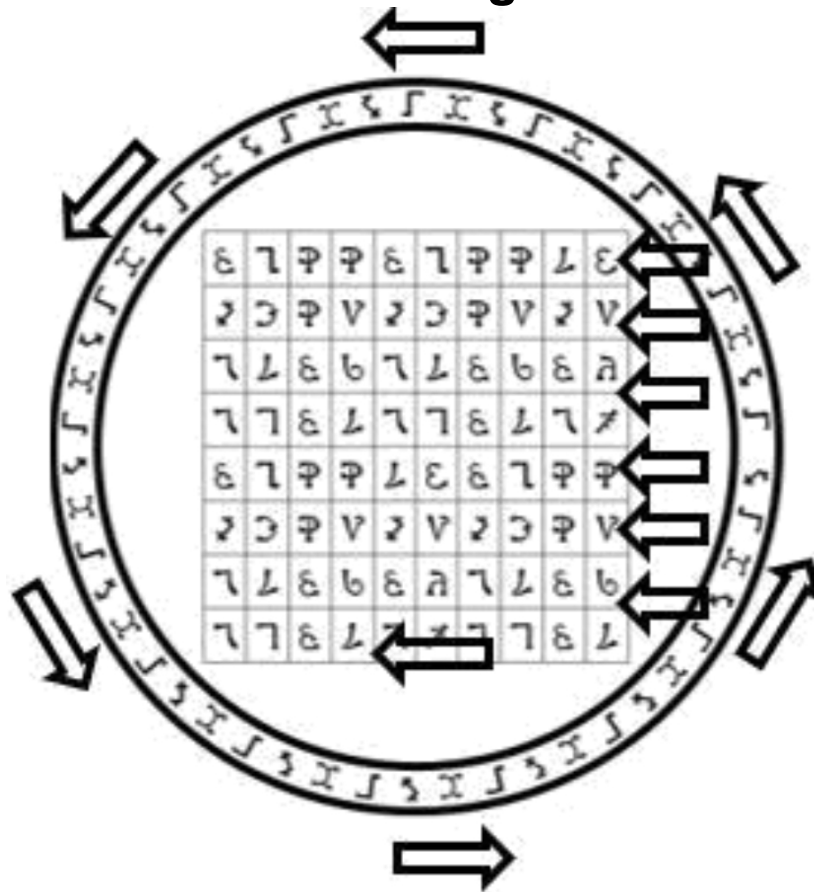

Be careful, for you may become what you channel.

## Sigils

The function of a sigil is to work as a talisman that connects entities you want to call, with the magickal enochian most of the magick comes from the letter because like Hebrew it has elemental and astrological correspondences. To use the sigils first you need to scan it from right to left, ¿what do I mean by scanning? to scan the sigil I mean to look meticulously each letter from the sigil and ¿Why from left to right? Because like in Hebrew enochian is written from right to left and also because your brain retains and analyze better visual information to the point that can go directly into your unconscious better. Getting in to the unconscious is the key to establish a connection with the realms beyond the veils of the conscious world, that's why entering in altered states of consciousness that drop the brainwaves from Beta (waves related to alertness) to a state between Alpha and Theta (waves related to relaxed state of wakefulness and altered state of consciousness) with long prayers, chanting mantras, tribal dances, tacking special concoctions, or attaining an orgasm.

To scan you will start with the outer circle from left to right three times and then you're going to scan from left to right the square three times then you will proceed to say normally, vibrate is like Mongolian chanting, or sing the name of the entities three times while you see the sigil.

## Instructions On Working With The Sigils:

Scan all the sigil three time.

Memorize the name you are going to say.

Look at the sigil and say, vibrate or sing the name three times and repeat the process until the last name.

For last you will say the names in one straight sentence and your request three times.

### *Part III: The Request*

Your request must be realistic and by that, I mean to operate in the frame work of reality, you won't become rich if you don't have a good place in your work place or a business, you won't have a chance to meet someone that can love you if you don't go out to meet people or without talking to them. You must act and have faith.

To craft your request, it must be crafted in way that doesn't state the future unless you want the spell act within a specific set on conditions for it to trigger, you can pray your request (personally this is my favorite) if you are into that sort of religious way to ask for help.

Here are some examples:

*I ask you to enhance my intellect.*

*You enhance my intellect.*

*My intellect is getting better.*

*I ask you to increase my chances of meeting someone I like.*

*You increase the chances of mitting with someone I like.*

*I'm mitting someone I like.*

*Oh! Might Angels Potent in the Mixture of Nature, you who have power over entropy guide me in my search for a partner that loves me for who I am, for too long I've been mistreated by partners who only liked me for my body, so please help me.*

You also can say your request every time you finish to say a name three time like this:

*Oroh, oroh, oroh I Ask you to increase the prosperity of my business.*

*Ivah, ivah, ivah I Ask you to increase the prosperity of my business.*

*I recommend writing it on a paper for you to read it because some time when achieving an altered state of conscious you may get*

*carried bay the energy and go deeper in the trance state and forget.*

## *Part IV: The Operation*

Now what you desire.

Write down your desire.

Choose a Sigil that can help you.

Do The Path Working of Celestial Power, this ritual will make a shift in your consciousness, empower you with divine celestial energy that will raise your vibrational state so you don't drain yourself when practicing Magick, listening to subliminal or morpnic audios and can also be used for recharging when drained.

Do The Enochian Ritual of The Elements, this ritual will connect you with the enochian elemental dimension and charge yourself with the power the elements.

Do The Ritual of Creation, this ritual calls the Archangels of Creation to empower and safeguard the operation. (Optional and only in spaces like a specific rooms or places because the presence of the archangels of creation will charge you and the space with their energy and bring protection)

Scan The Sigil from left to right.

Say, vibrate or chant the names three times.

State your desire.

Call on the Serviant Angel or Evil Angels of the Four Elements depending on the nature of your desire to help the other angels with their elemental energy. (Optional)

State your desire.

To finish say “Ahmen” three time and “thank you”.

*If you did The Ritual of Creation, it is important to banish the Archangels if you did it in your personal room or other space, they will not leave and because of the energy of their presence you may experience sleep problems, or even attract changes to the place. Once I forgot I did it an operation in a decadent park and forgot to banish the angels and by the next week the government sent people to cut the grass, fix concrete and upgrade it in general, I live in a third world country these things don't happen, there is no budget for it.*

*To Banish them just say “Thank you Angels for coming, you may leave in peace.”*

Visualize the first image of the pathworking to close the ritual.

Close the book.

Repeat for 3 to 7 days.

# APPENDIX I: LETTING GO YOUR DESIRE

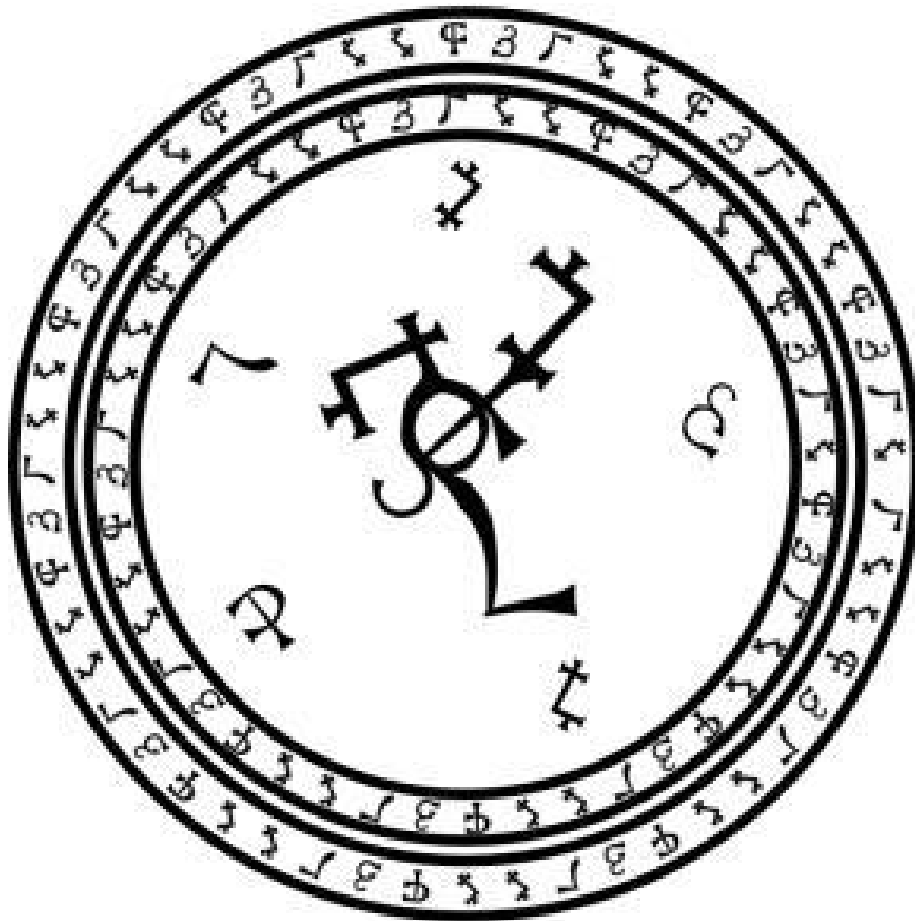

It is important to let go of your desire and not ruminate in your request after the magick is done in order for it to manifest and some people like me are impatient and that I included one of my servitors of my personal collection that I call The Enochian Avatars, the Avatars are servitors that are the energetic spiritual incarnations of concepts like Justice, Wrath, Strength. This Servitors aren't Enochian Entities of John Dee, they are entities created by me and I used the Enochian language for their sigils.

1. Scan The Sigil from right to left.
2. Say, vibrate or chant the name three times.
3. Say your desire.
4. To finish say "Ahmen" three times and "thank you".

If you liked how the Enochian Avatar worked, please consider subscribing to my patreon for a list of Enochian Avatars, more Pathworkings and Rituals that will be in constant update. I have big plans for the Patreon content.

# APPENDIX II: A PERSONAL REFLEXION

I've damaged people with these entities, people I hated and wanted revenge for the things they've done to me with results that filled me with euphoria and joy, I have destroyed businesses and lives ... but also, I've damaged people I loved and me in the process.

By this moment you can tell that I'm a practitioner of a Dark Magician, I like hurting people, I love destructive magick. In my younger years I used to be abrasive, egocentric, obsessed with the idea of controlling the will of others and my environment by the means of low Magick, I must advise The Evil Angels are very powerful, you can even use The Lesser Ruling Angels, Heptarchic entities, Elders and Cherubic Angels for evil, so please do the Spiritual and High Magickal work, it doesn't matter if you do it by The Left Hand Path or Right Hand Path don't be the kind of mage that I used to be. The Sleepers of the world do not deserve to suffer from the misplaced wrath of an emotionally incompetent, hipper sensitive, narcissistic, egocentric Wizard, Alchemist, Mage, Sorcerer, Warlock, Priest, Priestess or Witch.

# APPENDIX III: THE ELDERS AND THE HEPTARCHIC ENTITIES

I have other plans for the Elders and the Heptarchic entities, I'm still working with them and finding ways to make them work in ways within the frame of the Enochian tradition, expect them some time in the future.
